Ventricular assist devices and accessories - priced as shown

List: \$90,000. MedCon: VG. Thoratec Ventricular assist drives, chargers and accessories as grouped into three lots described in more detail below. As a summary, Lot 1 contains one Thoratec model 2600 pneumatic drive system, one Thoratec docking station, three TLC-II portable drives, and two TLC-II battery chargers. Lot 2 contains one Thoratec model 2600 pneumatic drive system, two TLC-II portable drives, and two TLC-II battery chargers. Lot 3 is accessories for Thoratec Heartmate, four Heartmate universal battery chargers, seven Heartmate power base units, and three Heartmate power modules.

Lot no. 1		<p>1 ea., Thoratec ventricular assist device, model 2600 pneumatic drive system This is a bedside VAD for use in a hospital room. right and left assist options with control panel for each The control panel displays mode, set value, rate, % systole, stroke volume, VAD output, eject/fill status, alarms, and AC or battery use. vacuum and pressure gauges 12.5-foot heavy duty power cord with hospital grade plug. wired for 110-120 V, 60 Hz.</p>	\$4,750
		<p>1 ea., Thoratec docking station for TLC-II portable ventricular assist device The station includes the Heart Touch computer and monitor used for start-up, diagnostics and downloading of event log for the TLC-II. The station has bins for two TLC-IIs (one is present) and one TLC-II battery charger (shown).</p>	

		drawer for accessories, operation manual included 10-foot universal power cord, wired for 100-240 V, 50/60 Hz.	
		Besides the TLC-II unit and charger shown on the docking station an additional charger and two additional TLC-II portable drives are included.	
Lot no. 2		1 ea., Thoratec ventricular assist device, model 2600 pneumatic drive system, 2 ea., Thoratec TLC-II portable ventricular assist device, and 2 ea., battery charger for the TLC-II	\$2,750
Lot no. 3		Thoratec Heartmate accessories. Includes 4 ea., Heartmate universal battery charger, 7 ea., Heartmate power base unit, and 3 ea., Heartmate power module. The power base unit is wired for 120 V, 50-60 Hz. and the charger and power module are wired for 100-240 V, 50/60 Hz.	\$1,675

Accessories in lot 3 are not related to the equipment in lots 1 and 2 but are for the older Heartmate model. The VADs are for post-cardiotomy recovery and bridge-to-transplantation patients and are for use with either paracorporeal or implanted pumps. The pumps have fill sensors that allow expulsion of the blood only when the pump chamber is full. This allows assist according to the patient's exertion level. Probably the original prototypes of VADs were probably fixed time pumping cycles.

Batteries are serviceable for equipment testing but patient use will require new batteries. Obviously, you must inspect and calibrate if necessary by qualified technicians before placing into patient use.

Shipping weight is about 770 pounds for lot 1, 620 pounds for lot 2, and 345 pounds for lot 3.

Allograft bone vice - \$2,175

List: \$8,350. MedCon: VG. Innomed model 8210 allograft bone vice. Used to hold allograft bone for cutting, shaping, and reaming.

Features:

- two sets of vice jaws, holds bones vertically or a long bone horizontally
- 8.25 x 11 inch base with table flange for stability
- autoclaveable

Shipping weight is about 16 pounds.

Laparoscopes

List: \$2,100. MedCon: VG. Laparoscopes /arthroscopes as indicated below.

1		Dyonics 30° laparoscope, ML29411 10 mm, 32.5 cm shaft	\$775
2		Dyonics 30° laparoscope, 7208129 10 mm, 32.5 cm shaft	\$776
3		Olympus 0° laparoscope, A5287, 10 mm, 32.5 cm shaft	\$777
4		Dyonics 70° laparoscope, ref 3628 4 mm, 15.5 cm shaft threaded proximal end	\$750
5		Dyonics 30° laparoscope, ref 3626 4 mm, 15.5 cm shaft threaded proximal end	\$750

Shipping weight is about 2 pounds each.

Surgical needles and eye blades - \$675

List: \$2,100. MedCon: VG. Anchor surgical needles and Beaver and Storz eye blades. Outdated stock in original packaging.

Contents of the lot:

- Anchor stainless surgical needles, box of 144, 1/2 circle, tapered point
- 4 ea., three-pack of Beaver 5920 eye blades
- 1 ea, three-pack of Storz 5210 eye blades
- 1 ea, three-pack of Storz 5910 eye blades, two blades remaining

Shipping weight is about 2 pounds.

Surgical sutures, outdated stock - \$1,275

List: \$2,700. MedCon: N. Surgical sutures from Ethicon and Davis & Geck. A variety of plastic-based sutures as shown in the photograph. Open dispensing boxes, the individually wrapped sutures are unopened. Although some contents have been removed, the remaining supplies corresponds to about 8 to 10 full dozens of unopened sutures.

Shipping weight is about 4 pounds.

Orthopedic spinal surgical instruments - \$1,375

List: \$8,371. MedCon: VG. Surgical instruments used for spinal bone removal. The photo to the left shows the complete set and the photo to the right shows a close-up of the cup ends of the KLS punch, the Jarit 2 mm

rongeur, and the Codman 6 mm rongeur.

Contents:

- 1 ea., Codman 53-1527, Kerrison cervical rongeur, 3 mm
- 2 ea., Codman 53-1423, Kerrison lumbar rongeur, 6 mm, drainage holes
- 1 ea., Codman 53-1420C, Kerrison lumbar rongeur, 5 mm, drainage holes
- 2 ea., Codman 53-1417, Kerrison lumbar rongeur, 4 mm upbite, drainage holes
- 1 ea., Jarit 281-061, Kerrison rongeur, 3 mm bite, 40° forward angle
- 1 ea., Jarit 281-060, Kerrison rongeur, 2 mm bite, 40° forward angle
- 1 ea., Weck rongeur, 2 mm
- 1 ea., Codman 80-1340 Hardy Sella punch, 40° upbite, drainage holes
- 1 ea., KLS 24-993-01 laminectomy punch

Shipping weight is about 7 pounds.

Set of large cannulae - \$875

List: \$4,350. MedCon: VG. Three sets of Storz 11 mm trocar/cannula and obturator/cannula assemblies

Contents:

- Storz 31103H1 cannula, 31103P trocar, pyramidal tip and 30103M1 multifunctional valve
- Storz 30103H2 cannula, 30103P trocar, pyramidal tip and 30103M1 multifunctional valve
- Storz 30103H6 cannula, 30103O obturator, 30103M1 multifunctional valve, and 30103C2 Hasan cone

Shipping weight is about 4 pounds.

Set of medium and small cannulae - \$876

List: \$4,500. MedCon: VG. Set of five different cannula/trocar assemblies by Stryker, Storz, and Weck.

Contents:

- Stryker 250-080-731 cannula (3.5 mm, stopcock and automatic valve) and 250-080-73 trocar (pyramidal tip, 3.5 mm, 155 mm length)
- Storz 30160H1 cannula (5.0 mm), 30160Z trocar (pyramidal tip, 4.5 mm), and 30160A1 automatic valve
- Weck 3 mm cannula and trocar
- 2.5 mm trocar/cannula assembly, unidentified manufacture
- 1.5 mm trocar/cannula assembly, unidentified manufacture

Shipping weight is about 3 pounds.

Orthopedic surgical accessories - \$575

List: \$1,669. MedCon: VG. Synthes clamp, rod and drill bit.

Contents:

- 2 ea., Synthes multi-pin clamp, 393.751
- 1 ea., Synthes carbon fiber rod, 394.85, 11 x 300 mm
- 1 ea., Synthes three-fluted drill bit, 315.40, 4.0 x 195 mm

Shipping weight is about 2 pounds.

Orthopedic surgical instruments - \$474

List: \$1,360. MedCon: VG. Smith and Nephew and Efratgo surgical instruments as described.

Contents of the lot:

- 1 ea., Smith and Nephew pseudo arthrosis chisel, 11-5128, 5.6 mm
- 1 ea., Orthofix Icon rod clamp, 54-1043
- 1 ea., Efratgo clamp, 207000

Shipping weight is about 2 pounds.

Surgical knot pushers - \$275

List: \$1,450. MedCon: VG. Storz 1X knot pushers, 26169M, set of eight. 5 mm x 300 mm length. Threaded distal ends of rods accept graspers and cutter attachments (not included).

Shipping weight is about 1 pound.

Diagnostic cannula and obturator - \$325

List: \$1,100. MedCon: VG. Dyonics 3869 cannula (4.5 x 130 mm shaft, rotatable with double stopcock) and 4356 conical point obturator

Shipping weight is about 1 pound.

Diagnostic cannula and obturator - \$275

List: \$1,110. MedCon: VG. Dyonics 4491 (4.5 x 130 mm shaft, rotatable with single stopcock) and 4356 conical point obturator

Shipping weight is about 1 pound.

Surgical screws and plates - \$875

List: \$4,300. MedCon: INC. Aesculap surgical screws, fixation plates and tools.

**Contents:**

storage tray with complete set of posterior screws (32 to 64 mm lengths) and incomplete set of anterior screws (32 to 40 mm lengths)

- tray with seven fixation plates and two tools

Shipping weight is about 8 pounds.

Urological electrodes - \$1,675 for the lot

List: \$7,600. MedCon: N. Lot of 77 Wolf electrodes for resection and tissue ablation used in conjunction with hysteroscopes, cystoscopes, urethoscopes and resectoscopes. Older stock in original packaging. A representative photograph of the stock and packaging is shown at left.

Total contents of the lot is described below.

Contents of the lot:

- 5 ea., knife electrode, 22/24 Fr, 8423.19
- 5 ea., hook electrode, 22/24 Fr, 8423.09
- 5 ea., cutting loop electrode, 24 Fr, 8424.1310
- 22 ea., straight cutting loop electrode, 22/24 Fr, 8423.04
- 17 ea., cutting loop electrode, 26 Fr, 8426.1320
- 4 ea., cutting loop electrode, 28 Fr, 8428.1320
- 10 ea., coagulating electrode, 22/24 Fr, 8423.01
- 5 ea., coagulating electrode, 26/28 Fr, 8427.012
- 4 ea., large coagulating electrode, 22/24 Fr, 8423.02

Shipping weight is about 10 pounds.

Cutting loop electrodes - \$625 for the lot

List: \$2,800. MedCon: N. Lot of 40 Olympus cutting loop electrodes. Older stock in original packaging. A representative photograph of the stock and packaging is shown at left. The photograph on the right shows the variety of cutting tips. Total contents of the lot is described below.

Contents of the lot:

- 2 ea., A2158, 24 Fr
- 1 ea., 83A2183, 24 Fr
- 12 ea., A2183, 24 Fr
- 6 ea., A2189, 24-28 Fr
- 1 ea., A2191, 24-28 Fr
- 1 ea., A2195, 24-28 Fr
- 4 ea., 83A2204, 26 Fr
- 9 ea., 83A2185, 28 Fr
- 1 ea., A2189, 28 Fr
- 3 ea., A2193, 28 Fr

Shipping weight is about 5 pounds.

Urethral catheters - \$475 for the lot

List: \$2,520. MedCon: N. Lot of 42 Rusch Phillips follower catheters (size ranges 8 to 24 FR are included) and 18 filiform catheters, olive tip, (size ranges 3 to 6 FR are included). Older stock in original packaging. A representative photograph at left shows the items and packaging.

Shipping weight is about 5 pounds.

Bugbee electrodes - \$325 for the lot

List: \$2,750. MedCon: G. Lot of eleven Bugbee electrodes of various cable lengths. Fulgarating diathermy electrodes are used in conjunction with cystoscopes, urethrosopes and resectoscopes for tissue ablation.

Shipping weight is about 2 pounds.

Resectoscope - \$475

List: \$1,540. MedCon: VG. Circon ACMI EMWE resectoscope and obturator set.

Features:

- top channel accommodates cystoscope (not included) and obturators
- bottom channel accommodates working element
- finger grip with rack and pinion advance lever
- also included, ACMI G162 sheath and set of eight obturators

Shipping weight is about 2 pounds.

Macintosh laryngoscope blades - \$475

List: \$1,870. MedCon: VG. Lot of 18 Macintosh laryngoscope blades.

Contents: Lot of 11 ea., # 3. 1 ea., # 3&1/2, and 6 ea., # 4 blades. Brands represented include Welch Allyn, Mercury Medical and Upsher.

Shipping weight is about 6 pounds.

Miller laryngoscope blades - \$474

List: \$1,655. MedCon: VG. Lot of 14 Miller laryngoscope blades.

Contents: Lot of 1 ea., # 1, 10 ea., # 2, and 3 ea., # 3 blades. Brands represented include Welch Allyn, Mercury Medical, Upsher, and Foregger.

Shipping weight is about 6 pounds.

Laryngoscope parts for refurbishment - \$275 the pile

List: \$12,300. MedCon: G. Laryngoscope handle parts and blades for refurbishment.

Contents: A lot of 8 handle parts, Macintosh blades (2 ea., # 2, 6 ea., # 3, and 7 ea., # 4), and Miller blades (2 ea., # 1, 1 ea., # 1&1/2, 4 ea. #2, 2 ea. # 3, and 2 ea., # 4). Handles are incomplete. Blades have either missing bulbs or light pathways, but are otherwise intact and untarnished. Brands represented include Welch Allyn, Foregger, Upsher, Mercury Medical, Sun Medical, Value Medical, Heine, Standard, Greenline, and Rusch.

Shipping weight is about 10 pounds.

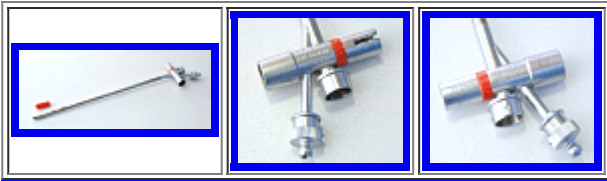

Laryngoscope handles - \$175

List: \$390. MedCon: VG. GE Vital View II handles. Set of three. LED light. To be used with single-use disposable blades.

Shipping weight is about 2 pounds.

Bronchoscope - \$350

List: \$1,700. MedCon: VG. Storz 10338C Doesel-Huzly bronchoscope. 4 mm x 30 cm.

Shipping weight is about 1 pound.

Trocar and cannula - \$275 each

List: \$890. MedCon: N. Comeg 302-1000 trocar and 301-1000 sleeve. New in original box. The trocar is 10 mm diameter. Cannula with fluid port.

Shipping weight is about 2 pounds each. 7 units in stock.

Liposuction aspirator - \$1,750

List: \$16,700. MedCon: VG. M. D. Engineering LS1000 power aspirator. 115 V, 60 Hz. An older but working unit.

Features:

- 13-inch diagonal color monitor displays aspiration parameters
- software version 5.1
- aspiration flow and vacuum control knobs with digital vacuum reading and graphical display
- footswitch activation of aspiration system
- 7.5- and 9.5-foot power cords with hospital grade plugs

Overall dimensions of the unit:

- width: 22.5 in.
- depth: 26
- height: 60

Shipping weight is about 250 pounds.

Cervical retractor / blades set - \$1,475

List: \$4,300. MedCon: EX. Cloward C50-1346 hinged cervical retractor with 71 blades. Self retaining. Ball snap closure. The photograph shows the retractor with one of each kind of included blades. The actual number and type of blades is given below.

Includes the following Cloward retractor blades:

- 4 Ea., C50-1381 blade with teeth, 60 mm
- 8 Ea., C50-1382 blade with teeth, 30 mm
- 8 Ea., C50-1383 blade with teeth, 35 mm
- 9 Ea., C50-1384 blade with teeth, 40 mm
- 8 Ea., C50-1385 blade with teeth, 45 mm
- 4 Ea., C50-1386 blade with teeth, 50 mm
- 8 Ea., C50-1387 blade with teeth, 55 mm
- 6 Ea., C50-1393 blunt blade, 35 mm
- 4 Ea., C50-1394 blunt blade, 40 mm
- 4 Ea., C50-1395 blunt blade, 45 mm
- 4 Ea., C50-1396 blunt blade, 50 mm
- 4 Ea., C50-1397 blunt blade, 55 mm

Shipping weight is about 5 pounds.

Cervical retractor - \$151

List: \$625. MedCon: EX. Synthes 422-640-10 longitudinal cervical retractor (spreader only, no blades). Hinged, 6.5 inches, length

Shipping weight is about 1 pound.

Dowel cutter set - \$475

List: \$1,900. MedCon: VG. Codman dowel cutter set.

The set contains:

- 3 Ea., 12 mm cutter
- 1 Ea., 13 mm cutter
- 3 Ea., 14 mm cutter, two different teeth styles
- 2 Ea., 16 mm cutter
- 2 Ea., 18 mm cutter, two different teeth styles

Shipping weight is about 1 pound.

Surgical drill bits - \$275

List: \$1,106. MedCon: VG.

Surgical drill bits. Six bits total of 10, 14, and 16 mm.

Shipping weight is about 1 pound.

Surgical instrument set with sizers - \$477

List: \$2,900. MedCon: VG. Surgical instruments from major manufacturers.

Contents:

- a variety of styles and sizes of sizers, 18 in all
- 1 ea of Jarit Carb-Bite 121-231 and 129-229 needle holders
- 1 ea. Pilling 35-7690 dissecting micro scissors
- Weck 640280 tenotomy scissors
- 1 ea. retractor
- 1 ea. tissue forceps
- 4 ea. blade holder
- Zimmer punches, 2480-54-03, 2480-54-04 and 2480-54-05
- unidentified pieces
- Mueller half length container (autoclave case), 6 in. deep, with inner lift-out tray

Overall dimensions of the case:

- width: 11.5 in.
- depth: 12.5
- height: 6.5

Shipping weight is about 14 pounds.

Surgical instrument set with retractors - \$671

List: \$3,100. MedCon: VG. Surgical instruments from major manufacturers.

Contents:

- 2 ea. Pilling 16-5402 Beckman Eaton retractors
- a variety of other retractors
- Kirshner wire tractors, 1 ea Zimmer 121-02 and 2 ea. 121-01
- 1 ea. DePuy 2276-12 Bohler traction metal loop
- curettes
- other unidentified instruments

Shipping weight is about 15 pounds.

Surgical aspirator accessories - \$1,750

List: \$6,230. MedCon: VG. Valleylab CUSA 200 accessories. One case contains a CUSA handpiece assembly set. The other case contains a platform and a part numbered TS0497.

Shipping weight is about 16 pounds.

Anesthesia face rest - \$375

List: \$725. MedCon: G. Cedar surgical P1100 anesthesia face rest. Plastic frame with fixed-place chin rest cushion and adjustable forehead cushion.

Overall dimensions of the unit:

- width: 9.5 in.
- depth: 6.25
- height: 3.5

Shipping weight is about 2 pounds.

Surgical shoulder positioner - \$975

List: \$3,200. MedCon: VG. Concept 'BeachChair' shoulder positioning system.

Features:

- to be used by attachment to a surgical table
- hinged frame supports back and head with access to shoulders
- back support has horizontal and five inclined positions (to about 80°)
- restraint strap at lower back level; other straps may be added to additional cutouts in frame

Shipping weight is about 35 pounds.

Surgical power drill - \$675

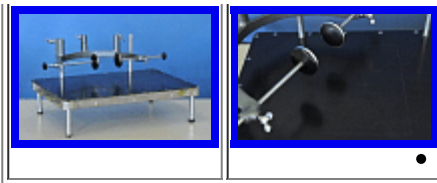

List: \$2,910. MedCon: VG. Xomed-Treace power handpiece, model 33-27100.

Features:

- 7.5 inches long, straight profile
- 48K speed
- to be used with MPS 2000 power console
- cable included

Shipping weight is about 2 pounds.

Stereotactic device - \$475

List: \$2,300. MedCon: VG. Kelley X-Ray Company stereotactic device.

Features:

- 17.25 x 12 inch black platform (4.25 inches high) with rectangle trace and centering cross mark
- curved holder has three receptacles that can be placed on either of two vertical rods on the platform for a variety of orientations
- padded supports (2 inches diameter) on the holder can be separated up to 8 inches
- appears to be for small animal procedures

Shipping weight is about 16 pounds.

Laryngoscope blades

List: \$3,500 per lot. MedCon: VG. We obtained these clean and in autoclave pouches from a hospital upgrading their stock. A representative photo showing one of each included size is shown below. Each lot contains more than thirty items. Various manufactures including Rusch. The exact contents are given in the description box.

List price for one blade averages about \$105 each.

lot	type	photo	description	price/lot
lot 1	Miller		Contents per lot: six of #4, twelve of #3, twelve of #2, two of #1, four of #0, and two of #00 Three identical lots with these contents are available.	\$1,475
lot 2	Macintosh		Contents of lot: ten of #4, twenty of #3, six of #2, and one of #1 One lot is available	\$1,470
lot 3	mixed		Contents of lot: Miller--four of #4, twelve of #3, two of #2, and one of #1 Macintosh--five of #4, ten of #3, and four of #2 One lot is available	\$1,480

Shipping weight is about 15 pounds for each lot.

Laryngoscope set - \$475 per set

List: \$1,372. MedCon: VG. Laryngoscope set as described below. Various manufactures including Rusch and Welch Allyn.

Contents:

- 1 each large and medium handles (uses two D and C batteries, respectively)
- Miller blades--two each of #4, two each of #3, two each of #2, 1 each of #1, and 1 each of #0
- Macintosh blades--one each of #4, three each of #3, and two each of #2

Shipping weight is about 6 pounds.

HERMES control unit - \$375

List: \$2,900. MedCon: VG. Stryker HERMES OR voice recognition control center, model 240-020-301 (manufactured by Computer Motion). 120/240 V, 50/60 Hz.

Features:

- voice card port (voice card not included)
- power on/off pushbutton
- power and system indicator lights
- headphone jack (headphone not included)
- eight device ports
- audio line out
- S-video in
- S-video out, composite out, RGB out
- universal power cord

Overall dimensions of the unit:

- width: 10 in.
- depth: 14
- height: 4.5

Shipping weight is about 12 pounds.

Prostatic thermotherapy unit - \$2,475

List: \$16,800. MedCon: VG. TherMatrx TMx-2000 console. 110/120/220/240 V, selectable, 50/60 Hz. Provides transurethral microwave thermotherapy for treatment of benign prostatic hyperplasia.

Features:

- applicator, reference probe, and three temperature sensors (two treatment control sensors and rectal temperature monitoring)
- IBM ThinkPad with TherMatrx Dataview software
- digital displays of desired temperature, power, time and sensor readings
- built-in printer
- treat, pause and stop buttons on the console
- remote activator button
- setup and operation cards
- universal power cord

Overall dimensions of the unit:

- width: 17.5 in.
- depth: 20
- height: 25

Shipping weight is about 60 pounds.

DaVinci ENT instruments - \$2,875

List: \$25,000. MedCon: VG. Intuitive Surgical DaVinci instruments. Partial set of instruments for robotic-guided ENT surgery.

Contents:

- top tray
 - three ea. 370946-02, twist-lock cannula holder
 - one ea. 370946-03, twist-lock cannula holder
 - three ea. 370370-12, instrument adapter
- bottom compartment
 - three ea. 311954-02, 8 mm instrument cannula
 - two ea. 370387-02, blunt latching obturator
 - one ea. 370386-02, sharp latching obturator, stainless steel
 - two ea. 370269-06, camera cannula mount
 - one ea. 370269-05, camera cannula mount
 - one ea. 370678-01, metal guide, 8.5 mm
 - one ea. 370534-03, sterile camera adapter, black, Schoelly
 - one ea. 311613-03, sterile camera adapter, beige, Schoelly
- autoclaveable instrument case included

Overall dimensions of the case:

- width: 15 in.
- depth: 13
- height: 4

Shipping weight is about 18 pounds.

Cardiac ablation device - \$1,375

List: \$9,800. MedCon: VG. Boston Scientific / E P Technologies EPT-1000XP cardiac ablation controller. 100-120 V, 50/60 Hz., 220-240 V, 50/60 Hz.

Features:

- digital display of counts, power, temperature, impedance, and time
- increase/decrease buttons for setting power, temperature and time
- power to 50 W
- time to 120 sec

- foot switch control included
- connector for RF catheter, RF catheter not included
- RF power control button
- mains power indicator light
- back panel has mains, adjustable volume, foot switch connector, RS 232 connector, and analog output connectors for power, impedance, temperature, and spare
- universal power cord

Overall dimensions of the unit:

- width: 13.25 in.
- depth: 21.75
- height: 7

Shipping weight is about 25 pounds.

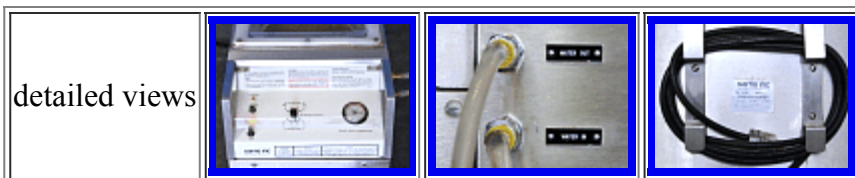

Patient heater/cooler - \$1,475

List: \$15,200. MedCon: Sarns model 11160 dual heater/cooler. 115 V, 60 Hz.

Features:

- water tank (12 x12 x 15 inches) capacity is 8.5 gallons (32 liters)
- preset temperatures of 30, 38, 40 and 42 degrees C
- 1500 Watts power in heating mode
- four cooling modes
- gauge for output water temperature reads 0-50 degrees C
- uses 1/2 in tubing for water in and out connections
- 12-foot heavy duty power cord with hospital grade plug

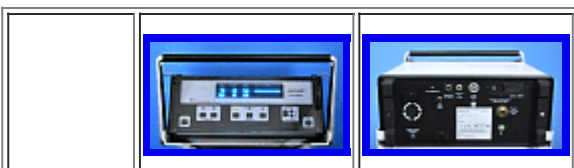

Overall dimensions of the unit:

- width: 17.5 in.
- depth: 26.5
- height: 29

Shipping weight is about 120 pounds.

Heart assist device - \$2,750 for lot of cart, drive console and 3 power units

List: \$27,600. MedCon: VG. Thermo Cardio Systems HeartMate drive console and power units. 120 V, 50/60 Hz.

Features:

- Thermo Cardio Systems HeartMate IP LVAS drive console with control panel and pump parameter display screen
- Software Rev. C4.0/D4.0
- Thoratec cart with tilt view support for drive console and four locking casters

- 3 Ea., Thoratec HeartMate power units, each unit charges six batteries

Overall dimensions of the console on cart:

- width: 20.5 in.
- depth: 27
- height: 44

Shipping weight is about 200 pounds.

Cardiac total occlusion crossing system - \$4,275

List: \$25,600. MedCon: VG. Kensey Nash Safe-Cross RF system, model E215CR1. 100-120 V, 50-60 Hz., 220-240 V, 50-60 Hz. Uses RF micro burst energy to create microchannels through chronic total occlusions in the lumen of coronary and peripheral arteries.

Features:

- to be used with Safe-Cross optic fiber guide wires
- Safe-Cross console (15.5 x 17 x 6.25 inches) on mobile stand with monitor and supplies baskets
- Planar IntraLuminal 15 inch diagonal flat screen monitor with adjustable brightness and contrast
- work screen displays operational profile of the crossing wire
- Herga footswitch
- mains on back of unit
- universal power cord
- set up and operation cards

Overall dimensions of the unit:

- base: 24 x 24 in.
- height: 55

Shipping weight is about 70 pounds.

Cardiac mapping system - \$6,975

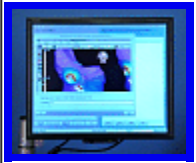

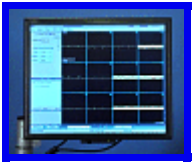

List: \$88900. MedCon: VG. St. Jude Medical /Endocardial Solutions Ensite system. 100-120/220-240 V, 50/60 Hz. Electrophysiological system for mapping complex arrhythmias.

Features:

- patient interface unit with NEC Multisync LCD1970NX 19 inch diagonal color monitor
- display workstation with NEC Multisync LCD1970NX 19 inch diagonal color monitor
- side-by-side units occupy about 55 inches of floor space width
- image transfer to the workstation via fiber optic cable
- Ensign system software, version 8.0

- Endocardial Solutions breakout box accepts 12 lead and EnSite Navx electrodes and catheters from a variety of manufacturers (quick cards show correct connections to breakout box)
- Adesso Slim Touch Mini keyboard
- Hewlett-Packard deskjet 5650 printer
- 2006 manufacture

	simulation screenshot		active screen ECG waveforms		breakout box
	various cables and electrodes		Ensite system interconnect box, optimize Enguide switch		quick card instructions
	EnSite manual		page from manual		page from manual

Shipping weight is about 500 pounds.

Prostatic ablation system - \$2,975

List: \$27,300. MedCon: VG. Medtronic (VidaMed) TUNA system for transurethral needle prostatic ablation. 100-240 V, 50/60 Hz. For treatment of urinary outflow obstruction secondary to benign prostatic hyperplasia.

Features:

- radio frequency generator for selective thermal ablation of the prostate
- RF generator delivers up to 15 watts to each of two electrodes
- when used with appropriate attachments console monitors and displays urethral and lesion temperatures
- RF generator has two auto (dual and single needle) and two manual (dual and single needle) modes
- display screen shows temperature vs treatment time plot
- VTS PROVu handle (model 2198P, shown below) is to be used with disposable cartridge top
- handle accommodates viewing scope (included, shown below), Storz Hopkins 10324AA, 0°, 365 mm shaft
- three handpiece cables included
- autoclave case (21 x 7 x 3.75 inches) for handle, cables and viewing scope
- User Guide and other documentation included

Overall dimensions of the RF console:

- width: 14 in.
- depth: 20
- height: 7.5

Shipping weight is about 45 pounds.

Endometrial ablation system - \$1,475

List: \$18,900. MedCon: VG. Boston scientific HydroThermAblator, ref. 56000. 95-135 V, 50-60 Hz. Used for endometrial ablation by heated saline solution in the treatment of menorrhagia.

Features:

- rolling stand on four casters, two locking
- console has pump to be used with saline delivery cassette
- console has guided start procedure and displays heater temperature
- to be used with a hysteroscope and ProCerva procedure sheath
- IV pole for four bags
- universal power cord
- 2002 manufacture

Overall dimensions of the unit:

- base: 20 x 21.5 in.
- height: 71.5

Shipping weight is about 100 pounds.

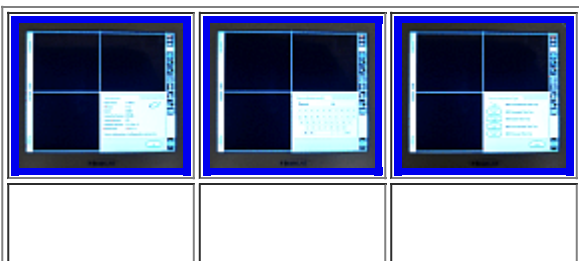

Knee replacement surgery navigation system - \$7,000

List: \$123,400. MedCon: VG. BrainLAB Ci surgical navigation system. 120 V, 60 Hz.

Features:

- computer with Microsoft Windows XP Professional version, BrainLAB Ci software, version 1.1-26, and DVD/CD drive
- Ci cart with transport handle and rear locking casters
- 17 inch diagonal color monitor
- orthopedic surgical camera with 33-foot cable on stand with transport/positioning handle, 22.5 inch horizontal arm and locking casters

Screen displays of system information, patient data entry, surgical implant data, and rotating animation (with zoom, last panel) of femoral implants, tibial trays, and posterior implants

Overall dimensions of the computer unit:

- width: 21 in.
- depth: 22
- height: 56

Overall dimensions of the camera and stand:

- base: 22 x22 in.
- height: 82

Shipping weight is about 400 pounds.

Surgical drill / saw set - \$1,575

List: \$12,300. MedCon: VG. Stryker System 2000 set.

contents:

- Stryker 2102 drill
- Stryker 2108 sag saw
- Stryker 2104 reamer
- three Jacobs chucks, trinkle adapter, one unlabeled chuck
- Stryker System 2000 autoclave case
- Stryker 2110 battery charger with two charging stations, indicator lights, operating instructions decal

Overall dimensions of the case:

- width: 16 in.
- depth: 11
- height: 8.75

Shipping weight is about 20 pounds.

Automatic tourniquet - \$1,675

List:\$5,325. MedCon: VG. Zimmer ATS 750 tourniquet. 100-240 V, 50/60 Hz.

Features:

- uses ambient air rather than a tank for cuff inflation
- inflate and deflate buttons
- digital display of pressure and time

- rotary dial to quickly change pressure or time settings
- audible and visual alarms, leak detection and other improper operation messages
- iv pole clamp
- carrying handle
- hose included, cuffs not included
- universal power cord

Overall dimensions of the unit:

- width: 7 in.
- depth: 6.5
- height: 8

Shipping weight is about 8 pounds.

Surgical power instruments - \$875 each

List: \$4,500. MedCon: VG.

1		Stryker System 5 drill battery powered
2		Stryker 4107 recip/sternum saw finger activator, run/safe toggle battery powered
3		Hall sternum saw, model 5059-05 pneumatic 4 units in stock

Shipping weight is about 10 pounds each.

Anterior cervical fusion set - \$750

List: \$3,900. MedCon: VG. Codman laminectomy / anterior cervical fusion instrument set.

Codman 21-1001 case including the following:

- dowel cutters
 - 12 mm, 56-1005
 - 14 mm, 56-1006
 - 12 mm, 56-1007
 - 18 mm, 56-1008
- dowel cutter shaft, 11-1019
- dowel ejector, 80-1001
- drill shaft, small, 28-1001
- drill shaft, large, 28-1002
- cervical guard, small 12-1005

- cervical guard, large 12-1006
- double-ended guard guide, small, 14-1043
- double-ended guard guide, large, 14-1044
- dowel handle and impactor set
- dowel cutter center pin, 14 mm (other sizes missing)
- depth gauge, 39-1012
- 2 ea., cross bar handles, 11-1002
- osteophyte periosteal elevator, 65-1064
- spanner wrench, 9309N
- drill bits, 10, 12, 14, and 16mm
- drill cap guard

Overall dimensions of the case:

- width: 9.25 in.
- depth: 9.25
- height: 3

Shipping weight is about 10 pounds.

Heart valve sizer set - \$975

List: \$3,900. MedCon: VG. St. Jude Medical mechanical heart valve sizer set, model 905. Contains 17 to 33 hP range.

Overall dimensions of the case:

- width: 15.25 in.
- depth: 11.25
- height: 2.5

Shipping weight is about 3 pounds.

Mitral valve annuloplasty ring sizers - \$975

List: \$4,300. MedCon: VG. Baxter Carpentier-Edwards annuloplasty ring tricuspid sizers. 28-38 mm range with handle.

Overall dimensions of the case:

- width: 11.5 in.
- depth: 7
- height: 1.5

Shipping weight is about 1 pounds.

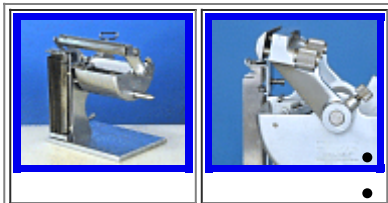

Positioner - \$275

List: \$875. MedCon: VG. Acrylic stand with 6 x 6 inch foam covered support. The support may be screwed into any one of 23 height levels 0.75 inches apart. 8&1/8 x 16&1/8 inch acrylic base.

Shipping weight is about 15 pounds.

Dermatome - \$875 each

List; \$1,300. MedCon: VG. 4" Reese dermatome, manufactured by Bard-Parker

Features:

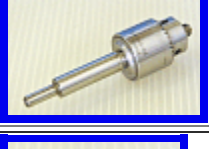

- 1960s vintage
- set of 8 blades, sizes 6 to 20
- 8 x 6 inch base

Shipping weight is about 15 pounds. 2 units in stock.

Surgical handpieces and accessories

MedCon: VG. A variety of handpieces and attachments from the indicated manufacturers.

1		Dyonics EP-1 handpiece on/off button, 10-foot cable with 19-pin connector	\$975
2		Stryker Command 2 recip saw activating lever with safe/run toggle	\$975
3		Zimmer Hall Micro 100 oscillating saw XL activating lever with safety on/off toggle	\$975
4		Zimmer Hall 5053-001 micro drill activating lever with safety on/off toggle	\$875
5		Zimmer Hall 5053-002 reciprocating saw activating lever with safety on/off toggle	\$875
6		Zimmer Hall 5053-003 micro-sagittal saw activating lever with safety on/off toggle	\$875
7		Zimmer Hall 1375-02 contra angle	\$875
8		Zimmer 5052-10 pneumatic hose 10 feet, 2 units in stock	\$375

9		Zimmer Hall 1384-07 reciprocating attachment	\$275
10		Zimmer Hall 1375-04 angled bur guard with 1375-05 bur release key	\$175
11		Zimmer Hall 1365-36 Hudson adaptor	\$275
12		Biomet 468730 Hudson adaptor	\$275
13		Stryker 2102-135 Trinkle adaptor	\$225
14		Zimmer 1368-08 Jacob's chuck/Trinkle adaptor	\$150
15		Howmedica 3212-0-250 reamer attachment with Hudson fitting	\$150
16		3M rotating Duraguard, C202 and protector cap	\$150
17		Zimmer 1364-01 duraguard with 3M C255 protector cap	\$150
18		Zimmer duraguard, no model number with 3M C255 protector cap	\$150

Harmonic scalpel handpiece - \$1,375 each

List: \$3,300. MedCon: VG. Ultracision harmonic scalpel. Uses high speed vibration to simultaneously cut and coagulate tissue.

To be used with an Ethicon generator and disposable blades, shears, or hooks.

Features:

- 5 mm HS head
- 9.5-foot cable with 7-pin connector to generator

Shipping weight is about 1 pounds. 2 units in stock.

Surgical irrigation / suction tubes - \$675 the set

List: \$1,700. MedCon: VG.

Contents:

- the Elmed autoclave case (5.75 x 25.5 x 2 inches) shown in the leftmost panel contains the following
 - six Mueller Fukushima style tapered suction teardrop tubes of short, medium and long lengths, original packaging
 - six Bard stainless steel tubes with threaded tips and side fluid flow openings, sizes 10, 14, 16, 18, 20, and 22
 - three Wolf suction tubes, 8380.68, size 31, 455 mm shaft
 - nine other tubes of various lengths
- the tray (5 x 9 x 2 inches) shown in the middle panel contains a set of ten Bard stainless steel tubes (length, 6 inches) with fluid flow opening on side of tube, sizes 16, 20, 22, 24, 26, 28, 30, 32, 34, and 38
- the rightmost panel shows a detail view of the variety of fluid flow openings of these instruments

Shipping weight is about 10 pounds.

Surgical bone mill - \$1,975

List: \$6,300. MedCon: VG. Medtronic Midas Rex electric bone mill base, model BM110 and power console, model BM120. 100-240 V, 50/60 Hz.

Features:

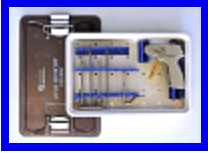

- autoclaveable
- power console (8.25 x 9 x 3 unches) has power on/off rocker switch with green indicator light
- to be used with disposable bowl/blade
- autoclave case included

Overall dimensions of the case:

- width: 16 in.
- depth: 10.25
- height: 5

Shipping weight is about 6 pounds.

Suturing device - \$1,375

List: \$4,660. MedCon: VG. Arthrocare Opus Autocuff system. For rotator cuff repair and other surgical procedures.

Features:

- Opus SmartStich suturing device, H751000
- includes Opus Magnum parts; OM-9015 (3 variations on this part number), OM-9020, and OM-9010
- autoclave case
- cassettes of suture wires are commercially available

Overall dimensions of the case:

- width: 15.25 in.
- depth: 10.25
- height: 2.75

Shipping weight is about 10 pounds.

Robotic endoscopic surgery system - \$1,750

List: \$88,500. MedCon: G. Computer Motion Aesop 3000 robotic endoscopic surgery system. 120-240 V, 50/60 Hz. The Aesop 3000 is a robotic surgical system which maneuvers and positions an endoscope under the direction of a surgeon. The unit contains an Aesop controller and hand pendant which allows control of the arm movement. The controller is not, however, the 3000 controller, and lacks a voice card reader. The instrument, without upgrade, can not be used for voice control. There is some chipping of the finish as seen in the photographs.

Features:

- rolling cart with top work surface, locking casters, robotic arm, hand control, and microphone headsets
- hand pendant for control of robotic arm
- does not have tools, accessories, or the collar attachment for holding an endoscope
- the robotic arms are 15.5 and 16.5 inches long
- the arm mechanism raises 14.5 inches
- 9-pin comm port
- universal power cord
- User's Guide included

Overall dimensions of the unit:

- width: 17 in.
- depth: 27
- height: 44, adjustable upwards

Shipping weight is about 220 pounds.

Liposuction reduction aspirator - \$2,475

List: \$9,275. MedCon: VG. Byron Medical PSI TEC III liposuction aspirator (now represented by Mentor Corporation). 115 V, 60 Hz.

Features:

- footswitch activation of aspiration
- dual scale vacuum gauge, kPa and in. Hg
- aspiration waste jars can be hung on the railing
- 3 L irrigation fluid bag holder with pressurize/depressurize toggle, adjustable pressure knob and gauge
- Operating Instructions decal
- separate power on/off rocker switches for irrigation and aspiration functions

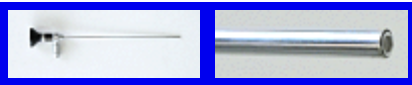

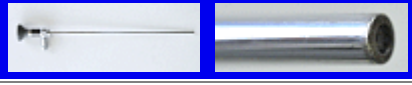

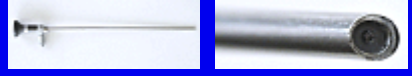

Overall dimensions of the unit:

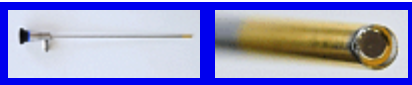

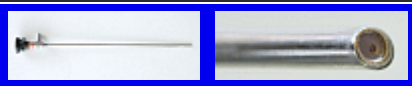

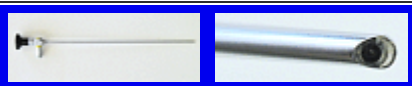

- width: 19.5 in.
- depth: 23
- height: 73.5

Shipping weight is about 140 pounds.

Rigid endoscopes / cystoscopes - priced as shown

List: \$2,000-4,800 each. MedCon: VG. The listed items are classified by the manufacturers as cystoscopes but should be suitable for a variety of examinations calling for a rigid endoscope in the 2.5 to 4 mm diameter range and shaft lengths as given in the table.

1		Olympus A3725 cystoscope 0° angle of view, 3mm diam., 195 mm shaft	\$1,375
2		Olympus A3726 hysteroscope or pediatric cystoscope 30° angle of view, 2.5 mm diam., 195 mm shaft	\$1,475
3		Olympus A2010 cystoscope 0° angle of view, 4mm diam., 280 mm shaft	\$1,672
4		Olympus A2012 cystoscope 30° angle of view, 4mm diam., 280 mm shaft	\$1,673

5		Olympus A2013 cystoscope 70° angle of view, 4mm diam., 280 mm shaft	\$1,674
6		Olympus A2032A cystoscope 30° angle of view, 4mm diam., 280 mm shaft	\$1,675
7		Wolf Panoview Plus 8654.403 cystoscope 25° angle of view, 4mm diam., 300 mm shaft	\$1,676
8		Storz 27005BA (Hopkins II) cystoscope 30° angle of view, 4mm diam., 300 mm shaft	\$1,875
9		Storz 27005CA (Hopkins II) cystoscope 70° angle of view, 4mm diam., 300 mm shaft	\$1,876

Shipping weight is about 1 pound each.

Video laparoscope - \$975

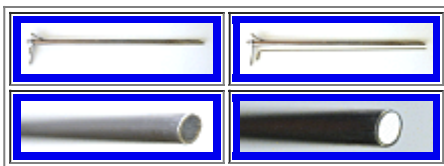

List: 9,300. MedCon: VG. Medical Dynamics 1579 video laparoscope.

Features:

- hand grip
- 10 mm diameter, 320 mm shaft, 0° angle of view
- 16-pin video cable connector
- connector for fiber optic light cable

Shipping weight is about 1 pound.

Esophagoscope - \$875

List: \$3,900. MedCon: VG. Pilling Holinger esophagoscope. The photographs show the scope with the light carrier inserted and removed and a close up of the fiber optic light carrier connected and unconnected to a light source.

Features:

- 9 mm x 53 cm viewing scope with fluid port and handle
- removable fiber optic light carrier (see photo)

Shipping weight is about 1 pound.

Orthopedic surgical instruments - \$750

List: \$2,900. MedCon: VG. Orthopedic surgical instruments. This isn't a set as such, merely a grouping of instruments that seem for orthopedic use

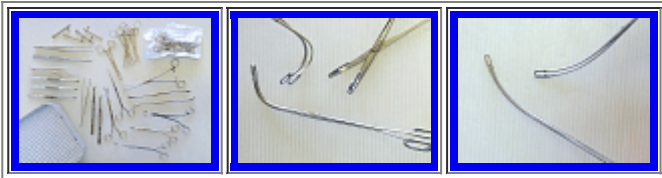

8 x 19.75 x 2 inch tray with a variety of orthopedic instruments

identified instruments include:

- Acufex forceps, knives and scissors
- retractors
- drivers
- rasps
- Weck Werthen Cullen pedicle clamp
- Zimmer Sofield retractor clip

Shipping weight is about 15 pounds.

Abdominal surgical instruments - \$750

List: \$3,300. MedCon: VG. Abdominal surgical instrument set.

Contents of autoclave tray:

- Randell 8 inch kidney stone forceps, 1 each of three styles, Mueller GU8741, GU 8742 and GU8743 (middle photograph above)
- Rochester gallstone forceps, 8.5 inches, 2 ea. (right photograph above)
- Glassman non crushing pick-up forceps, 2 ea. Mueller SU61198
- Martin tissue forceps, 7 ea.
- biopsy forceps, Mueller
- Ferguson gallstone scoop, Mueller SU11020002 and SU11020003, sizes 2 and 3
- intestinal clamps, 6 inch, 8 ea. (shown wrapped and unwrapped), Mueller SU-8010

Overall dimensions of the tray:

- width: 17 in.
- depth: 9.25
- height: 4

Shipping weight is about 8 pounds.

Abdominal retractors - \$750

List: \$1,950. MedCon: VG. K/S Instrument O'Sullivan-O'Connor abdominal retractor with autoclave case.

Contents:

- K/S Instrument spreadable frame with two attached blades, maximum width 7.5 inches inner opening
- two 45 mm and one 70 mm wide blades can be attached
- autoclave case (12 x 11.25 x 5.5 inches) with handles and lift-out tray

Shipping weight is about 10 pounds.

Surgical drill guide - \$675

List: \$3,800. MedCon: INC. Dyonics Vector II Guide to the Knee System. Incomplete, see photographs for included components.

Contents:

- the piece next to the case is labeled cat. no. 3374
- surgical drill bits
- mm gauge
- case

Overall dimensions of the case:

- width: 12 in.
- depth: 11.25
- height: 5.5

Shipping weight is about 10 pounds.

Surgical drill - \$1,575

List: \$6,507. MedCon: VG. Stryker 2102 drill and Stryker System 2000 charger (model 2110, 120 V, 50-60 Hz.).

Uses no. 2115 battery pack.

Shipping weight is about 15 pounds.

Automatic tourniquet - \$3,275

List: \$7,300. MedCon: VG. Stryker SmartPump tourniquet. 100-230 V, 50/60 Hz. The actual appearance of the display screen is best seen in the underexposed photographic image at the far right.

Features:

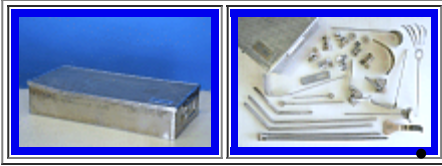

- rolling stand with five castors and extending pole for 2 iv bags
- single channel with tubing for one cuff
- continuously monitors tourniquet pressure
- console controls include power on/off with green indicator light, time and pressure sets, save settings key, and inflate and deflate keys
- console has IV pole clamp, carrying handle, comm port, and auxiliary 12 V DC input
- 5 hour internal battery backup
- 10-foot universal power cord

Overall dimensions of the unit:

- stand has 21 x21 inch base
- height: 52

Shipping weight is about 35 pounds.

Thompson surgical frame and retractor set - \$925

List: \$7,300. MedCon: VG. Thompson surgical frame and retractor set.

Contains:

Autoclave case with bins and contoured holders

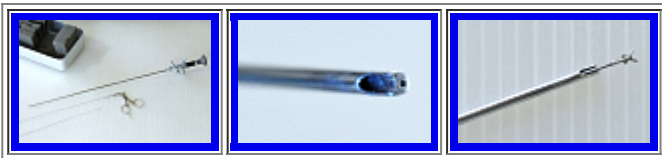

- The various pieces had these part numbers, 43140 (retractor), 43150 (retractor), 43122 (retractor), 41910 (rail clamp), 44014 (12 inch extension arm with cam latch joint), 44124 (angled lateral arm, 11 x 13 inches), 45060 (Harrington rod)
- Also present are these part numbers which we did not identify as to function, 43191, 44733B, 45022, 45001

Overall dimensions of the case:

- width: 23.5 in.
- depth: 11.75
- height: 4.75

Shipping weight is about 30 pounds.

Ureteroscope and biopsy forceps - \$675

List: \$3,900. MedCon: VG. Wolf 4712.401 rigid ureteroscope and Wolf 7317.60 biopsy forceps.

Features:

- 3 x 430 mm scope has combi bridge with instrument guide and two fluid ports
- biopsy forceps have a 35 inch flexible shaft
- instrument case (bottom only) included

Shipping weight is about 3 pounds.

Ureteroscope - \$2,375

List: \$8,900. MedCon: VG. Circon ACMI AUR-7 flexible ureteropyeloscope.

Features:

- scope has 2.5 x 256 mm shaft
- fiber optic cable included
- carrying case with foam insert

Overall dimensions of the case:

- width: 25.75 in.
- depth: 17.5
- height: 5.5

Shipping weight is about 15 pounds.

Ureteroscope - \$1,975

List: \$9,200. MedCon: VG. Circon ACMI MRO-2005 ureteroscope.

Features:

- 5 x 215 mm shaft
- eyepiece with adjustable focus
- two stopcocks
- fiber optic cable included

Shipping weight is about 1 pound.

Nephroscope - \$1,475

List: \$8,200. MedCon: VG. Storz 28020A Hopkins 0° nephroscope with attachable instrument guide and biopsy forceps.

Features:

- scope has one stopcock, the distal part beyond the 90° bend is approximately 3.5 x 40 mm
- Storz 28020G biopsy forceps
- Storz 28020J instrument guide

Shipping weight is about 1 pound.

Arthroscope - \$975

List: \$4,822. MedCon: VG. Stryker 343-30 endoscope.

Features:

- 2.5 x 148 mm shaft
- 30° viewing angle
- storage case

Overall dimensions of the case:

- width: 11.5 in.
- depth: 3
- height: 2.5

Shipping weight is about 1 pound.

Surgical fastener kit - \$875

List: \$3,520. MedCon: VG. Acufex Isotac kit, 012581. Surgical fastener kit for attaching suture to bone in procedures such as cruciate reconstruction.

contents:

- small, medium and large guides
- isometric positioner
- isotac driver
- case

Overall dimensions of the case:

- width: 11.5 in.
- depth: 7.25
- height: 1.5

Shipping weight is about 2 pounds.

Electro hydraulic lithotripter - \$475

List: \$2,800. MedCon: VG. Circon ACMI AEH-3 (Rev. A) electro hydraulic lithotripter. 120 V, 60 Hz.

Features:

- output level slider switch
- timer pushbutton, continuous or 0.05, 0.20 or 0.50 seconds
- connectors for hard and soft probes, accepts four electrode sizes, 9, 5, 3, and 1.9 fr
- output active indicator light
- Circon FS-3 pneumatic foot pedal
- power on/off rocker switch
- universal power cord

Overall dimensions of the unit:

- width: 17 in.
- depth: 11
- height: 5

Shipping weight is about 45 pounds.

Ultrasonic lithotripter - \$475

List: \$3,300. MedCon: VG. Circon ACMI USL-2000 ultrasonic lithotripter. 115/230 V, 60/50 Hz.

Features:

- transducer and footswitch connectors on front of instrument (transducer and footswitch not included)
- pulse, preset and linear modes with reset
- increase/decrease touchpad arrows for setting pulse rate and amplitude, with accompanying % bar graphs
- fault indicator light (probe not connected)
- power on/off rocker switch with green indicator light
- universal power cord

Overall dimensions of the unit:

- width: 15 in.
- depth: 12
- height: 4.5

Shipping weight is about 20 pounds.

Urodynamic monitor - \$1,475

List: \$7,100. MedCon: VG. Bard 4-channel urodynamic monitor. 90-250 V, 50-60 Hz.

Features:

- simple and complex CMG, urethral pressure profiles and voiding pressure measurement
- display monitor with adjustable contrast
- fluid warmer base connects to 9-pin or RS 232
- event marker
- 110 mm (4 $\frac{3}{8}$ inch) paper printer
- retractable carrying handle
- universal power cord

Overall dimensions of the unit:

- width: 16 in.
- depth: 12.5
- height: 6.5

Shipping weight is about 20 pounds.

Electro hydraulic lithotripter - \$475

List: \$3,200. MedCon: G. Monaghan Medical Corp. (Northgate Research Div.) model EL-115 electro hydraulic lithotripter, distributed by American ACMI. 117 V, 60 Hz.

Does not include probes.

Features:

- output cable connectors
- output intensity dial with indicator light
- analog voltmeter
- foot switch activator
- power on/off rocker switch with orange indicator light
- carrying handle

Overall dimensions of the unit:

- width: 13.25 in.
- depth: 9
- height: 9.25

Shipping weight is about 30 pounds.

Cystometry system - \$1,475

List: \$9,900. MedCon: VG. MedAmicus Lumax model 4114UF cystometry system. 115 V, 60 Hz.

Features:

- Lumax volume infused transducer
- catheter transmission cables (Cooper Surgical 34501009 and 34501004); to be used with fiber optic transducer catheters
- Hewlett-Packard bar code wand
- display windows for Pves/Pura and Pabd
- calibration and zero functions
- start/pause and stop/copy buttons
- adjustable scale
- 4.5 inch thermal paper printer; adjustable paper speed
- back of instrument has connectors for volume voided, volume infused transducers and bar code wand
- internal fan
- 8 foot universal power cord with hospital grade plug

Overall dimensions of the unit:

- width: 9.5 in.
- depth: 11
- height: 13.25

Shipping weight is about 15 pounds.

Ultrasonic surgical aspirator - \$1,475

List: \$14,300. MedCon: VG. Spemby Medical Selector ultrasonic surgical aspirator. 110 V, 50/60 Hz.

Features:

- used for the ablation of tumor tissue
- peristaltic pump mounted on left side of instrument
- vacuum gauge on back of instrument
- footswitch with power and irrigation pedals
- digital display windows for aspiration strength, irrigation flow rate and power output for ultrasonic handpiece
- touchpad increase/decrease arrows to set above parameters
- fold-away irrigation bag holder
- decal with short-form operating instructions on top of console

Overall dimensions of the unit:

- width: 15.25 in.
- depth: 15.5
- height: 6

Shipping weight is about 42 pounds.

Meniscus repair instruments - \$1,375

List: \$9,277. MedCon: VG. Bionx Crossbow meniscus arrow inserter and cannulas in two instrument cases. This is an insertion system for dissolvable barbed arrows for meniscus repair to be used instead of suturing.

Contents:

- Bionx arrow insertion crossbow, MAC1100-01
- a variety of straight and curved Bionx cannula
 - MAC1100-05
 - MAC1100-06
 - MAC1100-07
 - MAC1100-08
 - MAC1100-09
- the second tray contains the following Bionx cannula
 - MA1100-05
 - MA1100-06
 - MA1100-07
 - MA1100-09
- the cases are 15.75 x 10 x 2 inches and 11.75 x 9 x 2.25

Shipping weight is about 5 pounds.

Guide wire and cannula set - \$325

List: \$1,633. MedCon: VG. Acuflex guide wire and cannula set. This appears to be a surgical pin insertion device with two curved cannula and seven guide wires.

Features:

Overall dimensions of the case:

- width: 12.5 in.
- depth: 9
- height: 1.5

Shipping weight is about 10 pounds.

Rheolytic thrombectomy system - \$3,750

List: \$26,500. MedCon: VG. Possis Medical Angiojet 3000A. 120 V, 50/60 Hz. This is a catheter-based system for the removal of blood clots from native and grafted arteries and veins.

Features:

- 3-step start up menu with lighted prompts on the control panel, set-up decal for further instructions

- dual pump system for iso volumetric balance
- thrombectomy and power pulse delivery modes
- uses disposable pump set and double lumen catheter
- inflow and outflow bubble detectors
- alarms for over- and under-pressure sets
- system diagnostics window for error messages
- foot switch
- rolling cart with locking casters and cord wrap
- 10-foot detachable power cord with hospital grade plug
- operation manual
- set-up card for Power Pulse delivery

	front view showing pump bay and control panel
	diagnostic messages (all lit at startup)
	operator's manual (cover and sample page)
	set-up card describing Power Pulse delivery

Overall dimensions of the unit:

- width: 18.5 in.
- depth: 20.5
- height: 54

Some consumable supplies included:

6 EA., Angiojet sterile pump set and nonsterile collection bag, 2011 exp. date

16 EA., thrombectomy catheters of various lengths and designations (mode 1 or mode 3), 2012 exp. date

Shipping weight is about 300 pounds.

Prostatic radiotherapy implant device - \$1,675

List: \$9,000. MedCon: VG. Seed Plan Pro trans perineal prostate implant stabilization device, including component parts from BK Medical and Aloka ultrasound.

The injection system is to be interfaced with a prostatic ultrasound transducer and imaging system. The leftmost

photograph shows the included components. The long bars are slide-on, lock-down attachments to anchor to a surgical table rail. The center photograph shows detailed views of micro adjustment unit with rotational ball joint and x,y Vernier adjustment knobs. The rightmost photograph shows a transducer holder and the injection guidance plates. The part in the unopened plastic bag is Aloka MP-2457.

Shipping weight is about 15 pounds.

Heartmate power unit - \$375 each

List: \$6,000. MedCon: VG. Thoratec Heartmate power base unit (part number 26439, catalog number 1240). 120 V 50/60 Hz. This is the power source/battery charger for the original HeartMate left ventricular assist system.

Features:

- power on/off rocker switch on back of unit with green indicator light on front
- six battery charging positions with charging status indicator lights
- red warning indicator lights for lo battery and AC fail
- 9-pin RS 232 and 15-pin connector for system monitor
- PBU cable with 2 connectors to system driver
- power cord with plug guard

Overall dimensions of the unit:

- width: 15.75 in.
- depth: 16
- height: 6.25

Shipping weight is about 36 pounds. We have 2 power units with the PBU cable and six additional power units without the cable.

Intra-aortic balloon pump - \$7,000

List: \$72,840. MedCon: EX. Arrow International ACAT I Plus intra-aortic balloon pump. 100-240 V, 50-60 Hz. For cardiac support of patients with imbalanced myocardial oxygen supply and demand.

Features:

- 8.5 x 6.25 in. monitor in control console with touchpad controls and indicator lights for active selections
- monitor shows heart rate, ECG waveform, pressure parameters
- adjustable assist ratios
- system software v. 1.29
- display software v. 1.58
- trigger modes
 - ECG pattern
 - ECG peak
 - atrial fib
 - ventricular pacer
 - arterial pacer
 - arterial pressure
 - internal
- waveform select

- balloon
- ECG balloon
- AP balloon
- built-in 2- inch paper report printer
- front transport handle
- gas cylinder in left side compartment
- 14 foot power cord with hospital grade plug
- four locking castors

Overall dimensions of the unit:

- width: 13.75 in.
- depth: 19.5
- height: 32.5 (40 with monitor screen raised)

Shipping weight is about 150 pounds.

Cardiac pacemaker programmer - \$1,475

List: \$9,000. MedCon: VG. Cardiac pacemakers Inc. model 2035 programmer

Features:

- console measures 10.5 x 5 7/8 x 2 inches
- software modules for Vigor DDD/SSI, Ventak, Ventak P, Vista, Vista DDD, Delta T/TRS
- LCD screen with guided menu and response keys
- model 6575 wand
- paper chart printer for final report
- uses four AA batteries
- includes Operator's Manual and Physician's Manual
- plastic storage case with two clasps and handle

software modules and report format

Overall dimensions of the case:

- width: 18.5 in.
- depth: 15
- height: 4.5

Shipping weight is about 8 pounds.

Curette set - \$250

List: \$900. MedCon: VG. Hu-Friedy curettes (14 of various styles) and aspirators (5 each).

Shipping weight is about 2 pounds.

Forceps set - \$475

List: \$1,900. MedCon: VG. Zimmer set of specialized forceps. Autoclave case with 7 forceps as listed below.

contents:

- 4 Ea. 1266-03
- 2 Ea. 1266-01
- 1 Ea. 1267-02

Overall dimensions of the unit:

- width: 16 in.
- depth: 5.5
- height: 3.5

Shipping weight is about 3 pounds.

Biopsy tool - \$275

List: \$890. MedCon: VG. Manan Pro-Mag 2.2 biopsy device. 6.25 inch long gun with activating trigger and safety release. Non autoclaveable storage case.

Overall dimensions of the case:

- width: 11 in.
- depth: 4.5
- height: 3.25

Shipping weight is about 2 pounds.

Prostatic biopsy tool - \$475

List: \$1,600. MedCon: VG. Kifa Franzen prostatic needle biopsy tool. Case contains needle guide and Cameco 10 ml syringe, no. 3819091.

Overall dimensions of the case:

- width: 10 in.
- depth: 5.75
- height: 2.25

Shipping weight is about 3 pounds.

Orthopedic reaming chuck - \$375

List: \$1,100. MedCon: VG. 3M L150 reaming chuck for Maxi Driver.

Shipping weight is about 1 pound.

Surgical set - \$475

List: \$1,900. MedCon: VG. Orthopedic surgical set containing acetabular gauges, T handle, chisel and other instruments. Glass autoclave dish with stainless steel insert and stainless steel lid with gasket.

Overall dimensions of the autoclave case:

- width: 4.5 in.
- depth: 10.75
- height: 3

Shipping weight is about 4 pounds.

Ultrasonic lithotripter set, with probe and footswitch - \$2,375

List: \$13,250. MedCon: VG. Wolf model 2167.05 ultrasonic lithotripter. 115 V, 60 Hz.

Features:

- console with 9-pin sonotrode connector
- Wolf 2167.50 sonotrode with following probes in RIWO tray
 - 2 Ea., 3.5 mm x approx. 370 mm
 - 2 Ea., #10-4, approx. 360 mm
 - 1 Ea., #10-4, approx. 520 mm
 - 1 Ea., 3.5 mm x approx. 600 mm
 - 1 Ea., #8959.419, approx. 440 mm
 - 1 Ea., #8959.415, 1.5 mm x approx. 580 mm
- footswitch with console light verifying output
- output selection switch with three positions
- 8 foot power cord with hospital grade plug
- cord wrap
- front bumpers/handles

Overall dimensions of the unit:

- width: 12 in.
- depth: 10.5
- height: 5

Shipping weight is about 22 pounds.

Wilson spinal frame - \$1,675 each

List: \$6,325. MedCon: VG. Zimmer Wilson spinal supporting frame, model 551.

Features:

- positions on surgical table for surgical and C-arm procedures
- retractable crank adjusts arc of support mechanism
- tapered abdominal support pads

Overall dimensions of the unit:

- width: 19 in.
- length: 29
- height: 5 (9 with pads)

Shipping weight is about 45 pounds. 2 units in stock.

Lithotripter - \$750

List: \$6,700. MedCon: VG. Storz model 27086C Lithotripter. 115 V, 50/60 Hz.

Features:

- for percutaneous nephro-lithotripsy procedures
- connectors for 27082KT and 27086KT transducers
- active transducer toggle with red indicator lights
- footswitch connector
- power on/off rocker switch with red indicator light
- universal power cord

Overall dimensions of the unit:

- width: 12.25 in.
- depth: 16.75
- height: 6

Shipping weight is about 15 pounds.

Surgical stapler - \$475

List: \$3,300. MedCon: Demo. United States Surgical Corporation TA 90 B Auto Suture surgical stapling instrument. For use in bariatric surgery.

Features:

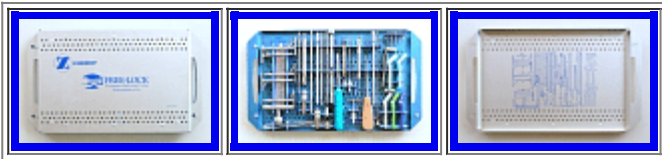

- 1 cm channel
- uses 'single use loading unit' of titanium staples
- handle activated stapling

Overall dimensions of the box:

- width: 10.25 in.
- depth: 18.25
- height: 3.25

Shipping weight is about 3 pounds.

Hip fixation system - \$1,750

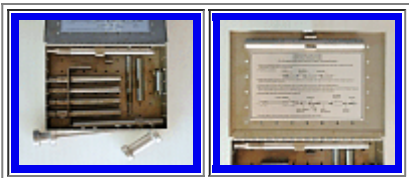

List: \$6,100. MedCon: VG. Zimmer Free-Lock compression hip fixation instrumentation set. Autoclave case with tools as indicated in the photographs.

Overall dimensions of the unit:

- width: 23.25 in.
- depth: 13.5
- height: 1.5

Shipping weight is about 10 pounds.

Stem extractor system - \$1,275

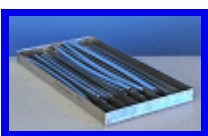

List: \$4,375. MedCon: VG. Hall stem extractor system. Autoclave case with tools as indicated in the photographs. Instrument set-up diagram on inside lid of case.

Overall dimensions of the case:

- width: 10.25 in.
- depth: 7.25
- height: 3.5

Shipping weight is about 8 pounds.

Kuntscher femoral nail set - \$575

List: \$1,900. MedCon: VG. Tray of 24 Biomet S series Kuntscher long bone nails. 34 to 46 cm length. Various diameters; for example, the 34 cm slot has one each of 13, 14 and 15 mm (Biomet S 292234, S 292334 and S 292434, respectively).

Overall dimensions of the tray:

- width: 19.5 in.
- depth: 10
- height: 1.25

Shipping weight is about 14 pounds.

Sternal saw - \$1,375

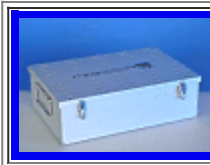

List: \$3,900. MedCon: VG. Sarns sternal saw motor, model 15670. 115 V, 60 Hz.

Features:

- footswitch with 12 foot cable to saw
- 14 foot power cord with hospital grade plug

Shipping weight is about 8 pounds.

Fixation pin system - \$975

List: \$4,155. MedCon: VG. Ace pre-drilled pin system, model FF10552. The unit appears to have the full complement of tools, but is missing the mid-sized fixation pins. Thirty-five titanium pins of small and large sizes are included.

Overall dimensions of the unit:

- width: 15.25 in.
- depth: 10.5
- height: 4.5

Shipping weight is about 10 pounds.

Lag screw tap - \$175

List: \$900. MedCon: VG. HowMedica lag screw tap.

Overall dimensions of the box:

- width: 11.25 in.
- depth: 5
- height: 2.75

Shipping weight is about 2 pounds.

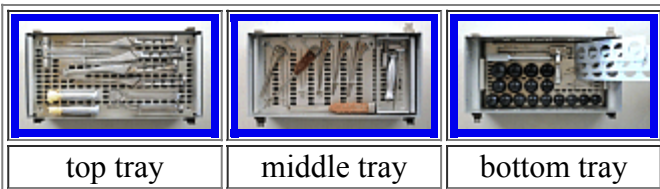

Modular endoprosthesis system - \$975

List: \$5,375. MedCon: VG. Biomet (Bio-Moore) modular endoprosthesis system.

Contents:

- top tray
 - endoprosthesis driver
 - stem impactor
 - modular head release instrument
 - Moore hollow chisel
 - resected head extractor
 - 10, 12, 14 and 16 mm rasp stems
- middle tray
 - provisional straight stems, 10, 12, 14 and 16 mm, 6.5 inches
 - stem impactor
 - threaded inserter/extractor
 - wrench
- bottom tray
 - shells (complete set of 41-61 mm)
 - prosthesis extractor hook
 - femoral gauge set
 - extractor frame
 - provisional head handle
 - regular stem extractor fitting (missing)

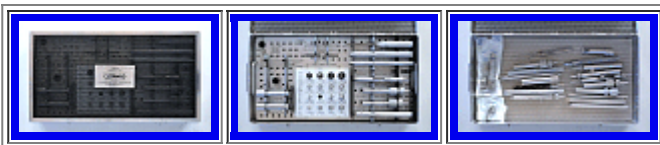

Overall dimensions of the case:

- width: 20.25 in.
- depth: 10.5
- height: 7

Shipping weight is about 26 pounds.

Anterior cervical fusion kit, even mm - \$750

List: \$5,700. MedCon: INC. Cloward anterior cervical fusion kit. Missing spanner wrench, cross bar handle, depth gauge, and vertebra spreader. Other instruments are in very good condition. Rightmost photo shows included duplicates and triplicates of some instruments.

Overall dimensions of the case:

- width: 20.5 in.
- depth: 11
- height: 3.25

Shipping weight is about 18 pounds.

Distal radial plate system - \$975

List: \$4,800. MedCon: INC. Zimmer Forte model 2480 distal radial plate system. Contains small medium and large right and left templates, template clamps, tap/drill guide, countersink tool, bending irons, partial screw set (as shown).

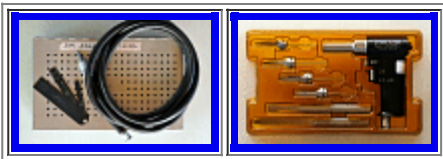

Missing drill bits, pliers, T handle, screw driver, taps, depth gauge, washers and screw forceps. Middle photo shows front and back aspects of the templates.

Overall dimensions of the case:

- width: 21 in.
- depth: 10
- height: 2.75

Shipping weight is about 6 pounds.

Surgical stapler - \$1,375

List: \$5,375. MedCon: VG. 3M Staplizer (powered metaphyseal staple system).

contents:

- staplizer gun
- stapler guides, 1ea. 7, 10, 13 and 16mm
- pry
- seater
- width gauges
- pneumatic hose
- autoclave case

Overall dimensions of the case:

- width: 14.5 in.
- depth: 9
- height: 3.75

Shipping weight is about 8 pounds.

Radiation therapy implant kit - \$875

List: \$2,900. MedCon: VG. Best Industries, Inc. radiation therapy kit. This appears to be a surgical kit for implanting radioactive seeds for therapy of cancer.

Overall dimensions of the case:

- width: 13 in.
- depth: 8.75
- height: 2

Shipping weight is about 4 pounds.

Surgical reamer - \$475

List: \$2,300. MedCon: VG. Stryker System II reamer. Uses 298-100 battery (no longer in production; available as rebuilds).

Shipping weight is about 3 pounds.

Implant plates - \$475

List: \$1,945. MedCon: EX. Synthes implant plates.

Features:

- 36 units of fracture repair plates
 - Synthes 225 series numbering
 - variety of straight and angled
 - 5 to 18 holes
 - some are in original wrapping
- Padgett Instruments 22 pocket apron, 34 x 15.5 inches
- angled implants appear to be sized for proximal humerus

Shipping weight is about 10 pounds. tm

Laparoscope - \$875 each

List: \$4,200. MedCon: VG.

Storz 12 mm operating laser laparoscope, model 26075
Hopkins. 275 mm length.

Shipping weight is about 1 pound ea. 4 units in stock, 1 branded Sharplan L0100.

Oscillatory saw - \$1,045

List: \$6,700. MedCon: VG. Concept oscillatory saw. C

contains markings, 12B80, Swiss made 11.06. Uses battery cat. no. 2105

Shipping weight is about 4 pounds.

Radio frequency generator - \$450

List: \$3,240. MedCon: VG. Surx model RFGEN2501 radio frequency generator. 100-240 V, 50-60 Hz. For bladder neck suspension technique (shrinkage of the endo pelvic fascia) for urinary stress incontinence.

Features:

- LED screen with guided setup
- 15 W output, 100-300 Ohms
- 460 kHz. operating frequency
- 14-pin connector for single use laparoscopic or endo vaginal applicators
- IV pole clamp

Overall dimensions of the unit:

- width: 10.25 in.
- depth: 5.75
- height: 5

Shipping weight is about 10 pounds.

Ultrasonic lithotripter - \$1,375

List: \$9,200. MedCon: VG. Wolf model 2270 US Litho lithotripter. 110/115 V, 50/60 Hz.

Features:

- front connector for sonotrodes
- 3 level intensity control touch buttons
- 4-pin suction pump connector
- model 2030.12-1 footswitch
- power on/off rocker switch with green indicator light

Overall dimensions of the unit:

- width: 12.75 in.
- depth: 10.5
- height: 4.75

Shipping weight is about 20 pounds.

Urethral warming system - \$875

List: \$6,700. MedCon: DEMO. Cryomedical Sciences urethral warming system. Unite new in 1995. 115V, 50-60 Hz./208-240 V, 50-60 Hz.

Features:

- unit is meant to be pole-mounted
- to be used with a single use triple lumen closed-circuit urethral catheter

- heater block encloses a receptacle shaped for a 1 liter fluid bag
- Masterflex Easy-Load model 7518-10 peristaltic pump
 - low; 450 ml/min
 - med; 550 ml/min
 - high; 650 ml/min
 - temperature and flow sensors
- Operator's Manual included
- 9 foot power cord with hospital grade plug

Shipping weight is about 32 pounds.

Arrhythmia simulator for training manikin - \$475

List: \$2,100. MedCon: VG. Laerdal Arrhythmia Anne electronic simulator. 115 V, 50-60 Hz.

Features:

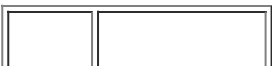

- carrying case with built-in console
- to be used with recording Resusci-Anne
- transmits the following electronic output which can be displayed on a patient monitor or defibrillator monitor
 - normal sinus rhythm
 - sinus bradycardia
 - sinus tachycardia
 - normal sinus rhythm with premature atrial contractions
 - sinus rhythm with premature ventricular contractions
 - 1st degree A-V block
 - 2nd degree A-V block (partial or incomplete)
 - 3rd degree A-V block (complete)
 - atrial flutter
 - atrial fibrillation
 - ventricular tachycardia
 - ventricular fibrillation
 - asystolic
 - AC interference (60 or 50 Hz)
- adjustable rate dial
- change program button
- 1 mV differential output

Overall dimensions of the unit:

- width: 17 in.
- depth: 13
- height: 5

Shipping weight is about 15 pounds.

Pneumatic tourniquet - \$1,675

List: \$7,300. MedCon: VG. DePuy Medi-quet model 2740-00 tourniquet.

**Features:**

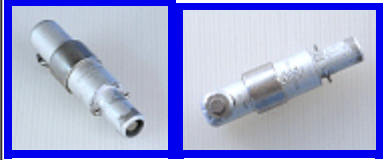

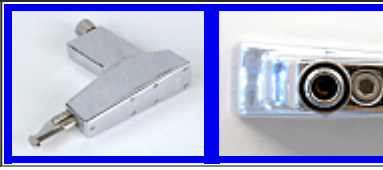

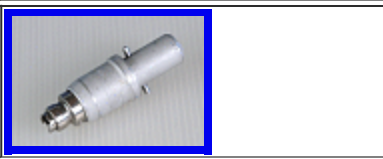

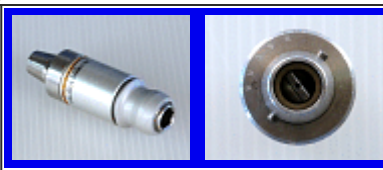

- rolling stand, 21.5 x 21.5 base, 66 inches high with iv pole with two hangers
- 4 inch wide cuff
- red LCD of elapsed time and cuff pressure
- timer and reset switch
- back of unit has zero balance adjustment and pressure supply connector
- gas line included

Shipping weight is about 25 pounds. 4 units in stock.

Surgical drills, saws and accessories - priced as shown

List: \$900-\$11,340. MedCon: G. Most of these units have cosmetic issues, but are functional, hence the MedCon rating of G.

	Intramedullary drill, manufacturer not listed (Swiss made) Rodal system chuck	\$1,150
	Hall oscillator, 5044-02 finger activator; safe and on positions	\$1,175
	Hall drill/reamer, 5044-01 finger activator; safe, forward and reverse positions screw/drill/ream modes	\$1,045
	Hall Zimmer reamer driver, 5052-003 finger activator with safe lock, forward and reverse positions	\$900
	Stryker System II wire driver finger activator with guard	\$950
	Hall Zimmer Ort hair oscillator, 5052-003 finger activator with safe lock, 160 psi 3 units in stock	\$975 each
	3M P-300 drive (300 rpm) with Hudson chuck finger activator, forward and reverse and off positions 2 units in stock	\$900 each
	3M oscillating saw, P-400 finger activator, forward and reverse and off positions	\$950

		3M oscillating saw, L120B 2 units in stock	\$775 each
		3M reciprocating saw, L140A 3 units in stock	\$800 each
		Sarns sternum saw, model 6090	\$1,300
		Stryker Command 2 sag saw missing finger grip	\$475
		Stryker high torque Jacobs chuck, 296-80-150	\$225
		3M L111 pin collet (wire driver) for use with 3M maxi driver, finger grip activation 3units in stock	\$425
		Trinkle chuck for use with 3M maxi driver 6 units in stock	\$450
		Hudson chuck for use with 3M maxi driver	\$375
		Reaming adapter, manufacturer not listed (Swiss made)	\$425
		Universal chuck, manufacturer not listed (Swiss made) 2 units in stock	\$400 each
		adapters labeled 11.24 and 11.28	\$275 each
		Rapidplast AB Biopsy tool finger activator with safe lock	\$125

Cryosurgery unit with probes - \$6,750

List: \$46,300. MedCon: VG. Cryomedical Science Inc. (CMS) AccuProbe 530 cryosurgical ablation unit. 208-230 V, 60 Hz. single phase.

Features:

- three ports allows multiple probes 'at the ready'
- back of unit has nitrogen gas inlet and liquid nitrogen inlet
- keyed power
- floppy disc drive
- probes shown on machine
 - 8 x 4 x 27 conical
 - 3 x 4 x 18 blunt
 - 8 x 4 x 24 conical
- additional probes
 - 8 x 5 x 28 paddle, 3 ea.
 - 3 x 4 x 18 blunt, 4 ea.
 - 3 x 5 x 19 blunt, 2 ea.
 - 8 x 4 x 24 conical, 3 ea.

	screen with main menu
	patient info screen and control panel
	back of unit with three ports
	probes on ports 1-3
	additional probes

Overall dimensions of the unit:

- width: 29 in.
- depth: 50
- height: 54.5

Shipping weight is about 875 pounds.

Pressure guide wire system - \$2,750

List: \$14,300. MedCon: VG. Jometrics WaveMap model 6000 pressured guided wire system. 100- 240 V, 47-63 Hz.

Features:

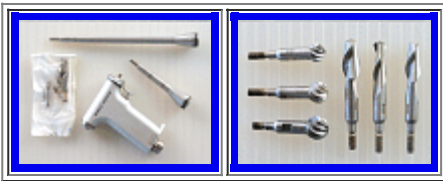

- rolling stand (22.5 x 22.5 inch base, 72.5 inches high) with transport handle and iv pole with four hangers
- touchpad controls
- mode control; gradient, ratio, NPR, FFR-I.C. and FFR-I.V.
- LED displays of mode, catheter selection, and distal and proximal MAP
- patient cable, model 8000
- software version 01919 rev A
- memory card, 01886
- analog output box attached to left side of unit
- power on/off rocker switch

Overall dimensions of the console:

- width: 8.5 in.
- depth: 8.25
- height: 10

Shipping weight is about 40 pounds.

Orthopedic drill set - \$1,175

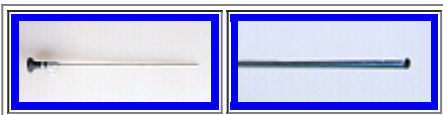

List: \$4,700. MedCon: VG. Hall Cebotome orthopedic drill, with extensions, bits and burrs.

Contents:

- Hall Cebotome 5052-41
- Hall 5052-42 burr extension and 5052-43 long burr extension
- three each drill bits and burrs

Shipping weight is about 4 pounds.

Cystoscope - \$975

List: \$6,100. MedCon: VG. Wolf Panoview lumina SL model 8650.431 cystoscope. 5°, 3.88 mm diameter, 298 mm working length.

Shipping weight is about 1 pounds.

Urethrascope - \$1,750

List: \$6,375. MedCon: VG. Endotek et-3 'Hopkins Robertson Browne' Urethrascope (175 x 4 mm) with two stainless steel and one plastic obturators.

designations inscribed on the scope

Overall dimensions of the case:

- width: 16 in.
- depth: 8
- height: 2.75

Shipping weight is about 5 pounds.

Pacemaker programmer - \$1,750

List: \$18,200. MedCon: VG. St. Jude Medical model 3510 pacemaker programmer. 100-240 V, 50/60 Hz.

Features:

- monitor screen lifts up for use, folds down for compact storage
- demo programs for Atlas, Epic, Photon and Contour models (see screen shots below)
- see demo screen for types of data displayed
- menu, interrogate and help keys
- side I/O panel for ECG, telemetry wand, EP-Lab, and recorder
- 8 inch paper chart recorder
- 15-pin auxiliary monitor output
- carrying handle

Overall dimensions of the unit:

- width: 14.25 in.
- depth: 17.25
- height: 4.75

Shipping weight is about 30 pounds.

Ventricular assist device - \$2,750

List: \$66,100. MedCon: VG. Thoratec Laboratories ventricular assist device. 110-120 V, 60 Hz.

Features:

- pneumatic drive system
- top and bottom modules
- AC/battery power systems
- touchpad with digital display to set pump rate
- pressure and vacuum adjust dials with gauges
- status indicator light for eject, fill and external sync
- green indicator lights panel for power usage
- alarms for pressure, vacuum, sync, and low battery
- panel on back of unit has I/O and pressure line ports
- transport handle
- rear locking casters
- Quick Reference sheet

Overall dimensions of the unit:

- width: 23.5 in.
- depth: 30.5
- height: 52

Shipping weight is about 300 pounds.

Urethrascope - \$975

List: \$4,720. MedCon: VG. ACMI HTO-5 Rigi-Flex offset Urethroscope system.

Features:

- working length, 42 cm
- triangular shaft
- 85° field of view, 5° angle of view, 12.7 Fr
- cannulated obturator accepts an .038 guide wire
- operating bridge with twin stopcocks
- bridge has self-sealing port and accepts 5 Fr or smaller accessories (stone baskets, retrievers, forceps, ultrasound probe)
- 30.5 x 7.5 x 4.25 inch case
- Operating and Maintenance Manual

Shipping weight is about 20 pounds.

Surgical saw and drill set - \$5,750

List: \$17,600. MedCon: EX. Hall Series 4 surgical saw and drill set with autoclave case.

Contents:

• Hall Series 4 reciprocator saw, 5067-03

- Hall Series 4 oscillator saw, 5067-02
- Hall Series 4 trauma drill, 5067-04
- Hall Series 4 drill/reamer, 5067-01
- Jacobs chuck, Hudson adaptor and Trinkle adaptor
- Hall 10-foot air hose, 5052-10
- Hall large autoclave case, 1384-42, 10.25 x 13 x 4.5 inches

Shipping weight is about 25 pounds.

Surgical handpiece and saws - \$4,750

List: \$11,300. MedCon: EX. Hall Surgairtome Two pneumatic handpiece and reciprocating and oscillating saws with autoclave case.

Contents:

- Hall Surgairtome Two pneumatic oral surgical handpiece, 5058-01, 95,000 rpm
- Hall Micro 100 oscillating saw XL, 5053-02
- Hall Micro 100 reciprocating saw, 5053-10
- Hall 10-foot air hose, 5052-10
- Hall hex blade locking wrench, 1365-05
- Hall autoclave case, 5052-12, 7 x 10.25 x 3.25 inches

Shipping weight is about 15 pounds.

Surgical drill and handpiece - \$3,275

List: \$7,380. MedCon: VG. Surgical drill and high speed handpiece with autoclave pan.

Contents:

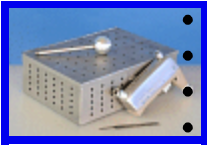

- Hall Surgairtome Two pneumatic oral surgical handpiece, 5058-01, 95,000 rpm
- Hall Micro 100 drill, 5053-09
- Hall hex wrench, 1365-05
- Hall 1375-11 long bur guard and short bur guard
- 9 x 5.25 x 2 inch autoclave pan

Shipping weight is about 4 pounds.

Reciprocating surgical saw - \$1,275

List: \$4,900. MedCon: VG. Amsco Hall reciprocating saw, 5052-004, with autoclave case.

Contents:

- saw with on/safety positions, air hose connector
- screw-in grip ball, 5052-123
- 5052-58 and 5052-59 blades
- autoclave case, 7.25 x 10.25 x 3.25 inches

Shipping weight is about 15 pounds.

Balfour retractor - \$475

List: \$725. MedCon: VG. Balfour self-retaining abdominal retractor with autoclave pan.

Contents:

- frame with lateral blades; two ea. 1 x 3.5 inches and two ea. 1.25 x 2.5 inches
- three different sized and shaped center blades; 2.5 and 3 inch widths
- autoclave pan, 16.25 x 10 x 2.5 inches

Shipping weight is about 15 pounds.

Abdominal retractors - \$675

List: \$950. MedCon: VG. O'Sullivan-O'Connor abdominal retractor with autoclave case.

Contents:

- Weck 485450 spreadable frame with two attached blades
- two 45 mm and one 75 mm wide blades can be attached
- autoclave case (16 x 11.5 x 6 inches) with handles and lift-out tray

Shipping weight is about 20 pounds.

Retractor set - \$975

List: \$2,425. MedCon: VG. Retractor set for abdominal or thoracic surgery with autoclave case.

Contents:

- see photo of detailed inventory list
- small, medium and large Kelly sidewalls, narrow, medium and wide Deavers, Harringtons, Adson Beckman, and a Balfour with complete set of blade options.
- autoclave case with handles and lift-out tray, 12 x 23 x 6 inches

Shipping weight is about 35 pounds.

Rongeurs - \$475

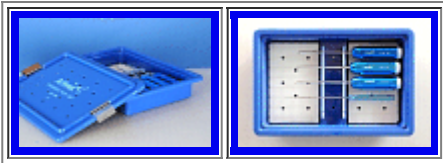

List: \$1,900. MedCon: VG. Set of five double-action rongeurs by Zimmer, Weck and Haslam with pan.

Contents:

- The longest rongeur (11 inches) has a bone cutting scissors like end; the other four have oval cupped forceps-like ends
- autoclave pan, 7.75 x 12 x 2 inches

Shipping weight is about 15 pounds.

Condro pick set - \$875

List: \$2,300. MedCon: EX. Arthrex chondro pick set. Contains 1 ea. of 20° (AR-1761) deg 40° (AR-1762) and 60° (AR-1763) and AR10010 picks. case AR-1766, 15 x 10 x 3 inches.

Shipping weight is about 10 pounds.

Laparoscopic set - \$1,375

List: \$8,300. MedCon: VG. Microsurge Detacha Tip laparoscopic instruments with case.

Contents:

- 90-1071 hook biopsy forceps, 32 cm x 5 mm
- 90-5050
- 90-5053 palpitation probe, 32 cm x 5 mm with cm graduations
- scissors and forceps without product number
- 5 and 10 mm cannula
- BipoliGator round nose grasper, 05-1001
- electrodes for above
- 4 ea. Microsurge Detacha Tip handles
- plastic case 20.75 x 10 x 4 inches

Shipping weight is about 15 pounds.

Wrist fusion instrument set - \$1,875

List: \$7,300. MedCon: VG. Wrist fusion set with tools, plates and screws in instrument case.

Contents:

- periosteal elevator, 3 mm, curved blade, straight edge
- depth gauge
- hexagonal screwdriver

- drill sleeves
- drill bits
- screw forceps
- 1 ea. straight, short bend and standard plates
- self-tapping screw set
- tap for cortex screws
- case, 11 x 10 x 2 inches

Shipping weight is about 15 pounds.

Thoracic instruments - \$975

List: \$3,240. MedCon: VG. Thoracic instruments with autoclave case.

Contents:

- Two Richardson retractors
- ribbon retractors
- Matson rib stripper and elevator
- two double action rongeurs
- straight and curved arterial clamps
- straight and curved scissors
- Strully neurological scissors
- trocar
- other hooks and instruments as shown in the photographs
- autoclave case with handles and lift-out tray, 12 x 23 x 6 inches

Shipping weight is about 30 pounds.

Bone instruments - \$750

List: \$1,900. MedCon: VG. Bone operation instruments with autoclave case.

Contents:

- Richards bone chisel
- Murphy Lane bone skid
- drill bits
- double action rongeurs
- other chisels, clamps and instruments as shown in the photographs
- autoclave case with handles and lift-out tray, 12 x 23 x 6 inches

Shipping weight is about 45 pounds.

Major instrument set (partial) - \$875

List: \$3,925. MedCon: VG. Miscellaneous surgical instruments with autoclave case.

Contents:

- Storz rasps
- lamina spreaders
- Biomet mallet
- Storz curettes
- Richards bone chisel
- Orthopedic drill bits
- autoclave case with handles and lift-out tray, 12 x 23 x 6 inches

Shipping weight is about 35 pounds.

Hemorrhoid ligation set - \$400

List: \$980. MedCon: VG. Hemorrhoid banding set with autoclave pan.

Contents:

- Ford Dixon ligation device
- Ford Dixon Forceps
- Magic Loading Cone, for loading rubber bands onto the ligation device
- autoclave pan, 6.5 x 10 x 2.25 inches

Shipping weight is about 3 pounds.

Long trocar set - \$675

List: \$2,130. MedCon: VG.

3 Ea. Wolf 8367.03 trocar and sheath, 2.7 x 235 mm. 1 Ea. Berman needle and sheath, 235 mm.
Storage box included

Shipping weight is about 4 pounds.

Trocar set - \$1,700

List: \$4,100. MedCon: VG. Trocar set with storage box.

Contents:

- 3 EA. Olympus A5224 trocar and A5205 sheath with valve
- Olympus A5220 trocar and A5205 sheath with valve
- Olympus A5220 trocar and A5204 sheath
- Olympus A5204 trocar and A5276 sheath with valve
- Storz 26172 CS trocar and sheath with valve
- Storz 26172 CS sheath with valve
- Storz telescope bridge, 27068CD
- Storz 26163 V sheath
- Wolf 8989.151 sheath
- Storz 27026 VO and 26163 DO obturators

- 6 EA. Stryker 250-040-104 monopolar electrosurgical probes, 29 cm, L tip
- WISAP 7608 alligator graspers
- cardboard storage box, 7 x 20 x 3.25 inches

Shipping weight is about 15 pounds.

Hysteroscope - \$1,275

List: \$3,860. MedCon: VG. Stryker model 502-743-010 hysteroscope, 2.7 mm, 0°, with case. Can be used with 2.7 mm continuous flow sheath or operative sheath (not included). Autoclave case included.

Shipping weight is about 5 pounds.

Cystoscope set - \$1,675

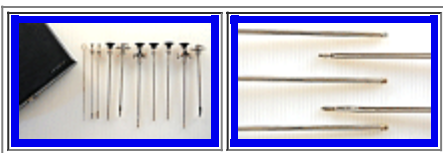

List: \$4,920. MedCon: VG. Cystoscope set with sheaths and accessories.

Contents:

- Wolf 70° Panoview plus 8650.435 cystoscope
- Wolf 5° Panoview lumina SL8650.431P cystoscope
- Wolf 8650.20 sheath
- Wolf 8652.041 sheath
- Wolf telescope bridge, 8652.26
- Storz telescope bridge, 27068CD
- Olympus A5201 sheath with valve
- Storz 26163 CL sheath with two ports
- Storz 26163 V sheath with single port
- Storz 27021 UL deflecting bridge
- Storz 27050 BK visual obturator
- Wolf 8652.041 obturator
- plastic tray with cushioned insert, 19.75 x 9 x 2 inches

Shipping weight is about 10 pounds.

Cystoscope set - \$4,275

List: \$9,300. MedCon: VG. Set of five F24 American Cystoscopes.

Two of the scopes are 3.6 mm diameter and have irrigating sheaths. The other three scopes are 6 mm diameter. 15.25 x 9.25 x 3.25 inch padded storage case.

Shipping weight is about 10 pounds.

Esophageal dilators - \$275

List: \$1,200. MedCon: VG. Dilators, unknown manufacturer, detachable on a storage ring; gauges 19, 22, 25, 28, 31, 34, 37, 40, 43, and 46. Also includes flexible shaft, wire, string and shot in a shallow pan, 13.25 x 9.75 x 0.5 inches.

Shipping weight is about 4 pounds.

Resuscitation training manikin - \$475

List: \$791. MedCon: VG. Laerdal Resusci Anne head and torso.

Features:

- torso covering with lung bag and sensors for CPR training; gives realistic resistance to chest compression
- tiltable head with realistic mouth allows practice of airway blockage removal
- separate torso covering with ECG-style electrode clamps for demonstrating defibrillator use
- transport case with rolling wheels
- condensed instructions decal on inside cover of case

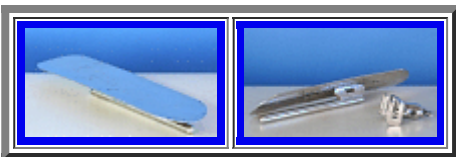

Overall dimensions of the case:

- width: 35.5 in.
- depth: 19.5
- height: 12

Shipping weight is about 55 pounds.

Thoracotomy support - \$475

MedCon: VG. Thoracotomy attachment (19 inches long) and Clark socket

Shipping weight is about 10 pounds.

Surgical accessories - \$275

MedCon: VG. Curved metal plates. 19.5 inches curved length, 8 & 3/8 width tapering to 7 inches.

We assume that these are retractors or positioners for a procedure.

Shipping weight is about 20 pounds.

Laparoscopic illumination system - \$1,275

List: \$4,365. MedCon: VG. Circon 300 W xenon light source, model MV-9086, 100-125 V, 50-60 Hz. and Medovations specialty fiber optic cable.

Features:

- universal connection turret; ACMI, Storz, Wolf, Olympus
- intensity control dial with bar graph and digital read
- power on/off rocker switch with green indicator light
- 8 foot Medovations innerVision fiber optic cable (50 French) to be used with detachable blunt or tapered tips

Overall dimensions of the unit:

- width: 10 in.
- depth: 14
- height: 6.25

Shipping weight is about 25 pounds.

Surgical helmets and charger - \$975 the set

List: \$7,300. MedCon: VG. DePuy Provision surgical helmets. Set of 5 helmets and batteries and charger.

Features:

- two speed air circulation motor
- sealed filter
- powered by rechargeable battery; battery can be clipped to belt or surgical gown
- Velcro strips for attaching disposable front shields
- 6-place Cadex battery charger, model UCC6, has run, ready and fail indicator lights; 90-264 V, 50/60 Hz charges to 24 VDC output
- extra battery caps and cables

Shipping weight is about 45 pounds.

Battery Multi-Charger - \$750 each

List: \$2,780. MedCon: VG. Stackhouse model FM-800/M battery pack multi-charger. 120 V, 60 Hz.

Features:

- charges Stackhouse FM-500/6 batteries for the Freedom surgical helmet system
- 12 charging ports
- 12 batteries included
- power on/off rocker switch with indicator light
- 9-foot power cord with hospital grade plug

Overall dimensions of the unit:

- width: 15.25 in.
- depth: 9
- height: 15

Shipping weight is about 40 pounds. 2 units in stock.

Surgical handpiece - \$975

List: \$3,200. MedCon: VG. Xomed Wizard microdebrider handpiece, model 18-90001

Features:

- No. 18-90300 sterilization case with built-in support for handpiece
- 9.5 foot cable with 5-pin connector

Overall dimensions of the case:

- width: 10.5 in.
- depth: 7
- height: 2.75

Shipping weight is about 5 pounds.

Stereotaxis system - \$2,750

List: \$11,200. MedCon: VG. Brown-Robert-Wells stereotaxis system.

Features:

- main ring is 9 & 7/16 inches diameter with 0-360° markings
- gamma ring with 0-180° markings
- main post may be locked into defined lateral and anterior/posterior positions (+/- 120 mm scales)
- position tracing rod
- measurement vernier rings are made of pure nickel, for lowest reactivity.

Overall dimensions of the unit:

- width: 15.125in.
- depth: 18.125

- height: 16

Shipping weight is about 30 pounds.

Tourniquet - \$875 each

List: \$3,200. MedCon: VG. Scandmed automatic low-pressure tourniquet.

Features:

- coiled cuff hose
- 12 foot hose for air or nitrogen line; 50 psi min., 150 psi max.
- pressure adjustment knob
- timer
- pole clamp
- 'directions for use' decal on back of the unit

Overall dimensions of the unit:

- width: 6.75 in.
- depth: 6
- height: 6.5

Shipping weight is about 15 pounds. 2 units in stock.

Stryker battery charger - \$550

List: \$1,900. MedCon: VG. Stryker System II charger, model 298-104. 120 V, 50/60 Hz. For Stryker System II handpiece batteries.

Features:

- 4 charging ports
- three System II batteries, no. 298-100 included
- charge/ready/replace indicators for each charging port
- power on/off rocker switch

Overall dimensions of the unit:

- width: 13 in.
- depth: 11.75
- height: 4.5

Shipping weight is about 30 pounds.

CPR manikin - \$750

List: \$2,700. MedCon: VG. Laerdal/Actronics adult CPR manikin.

Features:

full length model with right side arm
flexible positioning of head

- sturdy case rolls on two wheels

Overall dimensions of the unit:

- width: 35 in.
- depth: 20
- height: 12

Shipping weight is about 60 pounds.

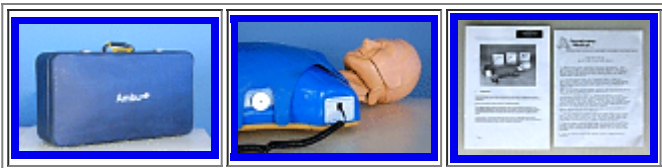

CPR / Defibrillation simulator - \$755

List: \$2,700. MedCon: VG. Ambu Simulator II, type 174001000.

Features:

- compatible with Vent-Meter, depth gauge, and CPR recorder for additional documentation
- four packages disposable head bags
- one package washable nose/mouthpieces
- lung and stomach bags
- heart is simulated by pneumatic cylinder under lower half of sternum
- pneumatic bulb to simulate carotid pulse (palpable)
- plates for detecting defibrillator discharge

Overall dimensions of the unit:

- width: 33 in.
- depth: 20.5
- height: 9

Shipping weight is about 50 pounds.

Intubation model - \$760

List: \$2,800. MedCon: VG. Laerdal adult intubation model (Armstrong Medical model number AA-3000). Shoulder level model with lungs and stomach bags and open mouth with upper and lower teeth.

Overall dimensions of the case:

- width: 29 in.
- depth: 17
- height: 10

Shipping weight is about 40 pounds.

CPR manikin - \$745

List: \$2,960. MedCon: VG. Armstrong CPR manikin.

Features:

- upper torso with flexible head positioning
- resuscitation mask included
- mechanics of operation visible
- sturdy storage case

Overall dimensions of the case:

- width: 24.25 in.
- depth: 22.5
- height: 10

Shipping weight is about 45 pounds.

Ostomy training aid - \$825

List: \$2,900. MedCon: G. Life/Form ostomy trainer, manufactured by Nasco. Lower torso model with inner pail leading to front drainage tube. Carrying case included.

Overall dimensions of the case:

- width: 17.25 in.
- depth: 16.25
- height: 11.5

Shipping weight is about 25 pounds.

Sagittal saw - \$1,475

List: \$4,900. MedCon: VG.

Zimmer Hall Micro E sagittal saw with hand activation lever and 9 foot cable. 15,000 cpm. For use with Hall Micro E controller.

Shipping weight is about 3 pounds.

Surgical drills and burs - \$1,275

List: \$6,350. MedCon: VG. Zimmer Hall straight and curved and handpieces and Osteon bur rack.

Features:

- Zimmer Hall straight drill, model 5038-91
- Zimmer Hall curved drill, model 5038-92
- pneumatic hose
- autoclave case, model 5052-12, 10.25 x 7.25 x 3.5 inches
- osteon bur rack, model 5038-09, equipped as shown

Shipping weight is about 20 pounds the set.

Blood warmer - \$750

List: \$3,900. MedCon: VG. Stihler Hospal Prismatherm model FW115 blood warmer. 115 V, 50-60 Hz.

Features:

- approximately 3.5 mm tubing channel (spiral thread)
- 37°C indicator
- temp alarm and silence
- power on/off rocker switch with green indicator light
- 2 foot power cord with hospital grade plug

Overall dimensions of the unit:

- width: 8 in.
- depth: 6.75
- height: 10.5

Shipping weight is about 15 pounds. 2 units in stock, one branded as Cobe SpectraTHERM.

Surgical drill - \$975

List: \$3,875. MedCon: VG. Osada XL-15W power box and handpiece. 120 V, 50/60 Hz.

Features:

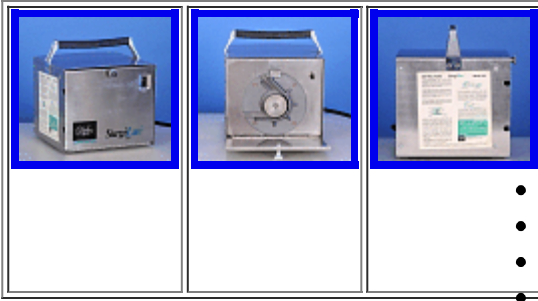

- K021149 handpiece
- speed control slider switch, 800-15,000 rpm
- forward/reverse toggle
- manual/footswitch toggle
- power on/off rocker switch with green indicator light
- connectors for footswitch and irrigation on back of unit
- carrying handle
- 6 foot power cord with hospital grade plug

Overall dimensions of the unit:

- width: 6.5 in.
- depth: 6.5
- height: 3.75

Shipping weight is about 10 pounds.

Surgical irrigation pump - \$675

List: \$3,900. MedCon: VG. Stryker SurgiLav 201 irrigation pump. 115 V, 60 Hz.

Features:

- front panel opens for threading of peristaltic pump
- power on/off toggle switch
- carrying handle
- operating instructions printed on the side of instrument

Overall dimensions of the unit:

- width: 9 in.
- depth: 9.75
- height: 10.5

Shipping weight is about 40 pounds.

Prostate thermo therapy system - \$4,000

List: \$19,200. MedCon: VG. Thermatrix TMx-2000 BPH thermo therapy system. 110/120/220/240 V (selectable), 50/60 Hz. Used for transurethral microwave thermotherapy in benign prostate hyperplasia.

Features:

- console on cart with 4 locking casters, transport handle, supplies drawer, bottom shelf and power bar with 4 AC outlets
- three sensor cables to be used with catheters
- desired temp and time sets
- LED display of temperature sensor readings
- start, pause and stop treatment buttons
- IBM ThinkPad computer with Microsoft Windows xp
- Thermatrix Dataview software with graph and tabular display options (see monitor screen shots below)
- 4.5 inch paper report printer
- remote with pushbutton
- 14 foot power cord with hospital grade plug
- pull-out instruction cards for description of calibration and operation
- floppy disc with product, patient and procedures information
- storage cover

Overall dimensions of the unit:

- width: 21.5 in.
- depth: 20
- height: 46

Shipping weight is about 150 pounds.

Power console - \$675

List: \$3,900. MedCon: G. Stryker Command 2 power console. 100-240 V, 50-60 Hz. Minor cracking of console moulding.

Features:

- supplies rotary power to handpiece attachments such as saws, drills, wire drivers and dermabraders
- front of unit contains connectors for handpiece and foot switch
- variable speed control knob with green light indicator showing percentage
- dual braking system; stand/soft toggle on back of instrument
- power on/off rocker switch
- instructions decal on top of console

Overall dimensions of the unit:

- width: 13 in.
- depth: 11.25

- height: 2.7

Shipping weight is about 20 pounds. 2 units in stock.

Bio-Console hand crank device - \$1,650

List: \$4,900. MedCon: VG. Bio-Medicus Bio-Console hand crank device, model 100. Allows manual operation of Bio-Console extra corporeal blood pump in the event of AC power loss.

Features:

- front hand grip and side hand crank
- bracket allows crank shaft to make frictional contact with drive shaft of Bio-Console pump
- analog rpm gauge
- instructions printed on instrument

Overall dimensions of the unit:

- width: 10.25 in.
- depth: 18.25
- height: 7

Shipping weight is about 15 pounds.

Electro hydraulic lithotripter - \$975

List: \$8,300. MedCon: VG. Wolf RIWOLITH, model 2280.004 lithotripter. 120 V, 50/60 Hz. For electro hydraulic shock wave fragmentation of urinary stones.

Features:

- 3 pulse operation modes
- touchpad arrows to increase/decrease power and pulse rate; corresponding bar graph LED
- probe connector and probe selection menu (probe not included)
- 3-pin footswitch connector
- power/on/off rocker switch with green indicator light

Overall dimensions of the unit:

- width: 19.5 in.
- depth: 14
- height: 7.25

Shipping weight is about 45 pounds.

Surgical smoke evacuator - \$975

List: \$4,300. MedCon: VG. Stackhouse AirSafe smoke filtration system (catalog no. ST-2500, part no. 20360). 120 V, 60 Hz.

Features:

- air flow rate set by touchpad up and down arrows with bar graph LED indicator
- bar graph LED indicators for charcoal and ULPA filter life
- touchpad button labeled footswitch also serves as a continuous on/off function
- nipple under control panel may be connector for footswitch
- easy access ULPA filter holder
- two holders for fluid and particulate pre filters
- transport handle
- 12 foot power cord with hospital grade plug
- cord wrap

Overall dimensions of the unit:

- width: 17 in.
- depth: 19.5
- height: 34.5

Shipping weight is about 70 pounds.

Lesion r/f generator - \$1,850

List: \$13,822. MedCon: VG. Radionics model RFG-3AV lesion generator. 105-125 V, 60 Hz.

Features:

- adjustable RF power with volt and current meters
- adjustable pulse rates
- one shot or repeated pulses
- timer with delayed and un delayed start toggle
- analog gauge for probe temperature
- stimulator, test and heating modes
- AC power and RF power indicator lights
- carrying handle

Overall dimensions of the unit:

- width: 19.5 in.
- depth: 10
- height: 15

Shipping weight is about 55 pounds.

R/F lesion generator - \$2,750

List: \$26,375 MedCon: VG. Radionics model RFG-3C lesion generator system. 105-125 V, 60 Hz. Used for neurological tissue ablations in pain management.

Features:

- test, stimulator and lesion modes
- digital display of following parameters
 - tissue impedance
 - tip temperature
 - automatic over temperature set value
 - stimulation voltage, pulses/sec and pulse duration in the stimulation mode
 - lesion time, output power, output voltage and output current in the lesion mode
 - status messages
- alarm sets
- electrodes not included
- back of unit has serial port and recorder output pin connectors for impedance, temperature, watts, current and voltage
- connector for footswitch on back of unit (footswitch not included)
- multi-position carrying handle
- power on/off switch with indicator lamp
- product brochure and procedure techniques series reprints included

Overall dimensions of the unit:

- width: 20.5 in.
- depth: 12.5
- height: 7.5

Shipping weight is about 35 pounds.

Fracture rings and connecting rods - \$1,275 takes all

List: \$12,300. MedCon: EX.

Ace fracture rings, connecting rods and pin holders.

- 4 each of the following titanium rings are included
 - FF-10027, 2/3 ring, small (6 in. diam.)
 - FF-10028, 1/3 ring, small (6 in. diam.)
 - FF-10029, 2/3 ring, medium (8 in. diam.)
 - FF-10030, 1/3 ring, small (8 in. diam.)
 - FF-10031, 2/3 ring, large (10 in. diam.)
 - FF-10032, 1/3 ring, large (10 in. diam.)
- 4 each of the following titanium connecting rods are included
 - FF-10000-1, short
 - FF-10000-2, medium
 - FF-10000-3, long
- 6 each of the following pin holders
 - FF-10365, 3 pin holder
 - FF-10360, 2 pin holder

- FF-10355, 1 pin holder
- miscellaneous parts as shown in the photograph

Shipping weight is about 30 pounds.

Stryker surgical equipment parts - \$675 takes all

List: \$1,800. MedCon: N. Stryker surgical instruments parts.

The lot includes:

- 4 EA., P/N 6000-001-020; 2 meter 1394B firewire cable (also called SFB serial cable) to connect iSwitch to SERFAS or CORE consoles
- 3 EA., P/N 620-040-003; DISS hose for house gas connection
- 3 EA., P/N 620-040-002; DISS house gas connector

Shipping weight is about 15 pounds.

Surgical drill - \$750

List: \$3,200. MedCon: VG. Stryker Microtome 143 curved handpiece with seven burrs.

Overall dimensions of the case:

- width: 13.25 in.
- depth: 9
- height: 2.75

Shipping weight is about 10 pounds.

Intermittent suction system - \$1,375

List: \$4,900. MedCon: VG. Impact programmable intermittent suction/aspirator system, model 306. 115/230 V, 50/60 Hz. See gauge in photo for demonstration of vacuum drawn in intermittent mode on a surgical aspiration jar.

Features:

- vacuum gauge, dual scale, mm Hg and in. Hg
- pushbuttons with green indicator lights for power on and mode selection
- continuous and intermittent modes with selectable on and off times for intermittent mode
- vacuum range: continuous low, 0-200 mm Hg; high, 0-550 mm Hg; intermittent, 0-200 mm Hg

- AC and 12 VDC internal rechargeable battery operation
- clip on back to hold overflow bottle

Instruction Manual

Overall dimensions of the unit:

- width: 18 in.
- depth: 10
- height: 7

Shipping weight is about 35 pounds.

Craniotome - \$2,750

List: \$9,700. MedCon: VG. 3M model C100 craniotome and air drill.

Features:

- 1000 rpm perforator drive, model D-292
- duraguard D-292
- 10 foot air hose
- stainless steel case

Overall dimensions of the case:

- width: 14.25 in.
- depth: 9
- height: 3.75

Shipping weight is about 15 pounds.

Instrument set - \$1,475

List: \$6,300. MedCon: VG. Sonic Surgery instrument set. Air drill with attachments as shown.

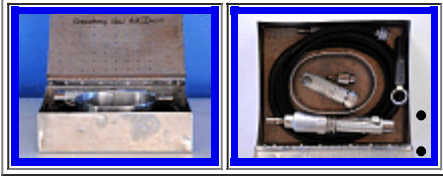

Overall dimensions of the case:

- width: 12.25 in.
- depth: 5.5
- height: 2.5

Shipping weight is about 5 pounds.

Osteotomy air drill - \$1,875

List: \$8,900. MedCon: VG. 3M Hall Osteotomy air drill.

Features:

- 3M osteotomy saw, model D299
- 1M Jacobs chuck
- drill and screwdriver attachment, model D-281
- holding handle, model D-295
- 10 foot air hose
- stainless steel case

Overall dimensions of the case:

- width: 12.25 in.
- depth: 10.5
- height: 3.25

Shipping weight is about 10 pounds.

Bone mill - \$1,275

List: \$6,900. MedCon: VG. 3M bone mill, model L160 with attachments.

Overall dimensions of the tray:

- width: 12.25 in.
- depth: 7.75
- height: 2.25

Shipping weight is about 15 pounds.

Fixation post instrumentation system - \$975

List: \$4,250. MedCon: G. Acuflex fixation post instrumentation system, no. 014465. Contains drills and post holder, driver and tap.

Overall dimensions of the case:

- width: 10.25 in.
- depth: 10
- height: 1.75

Shipping weight is about 3 pounds.

Smoke evacuator - \$575 each

List: \$3,950. MedCon: VG. Crystal Vision EBS ICM-350D smoke evacuator, by I. C. Medical. 85-264 V, 47-63 Hz.

Features:

- for use with disposable filter and tubing
- low (4-20) and high (15-60 L/min) flow modes with bar graphs and digital readout
- flow and time dials
- LED warnings for occlusion, change filter, overpressure and no patient
- laser and esu connectors
- power on/off pushbutton with white indicator lamp
- mains on/off rocker switch on back of instrument

Overall dimensions of the unit:

- width: 15.25 in.
- depth: 15
- height: 7.5

Shipping weight is about 20 pounds. 2 units in stock.

Robotic endoscopic surgery system - \$2,750

List: \$88,500. MedCon: VG. Computer Motion Aesop 3000 with Stryker endoscopy tower. 120-240 V, 50/60 Hz. The Aesop 3000 is a robotic surgical system which maneuvers and positions an endoscope under the direction of a surgeon.

Features:

- rolling cart with top work surface, locking casters, robotic arm, hand control, and microphone headsets
- The Stryker endoscopy cart is equipped with
 - Sony Trinitron PVM20M2MDU/ST 19 in. diagonal color video monitor
 - Stryker30L high flow insufflator
 - Stryker X6000 light source
 - Stryker 888 digital camera controller
 - Stryker Mega Hi-Definition printer
 - Sony SVO-2100 videocassette recorder
- two Hermes pendants included
- complete set of operation manuals for this equipment

Aesop 3000			
Endoscopy tower (fully equipped)			
			
			

Operator's Manuals

Overall dimensions of the surgical robot:

- width: 27 in.
- depth: 17
- height: 50 (adjustable)

Overall dimensions of the endoscopy tower:

- width: 27 in.
- depth: 26.5
- height: 78

Shipping weight is about 500 pounds.

Intra-aortic balloon pump - \$4,375

List: \$63,400. MedCon: VG. Arrow International KAAT II Plus intra-aortic balloon pump. 120 V, 60 Hz. For cardiac support of patients with imbalanced myocardial oxygen supply and demand.

Features:

- 7 x 5 in. monitor in control console with touchpad controls and indicator lights for active selections
- trigger modes
 - ECG pattern
 - ECG peak
 - atrial fib
 - ventricular pacer
 - arterial pacer
 - arterial pressure
 - internal
- waveform select
 - balloon
 - ECG balloon
 - AP balloon
- built-in printer
- transport handle
- bag for supplies on back
- quick instruction cards

quick instruction cards

Overall dimensions of the unit:

- width: 13 in.
- depth: 25

- height: 35 (48)

Shipping weight is about 150 pounds.

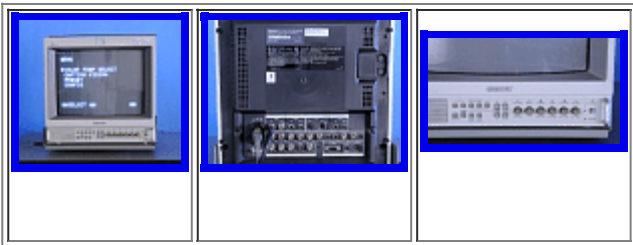

Catheter cart with light source and video - \$1,275

List: \$4,090. MedCon: VG. Myelotec model 1000 twin beam fiber optic light source. 120 V. One photo at left shows the naked light port and the second photo shows the cable connector for illustrative purposes only; the distal end is damaged and the purchaser will need to obtain appropriate fiber optic cables.

Features:

- the light source is mounted in an endoscopy tower which has a video monitor and can be further equipped for a complete surgical system
- power on/off rocker switch with green indicator light
- light intensity dial
- source A/B toggle
- built-in endoscopic video camera, under rubber on control panel
- Sony PVM-1353MD 13 in. diagonal color video monitor, 120 V, 60 Hz.

Overall dimensions of the light source:

- width: 19 in.
- depth: 16.5
- height: 7.25

Overall dimensions of the tower with monitor:

- width: 28 in.
- depth: 36
- height: 63

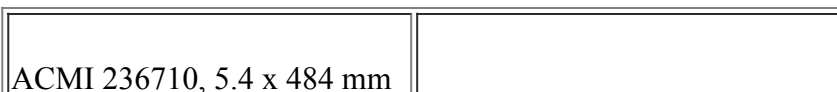

Shipping weight is about 300 pounds.

5 piece cytoscope set - \$3,750

List: \$22,300. MedCon: G. American Cytoscope Makers, Inc. models as shown below. With stainless steel case and 5.5 ft. optic cable with connectors for two scopes.

All are in good shape except for some cracks in the view mount on the 70° Lat.

	
ACMI 229369, 5.4 x 475 mm	
ACMI 236513, 3.6 x 496 mm	
ACMI 239654, 5.4 x 483 mm	
ACMI FO-8168L, 4 x 263 mm 70° Lat.	
	

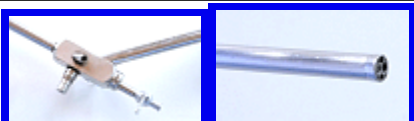

Shipping weight is about 10 pounds.

Laproscope set - \$2,750

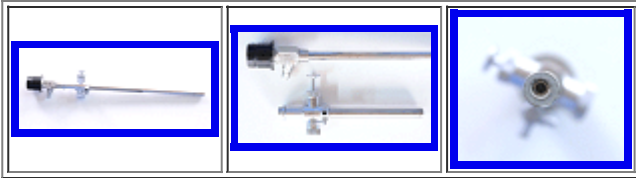

List: \$14,500. MedCon: VG.

Set of 3 offset laproscopes by Wolf and Eder.

Wolf model 8946.31, 12 x 267 mm, 10°	
Wolf model 8858.31, 7 x 83 mm, 10°	
Eder model 745, 8 x 179 mm	

Shipping weight is about 10 pounds.

Laparoscope - \$975

List: \$3,400. MedCon: G. Eder model 110801 laparoscope. 10 x 282 mm. 180°.

Includes Eder 111180 trocar sleeve with piston valve.

Shipping weight is about 1 pound.

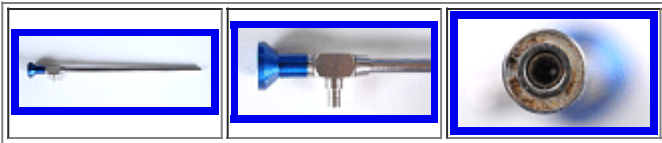

30° cytoscope - \$675

List: \$3,200. MedCon: VG. ACMI model FO-8168M cytoscope. 4 x 260 mm, 30° FORO.

Shipping weight is about 5 pounds.

Weck laparoscope - \$875

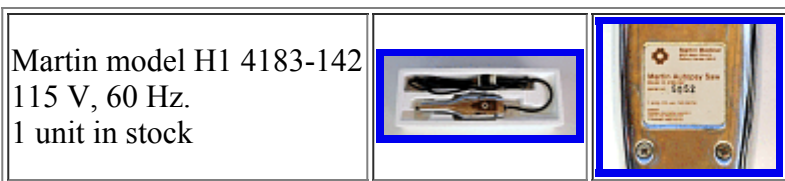

List: \$3,200. MedCon: G.

Weck model 110800 laparoscope. 10 x 282 mm. 180°.

Shipping weight is about 5 pounds.

Autopsy saw - \$675 each

List: \$1,900. MedCon: VG.

Martin model H1 4183-142
115 V, 60 Hz.
1 unit in stock

Shipping weight is about 10 pounds.

Bi-ventricular support system - \$6,750

List: \$55,900. MedCon: VG. Abiomed BVS 5000i bi-ventricular support system. 120 V, 60 Hz. Provides short-term support to a failing heart, and assist heart functions for one or both sides of a failing heart.

Features:

- control panel has separate left and right controls and LCD messages
- LCD gives heart rate, blood outflow and alarm messages

- push-open weaning controls compartment on main control panel
- abbreviated operation instructions and explanation of alarms printed on control panel
- internal battery charges for one hour of operation time if AC power is disconnected
- emergency use foot-operated blood pump stored in rear compartment
- recessed transport handle
- cord wrap
- BVS 5000i Operator's Manual and Training Manual included

	control panel
	back view showing emergency foot pump
	training manual and operator's manual
	product brochure, front
	product brochure, specifications

Overall dimensions of the unit:

- width: 24 in.
- depth: 21.5
- height: 33

Shipping weight is about 170 pounds.

Waste fluid management system - \$1,875

List: \$18,900. MedCon: VG. Steris SafeCycle 40, model SC40A1. 120 V, 60 Hz.

Features:

- self-contained system minimizes risk to clinical personnel
- rolling unit with transport handles
- can collect from four sources simultaneously

- 40 liter storage
- uses wall suction and fluid collection lines
- fluid level indicators and automatic shut-off valve
- automatic disposal and self cleaning cycles
- start button and ready and active cycle indicator lights
- laminated card with operation instructions

Overall dimensions of the unit:

- width: 30 in.
- depth: 26
- height: 50

Shipping weight is about 300 pounds.

Cryosurgical system - \$975

List: \$7,300. MedCon: VG. Cryotech LCS2000 cryo unit. 110/120 V, single phase, 50/60 Hz. Surgical probes not included.

Features:

- rolling cabinet on 4 casters
- 60 L Dewar tank
- 2 line outlets
- Dewar and thaw pressure gauges
- temperature gauge with selector dial for probe thermocouple being monitored
- % LN gauge
- control panel has indicator lamps for active functions
- 16 foot power cord with hospital grade plug
- Instruction Manual, quick reference cards and training video
- British manufacturer represented in the USA by Candela

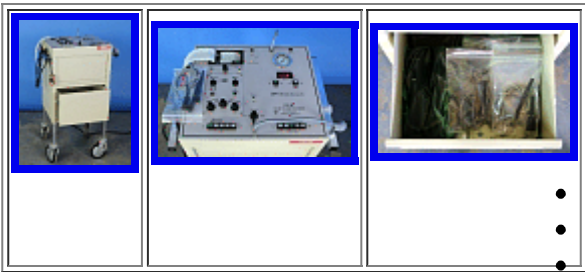

Overall dimensions of the unit:

- width: 22 in.
- depth: 24.5
- height: 52.25

Shipping weight is about 240 pounds.

Pulse volume recorder - \$575

List: \$4,300. MedCon: VG. Life Sciences Inc. PVR IV pulse volume recorder. 115 V, 60 Hz.

Features:

- LED window shows auto inflate volume
- remote with inflate and deflate controls
- built-in printer, 2.5 in. paper roll
- transport handles
- 9 foot power cord with hospital grade plug
- cuffs, cables and paper rolls included

Overall dimensions of the unit:

- width: 22 in.
- depth: 17.5
- height: 39.5

Shipping weight is about 120 pounds.

Ultrasonic surgical aspirator - \$1,750

List: \$37,000. MedCon: VG. Cooper CUSA Cavitron ultrasonic surgical aspirator. 120 V, 60 Hz.

Features:

- One curved and two straight handpieces
- tip vibration indicator (analog gauge) and increase/decrease adjust knob for tip vibration
- vacuum gauge and increase/decrease adjust knob for suction
- peristaltic pump for irrigation and increase/decrease adjust knob
- feed and waste bottle holders
- ultrasonic time indicator
- 14 foot power cord with hospital grade plug
- 8 CUSA tubing packs
- footswitch with IRR and VIB pedals
- 1986 date of manufacture

	manufacturer's plate
	one curved and two straight handpieces

	consumable supplies
	handpiece assembly/disassembly instrument

Overall dimensions of the unit:

- width: 24 in.
- depth: 24
- height: 56 plus iv pole

Shipping weight is about 275 pounds.

Surgical drill/irrigator power console - \$1,375

List: \$9,800. MedCon: VG. Xomed Micro-Craft power system, catalogue no. 30-22510. 110 V, 60 Hz.

Features:

- rolling stainless steel cart with two drawers and front locking casters
- two handpiece connectors on back of console (handpieces not included)
- lighted pushbuttons to set drill speed
- two variable speed pumps
- 4-pin footswitch connector (footswitch not included)
- 13 foot power cord with hospital grade plug

Overall dimensions of the console:

- width: 19 in.
- depth: 15.5
- height: 6.25

Overall dimensions of the console on cart:

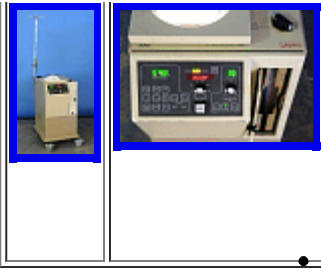

- width: 20.25 in.
- depth: 16
- height: 40

Shipping weight is about 80 pounds.

Extra corporeal photophoresis therapy unit - \$2,275

List: \$28,000. MedCon: VG. Therakos UVAR extra corporeal photophoresis therapy

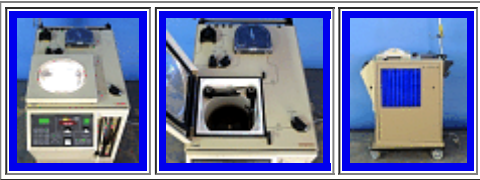

unit. 120 V, 60 Hz. Minor scuffing of finish.

Separates leukocyte buff coat layer from patient blood. Separated cells can be treated outside the body and returned to the patient.

Features:

- lighted rotor chamber with magnifying view
- hour meter on back
- front locking casters
- bottom bumper
- transport handles
- 11.5 foot power cord with hospital grade plug
- cord wrap
- the manufacturer provides an overview of uses, www.therakos.com/fopm/how.jsp

Overall dimensions of the unit:

- width: 21 in.
- depth: 29
- height: 38 (70.5)

Shipping weight is about 250 pounds.

3D cardiac electro anatomical cardiac physiology system - \$7,450

List: \$175,000. MedCon: VG. Bio sense Webster Carto model 4.0 electro anatomical mapping system. Also called an electrophysiology system. 110-120 V, 50/60 Hz.

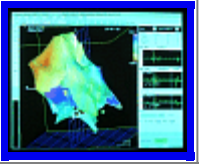

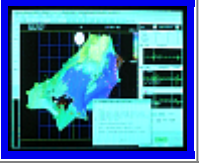

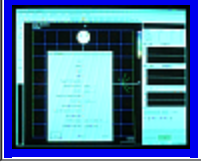

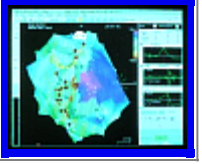

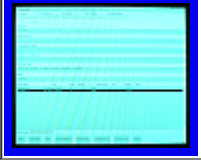

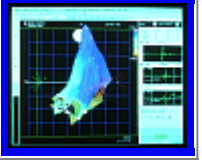

This system provides an alternative to fluoroscopic guidance of an intra aortic catheter by use of a magnetic pad and ECG leads to simultaneously map and direct a catheter to specific sites defined by electrophysiological properties. Applications include ablation of diseased cardiac tissue to alleviate arrhythmia. Software allows data collection, patient files and image manipulation including annotation, zoom and rotate.

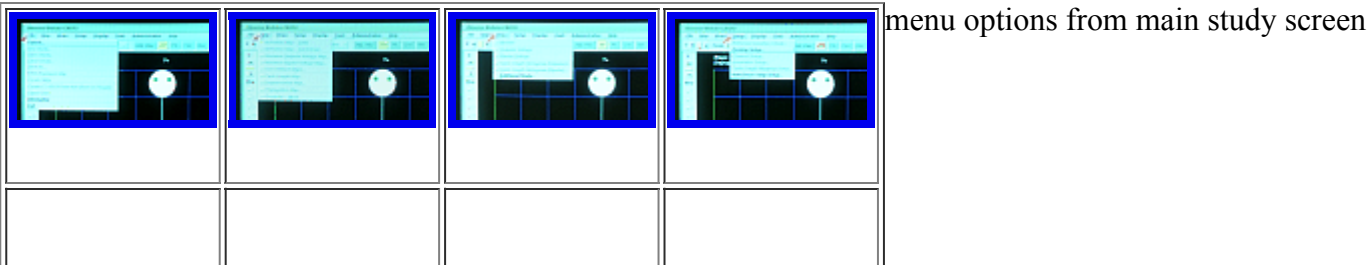

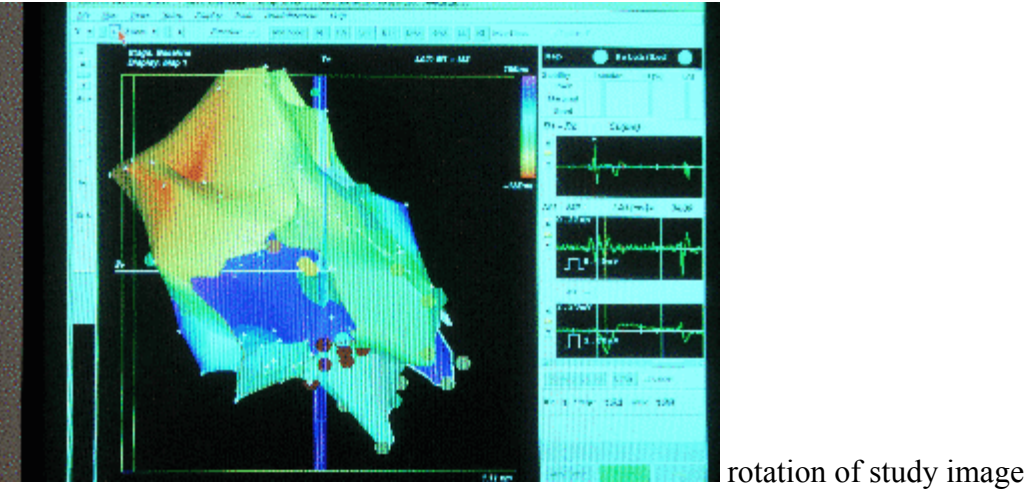

Electro anatomic mapping (EAM) records intra cardiac chamber electrical activation in relation to anatomic location during arrhythmia mapping. Accurately determines the location of arrhythmia origin, defines 3D cardiac chamber geometry, delineates areas of anatomic interest, and allows catheter manipulation and positioning without fluoroscopic guidance. This can simplify mapping efforts and can increase procedural success, especially where complex arrhythmia and unusual cardiac anatomy are encountered.

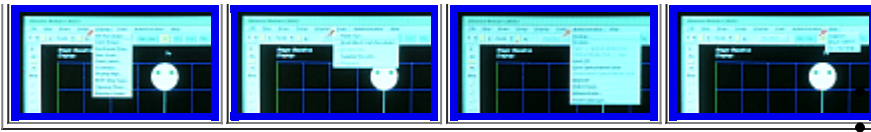

Features:

- front of Carto has power on indicator lamp and connections for magnetic field locator pad, cath locator and ECG
- back of Carto has footswitch, keyboard, mouse, data port, serial, workstation, and monitor connections as well power on/off rocker switch

- 9/15/2014
- PEMED - used surgery surgical medical equipment, largest on-line catalog
- Silicon Graphics O2 workstation, model B014ANT300, has keyboard, mouse, data port, 9-pin and monitor connections and is loaded with the Carto imaging software
 - J box has ECG in and out Aux IC in and out and cables to ECG and cath locator connectors on the Carto computer
 - footswitch included

	front of J box		help screen
	side of J box		rotated image
	start screen		study image with data summary
	study screen with customization options		study image
	patient data screen with study recall		study image

Overall dimensions of the Carto:

width: 17.5 in.

depth: 17

- height: 8.5

Shipping weight is about 125 pounds without monitor.

Auto transfusion system - \$1,750

List: \$28,700. MedCon: G. Medtronic Sequestra 1000 auto transfusion system.

Wired for 115/230 V, 50/60 Hz, so may be used on most international voltages.

This is a red blood salvage and blood component sequestration machine with applications such as collection of a therapeutic dose of platelets for use as a surgical 'glue' and intra operative or postoperative return of red blood cells.

6 factory set surgical options:

- standard
- trauma
- orthopedic/post op
- low volume
- cardiovascular
- concentrated platelets

Features:

- rolling cart with transport handle, two IV poles, container clamp, plug guard, and two locking casters
- 7.5 x 2 in. LED screen with touch prompts
- auto and semi-auto modes with on-the-fly overrides
- standard program and four operator-saved programs
- operator sets fill, wash rate, wash volume, empty, and centrifuge speed
- centrifuge speed range of 1000 to 5600 rpm cover a range useful for rbc salvage and platelet recovery
- sealed centrifuge assembly with cover lock
- fluid pump adjustable for flow rates of 10 to 1000 ml/min
- power on/off rocker switch with green indicator lamp
- RS-232 and printer ports
- built in tutorial and help programs

Overall dimensions of the unit:

- width: 32 in.
- depth: 18
- height: 61

Shipping weight is about 250 pounds.

Arthroscopy RF generator - \$975

List: \$8,744. MedCon: G. Oratec Vulcan ElectroThermal arthroscopy system power console, model 815000.

100-120/200-240 V, 50/60 Hz.

Features:

- LCD message window and LED windows for display of impedance actual and set power, actual and set temperature, set cut, set coag, set blend and preset
- touchpad arrows to set above parameters
- handpiece connectors on front of instrument, probes not included
- mono- and bipolar modes
- indicator lights for cut, coag, fault
- foot switch with cut and coagulation pedals

Overall dimensions of the unit:

- width: 13.75 in.
- depth: 16.5
- height: 5.25

Shipping weight is about 30 pounds.

RF power generator - \$3,275

List: \$14,900. MedCon: EX. Medtronic Cardio rhythm Atakr power generator, model 0601.

Features:

- LED windows for RF power (W), temperature, impedance and
- touchpad control buttons and arrows
- footswitch, charger (110-120 V, 60 Hz), extra battery and carrying case include
- connectors for footswitch, catheter, dispersive electrode, ECG, data recorder and computer
- large on/off power knob
- IV pole clamp
- recessed carrying handle

Overall dimensions of the unit:

- width: 9.75 in.
- depth: 11
- height: 9.5

Overall dimensions of the case:

- width: 21.5 in.
- depth: 17
- height: 12

Shipping weight is about 40 pounds.

Magnetic blood flow meter - \$1,475

List: \$9,000. MedCon: G. Carolina Medical Electronics Cliniflow II electronic blood flow meter, model FM701D. 115 V, 60 Hz.

Detects blood flow through volumetric calculation of magnetic properties.

This device uses an invasive disposable transducer, which is not included.

Features:

- LED display of blood flow, ml/M
- forward and reverse modes
- four frequency response options
- touchpad arrows for operator sets
- back of instrument has a 9-pin Sync connector and mean and pulse flow jacks

Overall dimensions of the unit:

- width: 16.5 in.
- depth: 17.25
- height: 6.5

Shipping weight is about 20 pounds.

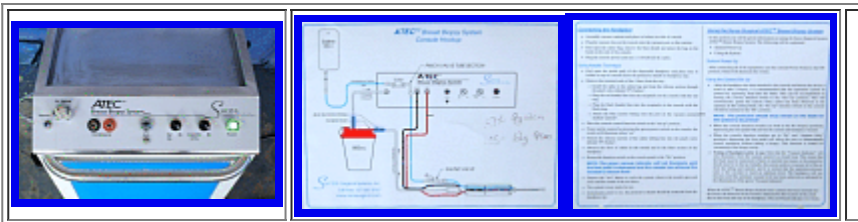

Breast biopsy system - \$2,750

List: \$12,900. MedCon: VG. Suros Atec C-115 breast biopsy system. 100-120 V, 60 Hz.

Features:

- rolling cart with stainless steel top (11 x 19.25 in.), cord wrap
- front locking casters
- footswitch with side holder
- power on/off push button with green indicator light
- hookup diagram card

Overall dimensions of the unit:

- width: 28 in.
- depth: 20.5
- height: 36.5

Shipping weight is about 160 pounds.

Bi-ventricular support system - \$6,750

List: \$75,900. MedCon: VG. Abiomed BVS 5000 bi-ventricular support system. Provides short-term support for a failing heart, and assist heart functions for one or both sides of a failing heart.

120 V, 60 Hz.

Features:

- control panel has separate left and right controls and LCD messages
- LCD gives heart rate, blood outflow and alarm messages
- push-open weaning controls compartment on main control panel
- abbreviated operation instructions and explanation of alarms printed on control panel
- internal battery charges for one hour of operation time if AC power is disconnected
- emergency use foot-operated blood pump stored in rear compartment
- recessed transport handle
- cord wrap
- BVS 5000 Training Manual and BVS 5000 Quick Reference Guide included
- 658 hours
- FCN level 51
- serial # 1328
- manual dated July 1997, so machine is about 1998 in age

Overall dimensions of the unit:

- width: 24 in.
- depth: 21.5
- height: 33

Shipping weight is about 170 pounds.

Patient warmer - \$1,275

List: \$7,300. MedCon: VG. Aragona model MTC XI UL thermal ceiling. 120 V, 50/60 Hz.

Features:

- type OPN XI UL control unit with LED skin temperature display, skin probe connector, heater control dial with heater indicator lamp and power on/off toggle switch
- maximum power output of 500 W
- automatic overheat shutoff (39 degrees C) with visible and audio alarms
- connector for remote alarm and temperature output
- ceiling measures 47.25 x 23.25 in.; safety latch engaged when the ceiling is raised to the 90 degree position
- fold down storage position
- adjustable length legs with back locking casters
- transport handle
- 15.5 power cord with hospital grade plug

Overall dimensions of the unit:

- width: 47.25 in.
- depth: 36
- height: 55.5 (adjustable up to 75.5)

Shipping weight is about 85 pounds.

Fluid gas exchange system - \$475

List: \$4,090. MedCon: VG. Grieshaber Air System, type 628.10 automated fluid-gas exchange (also called Model 2) . 110 V, 60 Hz.

Features:

- pressure adjustment dial
- LED window shows pressure in mm Hg
- power on/off switch and power and flow indicator lamps
- continuous and intermittent foot switches
- air supply connector

Overall dimensions of the unit:

- width: 9.25 in.
- depth: 11.5
- height: 5.75

Shipping weight is about 20 pounds.

Orthopedics rasp and chisel set - \$875

list: \$6,000. MedCon: G. About 30 instruments as shown in the 5 photographs.

Shipping weight is about 25 pounds.

Orthopedic drivers set - \$975

Shipping weight is about 30 pounds.

Orthopedic instrument set, hip sockets - \$1,675

List: \$6,700. MedCon: VG. hip socket cutting set. Consists of 11 instruments as shown, and clip on cutting heads.

Set comes in sterilization case.

Instruments have a hex drive on one end so that they may be driven by power cutting tools, such as Stryker power driver and others.

Shipping weight is about 30 pounds.

Orthopedic cement dispenser - \$750

List: \$3200. MedCon: VG. Stryker model 206 - 600 dual speed cement injector.

Shipping weight is about 15 pounds.

Orthopedic cement dispenser - \$750

List: \$3200. MedCon: VG. Zimmer model 5609-08 cement injector.

Shipping weight is about 15 pounds.

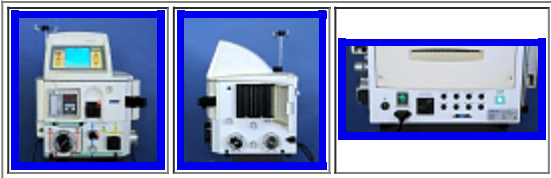

Plasma filtration machine - \$3,275

List: \$18,200. MedCon: VG. Kimal Plasmatic 2000 plasma filtration machine. 110-120 V, 50/60 Hz.

Features:

- system check upon startup
- TAL 121 volumetric pump with volume set arrows
- blood circulation diagram
- hour meter
- iv bag pole
- transport handle

Overall dimensions of the unit:

- width: 25.5 in.
- depth: 25
- height: 55

Shipping weight is about 180 pounds.

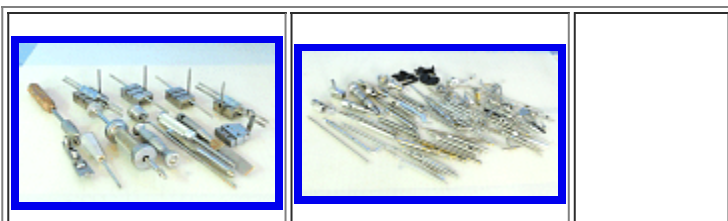

Orthopedic knee surgery Orthopedic surgical instrumentation instrumentation - \$1,275

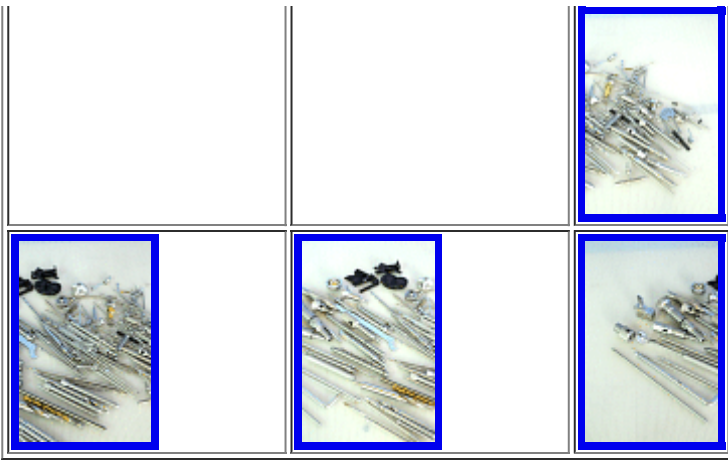

List: \$14,800. MedCon: G.

Various orthopedic surgical sets, including slide hammers, bone chisels, changing trimmers, tendon trimmers, implant guides, and other

items as shown.

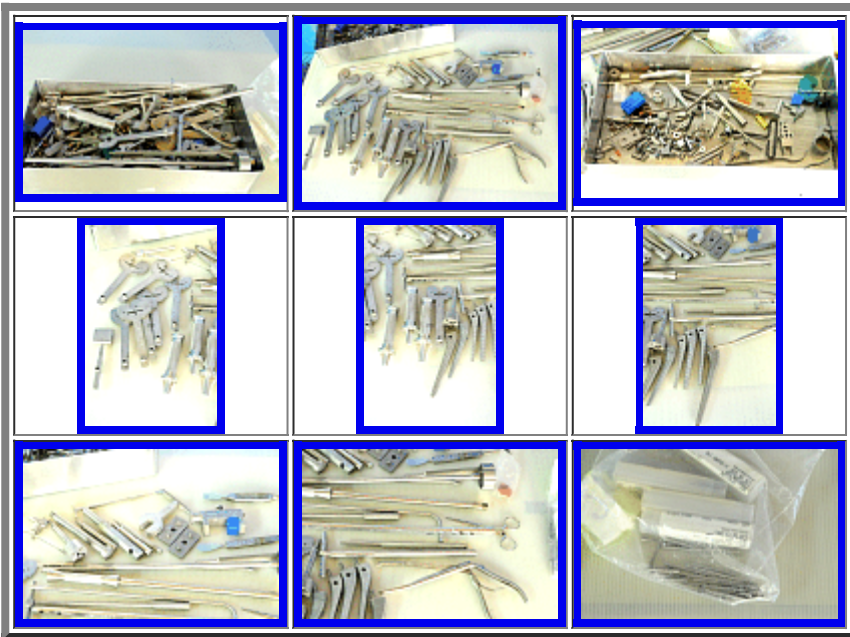

Shipping weight is about 40 pounds.

Orthopedic tool assortment - \$1,750

List: \$16,000. MedCon: G. Orthopedic tools assortment, as shown

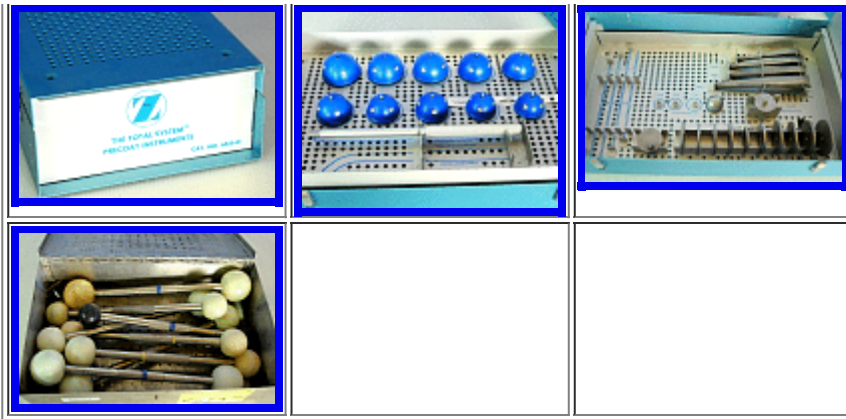

Shipping weight is about 55 pounds.

Total system universal and pre-coat instruments - \$1,975

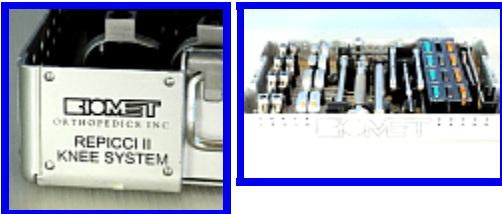

List: \$19,300. MedCon: G. Zimmer total system universal, sizing and pre coat instruments as shown.

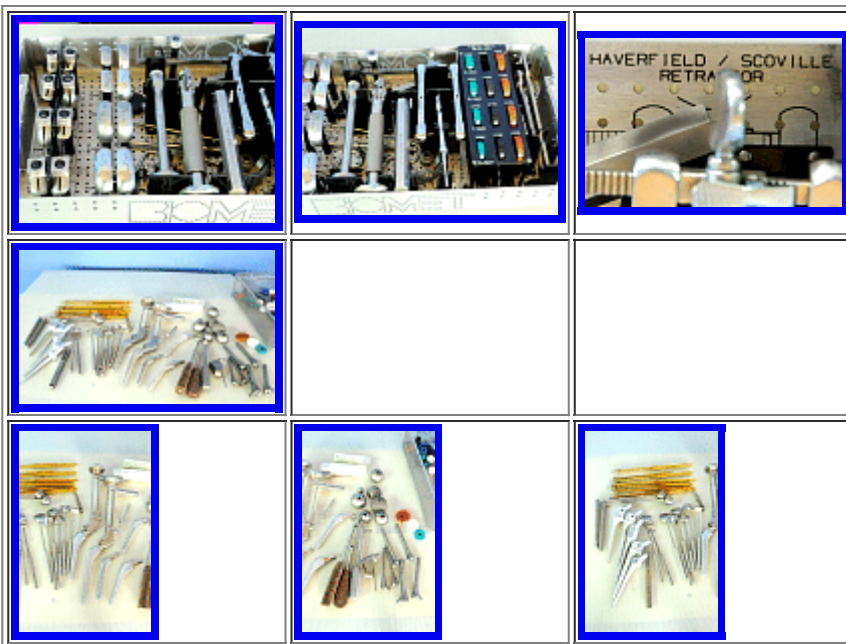

Shipping weight is about 75 pounds, three cases total.

replacement set - \$1,750

List: \$16,900. Biomet orthopedics Repicci II Knee System.

consists of instruments, tools and accessories as shown, including a haverfield Scoville retractor.

Shipping weight is about 50 pounds.

Irrigation pump - \$750 each

List: \$3,845. MedCon: VG. Xomed Endoscrub irrigation device.

Features:

forward and reverse modes

- power and prime buttons with a green indicator lamps
- iv pole clamp
- peristaltic pump and tubing diagram
- uses six size C batteries
- footswitch included

Overall dimensions of the unit:

- width: 4.75 in.
- depth: 9.5
- height: 8.5

Shipping weight is about 12 pounds. 2 units in stock.

Surgical microdebrider system - \$2,375

List: \$8,300. MedCon: VG. Stryker microdebrider system console, model 266-602-000. 120 V, 60 Hz.

Features:

- includes handpiece 266-601, 95030254 HF
- footswitch has forward and reverse mode pedals
- power on/off rocker switch and indicator lights for power, speed (25, 50, 75 and 100%), handpiece connected and footswitch connected

Overall dimensions of the unit:

- width: 9.75 in.
- depth: 8.75
- height: 6

Shipping weight is about 15 pounds.

Spraying device for surgical sealer - \$375

List: \$1,625. MedCon: VG. Baxter Tissomat spray applicator. To be used with TISSUCOL fibrin sealant spray set.

Features:

- tubing and gas tank connector included
- rubber covered activating switch for hand or foot control
- pressure gauge and pressure control dial
- connector for sterile filter

Overall dimensions of the unit:

- width: 10 in.
- depth: 13.25
- height: 15.5

Shipping weight is about 15 pounds.

Cardiac output monitor - \$475 each

List: \$7,300. MedCon: VG.

Cardiac output monitoring system, made by Lidco, UK. Model numbers CM 31.

Requires an external power supply, to fit connections as shown in photograph, not included.

2 units in stock. Shipping weight is about 20 pounds each.

Pacemaker programmer - \$1,275

List: \$29,500. MedCon: G. Ventak ECD 2815 pacemaker programming unit. Made by cardiac pacemakers, Inc., St. Paul Minnesota. Unit will need a 12 V, 2 A power supply, DC

Features:

- digital display of energy, joules
- pulse width, msec
- impedance, ohms
- peak voltage, volts
- time detection
- time, total
- heart rate, beats / min
- ahrymnia detection
- amplitude

System features a front panel where parameters are set, and a flow chart of operator interface.

Shipping weight is about 35 pounds.

Needle placement monitor - \$4,750

List: \$82,900. MedCon: VG. Ultra guide 1000 needle guide device. 120 V, 50-60 Hz. For injection guidance and image enhancement of interventional ultrasound.

May also be used for free hand guidance in obstetric and OBGYN procedures.

Features:

- compatible with all FDA cleared ultrasound equipment or those with European CE mark
- can be used with 14 - 24 gauge aspiration and core biopsy needles and all gauges of ablation needles
- software version 3.10
- lock-on target capability
- overlay toggle on/off
- 2D/3D toggle on/off
- computer with floppy drive
- user manual included

	computer with floppy drive		study data bank
	I/O panel on back		user manual front page
	patient data entry for new study		user manual table of contents
	ultrasound model and needle configuration		user manual table of contents
	transducer calibration		description of display functions

Overall dimensions of the unit:

- width: 20 in.
- depth: 15
- operational height: adjustable to 65 in. (folds for storage)

Shipping weight is about 255 pounds.

Pacemaker programmer - \$975

List: \$6,800. MedCon: VG. Pacemaker APS 3250 programmer. Used to program specific models of heart pacemakers.

Features:

- hand-held programming device with 4 in. diagonal LCD screen and function keys
- context sensitive help screens
- batch and emergency programming
- rapid return to standard parameters
- real time printing of intra cardiac electro grams and event markers
- printer uses 4.5 in. paper rolls, is wired for 100-240 V, 50/60 Hz and communicates via cable or wireless IR signals

sample pages from Programming Guide

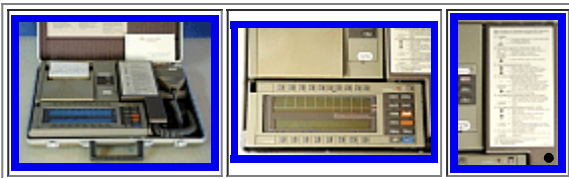

Overall dimensions of the case:

- width: 18 in.
- depth: 14.5
- height: 4.5

Shipping weight is about 15 pounds.

Pulse generator programming system - \$975

List: \$8,200. MedCon: VG. CPI model 2036 programming system.

Features:

consists of model 2038 programmer, model 2049 programming head and RF cable, and model 2047 printer

- checks and programs pacemaker functions (rate, PW, AV delay)
- push button controls
- LCD data windows
- battery power, three 9V alkaline
- operator's manual included

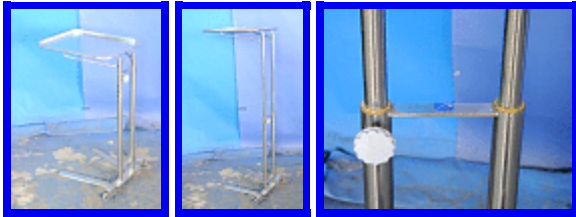

sample pages from the operator's manual

Overall dimensions of the unit:

- width: 18 in.
- depth: 14
- height: 2.5

Shipping weight is about 15 pounds.

Surgical instrument stand - \$375 each

List:\$800. MedCon: ex. Stainless steel surgical instrument stand, made by Pedigo. Adjusts from about 36 inches high on up to about 55 inches high.

On castors.

Shipping weight is about 65 pounds each. Four units in stock.

Surgical kick bucket - \$275 each

List: \$550 each. MedCon: VG. Surgical waste bucket and rolling stand.

Stainless steel bucket is 12 in. diameter and sits in a 16 in diameter stand on four wheels .

Shipping weight is about 20 pounds. 17 units in stock.

Isolation / aerosol treatment chamber - \$3,750

List: \$6,875. MedCon: VG. Emerson 7-AT treatment chamber. 110 V, 60 Hz. 150 W. This is a negative pressure patient isolation system with HEPA filtration for the administration of aerosolized medications and diagnostic sputum collection.

May also be used to isolate a patient with infectious diseases when aerosol transmission is a concern.

Features:

- patient seat with 22 x 17 x 3 in. pad
- 18.5 in. access door
- observation windows on three sides
- chamber is movable by tilting onto side wheels
- gas port
- filter compartments
- power on/off rocker switch with red indicator lamp

Overall dimensions of the unit:

- width: 46 in.
- depth: 25.5
- height: 72.5

Shipping weight is about 190 pounds.

Air purification system - \$1,100

List: \$3,600. MedCon: VG. Biological Controls Microcon MAP-800MUV portable air purifying system. 115 V, 60 Hz.

Features:

- rolling unit with surround bumper, 2 locking casters and two recessed transport handles
- 360° intake and exhaust; low noise performance
- dial for evac, high, medium, low and off; delivers 250-725 CFM
- magnehelic gauge
- HEPA filter rated at 99.97% efficiency on 0.3 micron particles
- changeable pre filter
- uses 4 ea. 24W uv germicidal lamps; hour meter

Overall dimensions of the unit:

- width: 20.5 in.
- depth: 20.5
- height: 46

Shipping weight is about 80 pounds.

Ultrasonic surgical aspirator - \$1,475

List: \$26,475. MedCon: VG. Cavitron CUSA system. 120 V, 50/60 Hz.

Features:

- easy-to-move rolling unit with transport handle
- suction and handpiece ports
- peristaltic irrigation pump with adjustable rate and flush function
- adjustable suction dial with bar graph
- handpiece amplitude dial and bar graph; hi and low modes and five Cavi-pulse settings
- fault indicator lamps
- footswitch has flush/irrigate and vibrate pedals
- on/off rocker switch
- iv pole
- setup instruction card

Overall dimensions of the unit:

- width: 22 in.
- depth: 26

- height: 54.5 (76 with pole)

Shipping weight is about 200 pounds.

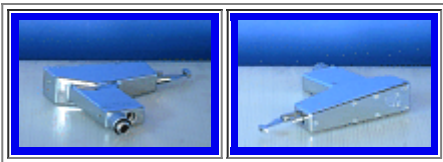

Electric Surgical power unit - \$975 each

List: \$2,955. MedCon: VG. Stryker No. 2010 electrosurgical unit (115 V) with No. 1307 variable speed explosion proof footswitch(115-230 V). Motor has a 12 foot cord connecting to the footswitch. The footswitch has a 15 foot hospital grade cord and plug.

Shipping weight is about 20 pounds. 2 units in stock.

Sternal saw - \$1,375

List: \$5,300. MedCon: VG. Sarns sternal saw, part no. 6090. To be used with 115 or 230 V motor, flexible drive shaft, and foot control.

Overall dimensions of the unit:

- width: 1.5 in.
- depth: 7.5
- height: 5

Shipping weight is about 3 pounds.

Esophageal Doppler monitor - \$1,750

List: \$8,300. MedCon: VG. Deltex esophageal Doppler monitor, model 9041-6907. 90-250 V, 50/60 Hz. Uses esophageal probe to detect blood flow characteristics from the heart, descending aorta or azygos vein.

Features:

- EDM probe interconnect cable and EDM probe, catalog no. EP-90
- six in. diagonal screen for display of flow times, peak velocity etc.
- touch screen controls
 - run/freeze
 - nomogram
 - probe focus
 - trends
 - setup
 - print
 - calculations
 - alarm on/off
 - event marker
- adjustable screen brightness
- printer and RS 232 connectors
- power on/off rocker switch on back of console

- quick instructions card

Overall dimensions of the console:

- width: 14.5 in.
- depth: 18.5
- height: 7.25

Overall dimensions of the unit on stand:

- base of stand : 27 x 27 in.
- height: 48.5

Shipping weight is about 50 pounds.

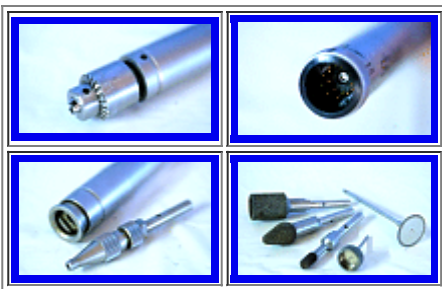

Dermabrader hand pieces, burrs and cutting disk - \$1,475

List: \$9,000. MedCon: VG. Stryker Command 2 dermabrader handpiece's and accessories.

The set consists of:

- 1 EA, Stryker Command2 dermabrader handpiece, Cap. Jacobs head (0-5/32 in., 0-4 mm) with chuck
- 1 EA, Stryker Command2 dermabrader handpiece, with smaller diameter head, as shown in photograph
- 11 EA, assorted dermabrader burrs
- 1 EA, cutting disk
- 2 EA, dermabrader guards, different lengths

detail photographs of the dermabrader set

Shipping weight is about 10 pounds.

Pneumatic tourniquet - \$975

List: \$6,200. MedCon: VG. Electromedics tourniquet, model TCPM II. 120/240 V, 50/60 Hz.

Features:

status bar indicates low battery, cuff, alarm and mute

- power on/battery charging orange indicator lamp on back of unit
- 120 DC auxiliary input
- pneumatic cable to connect to cuff included

Overall dimensions of the unit:

- width: 10 in.
- depth: 11
- height: 8.5

Shipping weight is about 20 pounds.

Surgical helmets - \$275 each

List: 41,400. MedCon: G. T4 helmets for Stryker personal protection system, three model 400-600 and one model 400-200. The helmet contains a variable speed cooling fan and is to be used with Stryker power pack and other consumables of the personal protection system.

Shipping weight is about 20 pounds.

Germicidal exchange device - \$475

List: \$2,500. MedCon: VG. Baxter UV-Flash germicidal exchange device, model 5C4336 with CAPD battery pak, model 5C4337 and CAPD power adapter, model 5C4338, 110/120 V. Battery pack has on/off/test toggle switch. UV-Flash unit has ready and error indicator lights.

For flash sterilization of fluids in tubing.

Overall dimensions of the germicidal chamber:

- width: 6.5 in.
- depth: 8
- height: 4.5

Shipping weight is about 15 pounds. 2 units in stock.

Cryosurgical system - \$1,275

List: \$4,350. MedCon: VG. Frigitrionics CT-73 cryosurgical system.

Features:

- rolling cart with transport handle
- holds two gas canisters, gas tank connectors included
- two probes included, nos. 2207 and 2210
- analog temperature gauge; degrees centigrade/degrees Fahrenheit
- analog pressure gauge reads to 1000 psi

Overall dimensions of the unit:

- width: 15 in.
- depth: 15
- height: 43.5

Shipping weight is about 30 pounds.

Lesion generator - \$2,750 each

List: 15,800. MedCon: VG. Radionics model RFG-5 radio frequency lesion generator system. 105-125 V, 60 Hz.

Features:

- 5 position function selector dial with color-coded indicator lamps for active function
- analog gauges for impedance (dual scale), electrode current (dual scale) and tip temperature (degrees C)
- connectors for electrodes
- impedance adjust knob
- dial in Volts and rate for stimulation function
- adjustable audio
- power on/off toggle switch with green indicator lamp

Overall dimensions of the unit:

- width: 16 in.
- depth: 10
- height: 11

Shipping weight is about 40 pounds. 2 units in stock.

HeartMate power unit and accessories - \$475 the lot

List: \$5,900. MedCon: G. Lot of HeartMate power base unit (battery charger) and accessories.

The lot consists of:

- 1 HeartMate/Thoratec power base unit, catalog no. 1240. 120 V, 50/60 Hz., includes 16-pin patient cable, catalog no. 1225
- 8 HeartMate/Thoratec batteries, 2005-2009 dates
- 5 HeartMate battery clips, catalog no. 1237
- 2 HeartMate system controllers, catalog no. 1275
- 1 HeartMate emergency power pack with cable, expiration date 06/2003
- 1 HeartMate VE emergency power pack cable

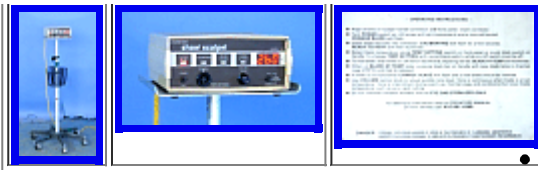

Does NOT include display shown in photo

Shipping weight is about 45 pounds.

Harmonic scalpel - \$1,375

List: \$12,900. MedCon: VG. Oximetrix Shaw model 150 scalpel. 115

V, 50-60 Hz. Blade and connecting cable not included.

Features:

- rolling stand with twin storage baskets has 23.5 x 23.5 in. footprint and is adjustable in height from 43-53 in.
- temperature increase/decrease switch with result to 260 degrees C shown in LED window
- LED indicator bars for change blade, calibrating, ready to heat and blade at temp
- scalpel connector on front of instrument
- adjustable audio volume
- plug guard for power cord

Overall dimensions of the console:

- width: 8.75 in.
- depth: 10.5
- height: 4

Also available, unit without stand

Shipping weight is about 20 pounds without stand and 55 with.

Transfer pump - \$475

List: \$2,200. MedCon: VG. ACMI G2151 CFR transfer pump. 115 V, 60 Hz.

Features:

- variable speed control
- power on rocker switch with yellow indicator light
- bracket for bottle
- carrying handle

Overall dimensions of the unit:

- width: 16 in.
- depth: 8.5
- height: 6

Shipping weight is about 20 pounds.

Vascular diagnostic system - \$1,750

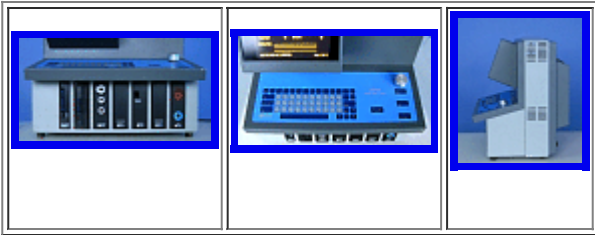

List: \$7,800. MedCon: VG. Imex Mentor modular diagnostic system. 120 V, 60 Hz.

Features:

- modules included are software, floppy disk drive, pressure, Doppler, PPG and two expansion

modules

- cables included are shown in the photograph
- alphanumeric keyboard, page dial for navigation and on-screen help
- adjustable brightness control
- footswitch connector
- printer port
- 9-pin auxiliary
- probe storage bin

screen shots showing tests available and patient history intake

Overall dimensions of the unit:

- width: 16.75 in.
- depth: 14.25
- height: 17.25

Shipping weight is about 40 pounds.

Pressure guided wire system - \$1,275

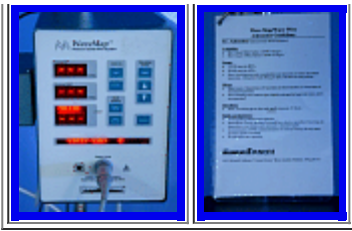

List: \$6,270. MedCon: VG. Wavemap pressure guided wire system, made by Cardio metrics.

Features:

- digital map pressure display
- proximal map pressure display
- ratio display
- calibrate functions
- mode control
- wave map set up

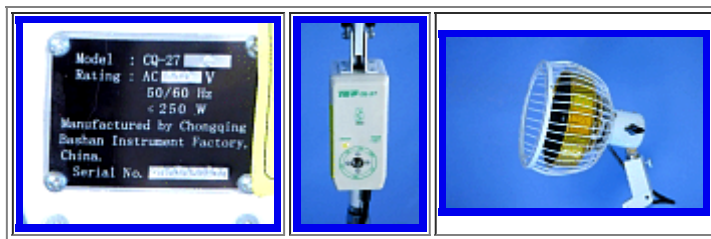

Shipping weight is about 30 pounds without IV pole.

Infrared IR heating unit - \$675 each

List: \$1400. MedCon: VG. Infrared heating units, on IV pole. With timer.

Missing knob in the photo, knobs will be replaced before shipping.

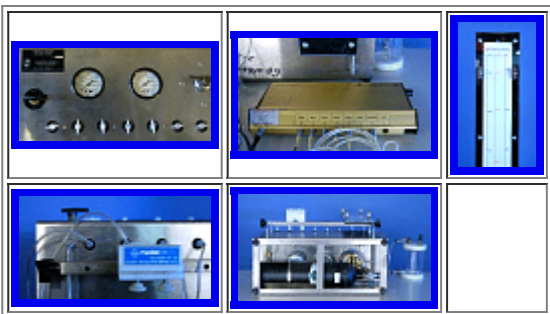

3 units in stock.

Gastrointestinal monitoring system - \$975

List: \$8,700. MedCon: G.

Hydraulic capillary infusion system by Arndorfer Medical Specialties with Synectics Medical PC polygraph HR.

Overall dimensions of the unit:

- width: 20 in.
- depth: 9
- height: 32

Shipping weight is about 55 pounds.

Uropump - \$975

List: \$5,600. MedCon: VG. Life-Tech model 1711 uropump. 115/230 V, 50/60 Hz.

Features:

- easy thread peristaltic pump with pressure plate that eases in with tightening knob
- LED windows show flow rate and volume
- touchpad arrows to set flow rate
- indicator lamps for power on, fault, start, stop, local, remote, record and reset
- back of pump has on/off power switch and I/O for bladder pressure transducer, urolab and urocomp

Overall dimensions of the unit:

- width: 8.5 in.
- depth: 13.25
- height: 7.5

Shipping weight is about 20 pounds.

Blood pump - \$750

List: \$5,300. MedCon: VG. Sarns S10K II blood pump, 95-125 V, 50/60 Hz.

Features:

- variable flow dial
- digital display of flow rate (ml/min) or rpm
- roller pump accepts 1/8, 3/16, 1/4, 5/16, and 3/8 in. I.D. tubing
- directions for use printed on top of instrument

Overall dimensions of the unit:

- width: 10.25 in.
- depth: 11.75
- height: 7

Shipping weight is about 20 pounds.

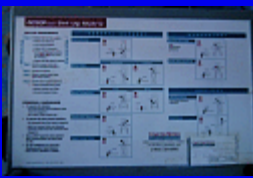

Surgical robot, AESOP, voice activated - \$1,500

List: \$75,000. MedCon: VG. Aesop model 2000 surgical robot, made by Computer motion medical robotics company. Also called an automated endoscopic system for optimal positioning robotic system (AESOP). This system is used by physicians position in endoscope. Foot pedals position a camera leaving hands-free for patient operation.

System works by voice activated commands.

Applications of surgical robots include cardiac surgery, gastrointestinal surgery, gynecology, neuro surgery, orthopedics, pediatrics, stereotactic interventions, and urology.

close-up views of robotic arm		
views of hand control and controller box		
some accessories		
excerpts from user manual		
		
		
set up card		

Shipping weight is about 275 pounds.

Portable smoke evacuator - \$975

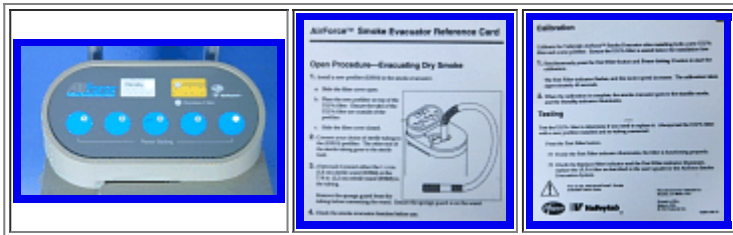

List: \$4300. MedCon: ex. Valley lab model Air Force laser and surgical procedure smoke evacuator.

**Features:**

- on castors, with handle
- replaceable air filter, not included
- adjustable power selection
- filter test switch
- replace filter indicator light
- typical Valley lab over engineering
- footswitch

Dimensions:

- width: 11 inches
- depth: 18 inches
- height: 35 inches

Shipping weight is about 80 pounds each. Six units in stock.

Rapid infusion system RIS - \$3,750

List: \$14,210. MedCon: EX. Haemonetics RIS rapid infusion system. provides massive normothermic patient blood replacement. Uses disposable items (reservoir, heat exchanger, temperature probe, tubing, filter and pressure chamber) to infuse blood at correct temperature back into patient. these units have been used to treat large mass of blood losses associated with the operative repair of torn sinuses, head injuries, diabetes insipidus, aortic hemorrhages and aneurysms.

Features:

- Digital display of total volume infused milliliters
- digital display of infuse eighth pressure, millimeters HG
- digital display of infused eighth temperature, degrees C. or degrees Fahrenheit
- digital display of infuse eighth flow rate, adjustable
- on/off/load/prime selection buttons
- fluid challenge of 500 or 100 mL
- entire unit on castors, self contained
- unit displays total volume infused, from 1 mL on up to a maximum of 999 L
- wired for 100-120 VAC, 50/60 Hz, so may be adapted for international use
- transport handle
- locking castors
- cord wrap
- IV pole
- quick setup card

Dimensions:

- width: 20 inches
- depth: 22 inches
- height: 63 inches

Shipping weight is about 200 pounds each. 3 units in stock.

Lithotripter power source - \$950

List: \$7,200. MedCon: VG. Storz electro hydraulic lithotripter, model 27087P. 115 V 50-60 Hz.

Features:

- connectors for 9 and 5 FR electrodes
- soft/hard stone composition options
- drive level gauge reads 0.0-1.0 mA and responds to output control knob
- instant/continuous modes
- duration knob adjusts from 0.1-0.5 sec
- connector for foot switch
- on/off switch with red indicator lamp
- side carrying handles

Overall dimensions of the unit:

- width: 12.5 in.
- depth: 11.25
- height: 6.75

Shipping weight is about 20 pounds.

Minimally invasive surgery system - \$4,750

List: \$115,000. MedCon: G. Neuro Navigational Neuroview 100. 115 V, 60 Hz. Unit is operational but keyboard needs to be serviced as keys get stuck in depressed positions.

Used for minimally invasive spine surgery. It may also be used in an image guided surgery, on which a patient's ct or MRI images have been loaded, so that progress of the endoscope path, or surgery path,

may be observed against the image in real time.

Features:

- peristaltic irrigation pump mounted on front of instrument
- control panel with touch pad buttons and arrows for pump, VCR and lamp functions
- digital display of flow and volume and bar graph of light intensity
- foot switch with maintenance and bolus pedals
- remote control with 14.5 foot cable for lamp intensity and VCR
- rolling cart with transport handles, iv pole and 2 locking casters
- cart has holders for monitor and VCR, but these components are not supplied
- software disks labeled bootable application program and self-installing bootable application program
- Neuroview endoscopes are commercially available <http://www.integra-ls.com/products/?product=99>
- unit manufactured in 1993

	front view		control panel
	keyboard		remote control
	manufacturer's plate		software disks

Overall dimensions of the unit:

- width: 23.75 in.
- depth: 29
- height: 48.5

Shipping weight is about 250 pounds.

Cryosurgery unit - \$7,500

List: \$85,000. MedCon: VG. Cryomedical Sciences CMS AccuProbe System. 220 V. This unit performs cryo surgical ablation procedures, for example for the prostate.

Features:

- five probe ports connect to liquid nitrogen cooling system
- alphanumeric keypad; control panel has touch pad buttons and temperature set arrows
- digital display of slush temperature and supply pressure and set and probe temperatures in each channel
- 3.5 in. floppy disk drive
- system alarms for vacuum interlock, overfill, channel error and supply level
- rolling unit is easy to transport and position despite its size
- supplies include Hevi-Duty type HS transformer, metal and plastic tubing and some packaged probes (outdated) that could be used in testing the instrument

	keyboard, track ball and disk drive
	control panel
	side view
	back view
	liquid nitrogen ports
	manufacturer's plate
	supplies

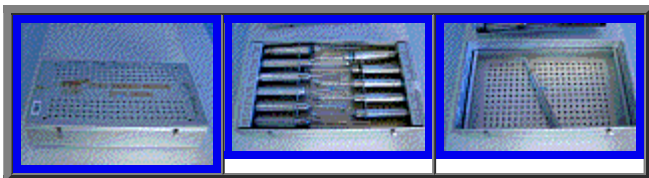

Overall dimensions of the unit:

- width: 31.5 in.
- depth: 60.5
- height: 51

Shipping weight is about 850 pounds.

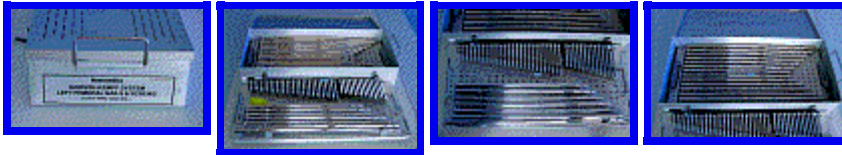

Spinal surgical instrument set - \$1,475

List: \$4,900. MedCon: ex. Universal spinal system, made by Stuart surgical systems. Also called a Cottrell/Duboussett Universal spinal system.

Shipping weight for the set is about 30 pounds.

Left femoral nails and screws - \$1,475

List: \$9,300. MedCon EX.

Howmedica, a division of Pfizer, left femoral nails and screws sets, 12 mm through 16 mm diameter.

Shipping weight for the entire set is about 35 pounds.

Surgical instrument set, tibial instrumentation - \$1,475

List: \$5,622. MedCon EX. Tibial instrumentation set, Grosse - Kempf system. set manufactured by Howmedica medical systems.

Shipping weight is about 25 pounds.

Suturing set - \$750

List: \$4300. MedCon EX. Set consists of suturing instruments and case, as shown in photograph.

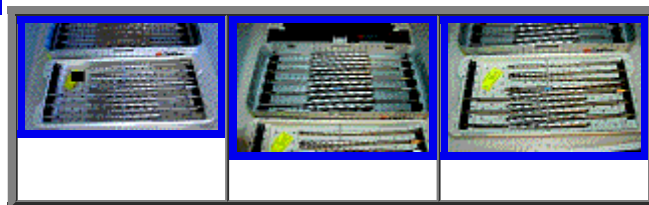

Shipping weight is about 25 pounds.

Orthopedic surgical instrument set - \$1,475 each

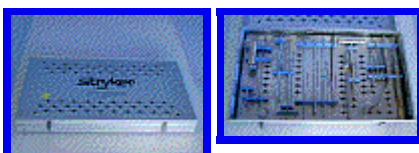

List: \$9,300. MedCon: ex. tip you set of surgical instruments.

Femoral reamers, for inserting of hips. Set consists of two trays as shown

Shipping weight is about 40 pounds per set. Two sets in stock.

Isometric drill guide surgical set - \$1,475

List: \$7,300. MedCon: ex. Stryker isometric drill guide surgical set, in sterilization case as shown.

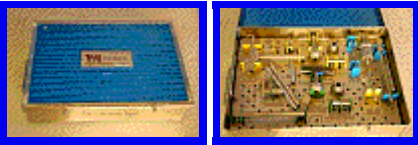

Consists of:

- capstan rod
- passer

- bone strain gauge
- router head grasper
- router handle
- router head
- ejector pin
- cannulated reamer
- reamer
- guide arm and payment
- guide frame handle
- guide knob
- knurled screw
- some other handles

Shipping weight is about 25 pounds.

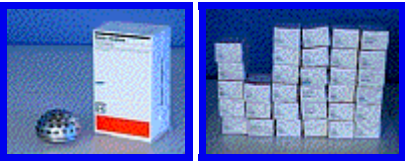

Orthopedic bone screw surgical instrument set - \$1,275

List: \$6,700. MedCon: he ex. Tapco medical Corporation. Comes as shown, includes tibial guide, pin impactor, manual handle, can you laded cylinder, Tommy bar, bone plug releaser, owned plug pusher, perforated cylinder, Chuck, two manual handles, guide bar, threading attachment.

Shipping weight is about 25 pounds.

Surgical reamers, Smith nephew - \$3,000 the lot

List: \$34,552. MedCon: N. Acetabular reamer dome.
New in the box Smith and nephew surgical reamers.

This consists of 32 units, with quantities and sizes as follows:

5 units, 52 mm outside diameter, acetabular reamer dome	
3 units, 53 mm outside diameter, acetabular reamer dome	
6 units, 54 mm outside diameter, acetabular reamer dome	
6 units, 55 mm outside diameter, acetabular reamer dome	

6 units, 57 mm outside diameter, acetabular reamer dome

6 units, 58 mm outside diameter, acetabular reamer dome

Shipping weight is about 15 pounds.

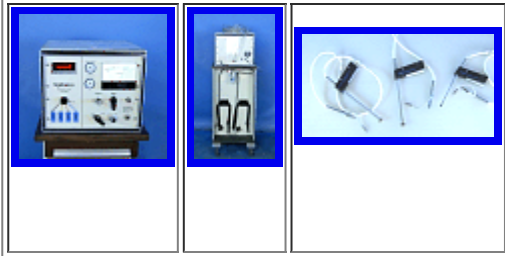

Cryosurgical system - \$1,375

List: \$9,200. MedCon: VG. Frigitrionics cardiac cryosurgical system, model CCS 100. 110 V, 60 Hz.

Features:

- on cart with 2 locking casters, supply drawer and gas tank holders (e cylinders)
- 3 probes included -- two #2208 and one #2207
- Matheson gas purification cartridge, model 450
- operates on nitrous oxide
- temperatures of + 10 to -60 degrees C can be achieved by fluid flow control
- hose for scavenging N2O gas to outdoors
- schematic drawings and operation and service manual included

Overall dimensions of the unit:

- width: 17in.
- depth: 18
- height: 14.25

Overall dimensions of the cart:

- width: 19.5 in.
- depth: 24
- height: 39.5

Shipping weight is about 120 pounds.

Medical grade air compressor - \$6,750

List: \$16,825. MedCon: VG. Ohmeda medical engineering, medical grade air compressor, special design allows

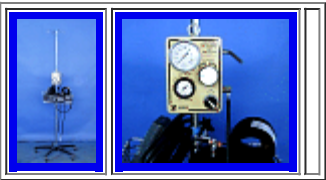

compression of air, and filtration, without putting oil into the air so it may be used for breathing circuits. Model Medplus.

Features:

- built in air filtration
- includes couplings and valves as shown
- dual motor
- approximately 80 gallon receiver tank, horizontal mount
- provides enough air to feed approximately 25 stations
- dual 1 hp compressors, 2 hp total
- includes two built in compressed air dryers,
- rated for approximately 20 CFM total
- wired for 230/460 V AC, 60 Hz

Shipping weight is about 900 pounds.

Tourniquet system - \$475

List: \$3,200. MedCon: VG. Zimmer Inflatomatic 3000 pneumatic tourniquet regulator, model 60-1995-001.

Features:

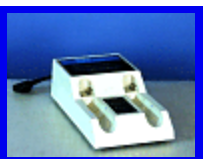

- on stand (adjustable pole height of 57-91 in.) with hooks for 4 iv bags and supply basket
- operates off of hospital nitrogen line or canister
- does not include cuffs or hose

Overall dimensions of the unit:

- width: 5 in.
- depth: 6.75
- height: 9

Shipping weight is about 45 pounds (20 pounds without stand and basket). 2 units in stock

System 2000 battery charger - \$975 each

List: \$3,900. MedCon: VG. Stryker Instruments System 2000 battery charger. 120 V, 50/60 Hz. This is for the Stryker System 2000 cordless surgical drill.

Features:

- 2 charging ports for 2115 batteries
- auxiliary AC outlet allows 4 consecutive chargers to be linked
- operating instructions on label

Overall dimensions of the unit:

- width: 6.25 in.
- depth: 13.5
- height: 3.75

Shipping weight is about 20 pounds. 2 units in stock.

Cardiac output monitor - \$3,250 each

List: \$14,275. MedCon: VG. Abbott Critical Care Systems QVue continuous cardiac output computer. usually used to mark monitor complete cardiac functions during open heart and bypass surgery, also during catheterization, and balloon ablation procedures. .100-120/200-240 V, 50/60 Hz.

Features:

- touch pad set-up of programs, alarms, time scale, etc. and entry of patient weight
- CRT monitor gives digital display of CO, CI, PA Temp (core body) and waveform of choice
- printer connector for Oximetrix 3
- cardiac cable connects to Abbott Opti-Q catheter
- 3 RS 232 ports labeled remote A (SvO2), remote B (SaO2), and I/O
- measures the following hemodynamic parameters and calculated values
 - HR
 - CO
 - CVP
 - MPAP
 - PCMP
 - MAP
 - BSA
 - SV
 - CI
 - PVR
 - RSVM
 - SVR
 - LVSMI

instruction cards

Overall dimensions of the unit:

- width: 13 in.
- depth: 15
- height: 6.5

Shipping weight is about 35 pounds. 2 units in stock

Cardiac output/SO2 monitor - \$3,275

List: \$16,700. MedCon: VG. Abbott Critical Care Systems Q2 continuous cardiac output computer. 90-120, 200-240 V, 50/60 Hz.

Features

- touch pad set-up of programs, alarms, time scale, etc. and entry of patient weight
- CRT monitor gives digital display of CO, SO2, PA Temp (core body) and waveform of choice
- printer connector for Oximetrix 3
- cardiac cable connects to Abbott Opti-Q catheter
- 3 RS 232 ports labeled remote A, remote B, and I/O
- SO2 CAL update key
- measures the following hemodynamic parameters and calculated values
 - HR
 - CO
 - CVP
 - MPAP
 - PCMP
 - MAP
 - BSA
 - SV
 - CI
 - PVR
 - RSVM
 - SVR
 - LVSMI

sample screens showing programs and parameters

instruction cards

Overall dimensions of the unit:

- width: 13 in.
- depth: 15
- height: 6.5

Shipping weight is about 35 pounds.

Smoke evacuator - \$975

List: \$4,520. MedCon: VG. Surgimedics Surgifresh multistage air enhancement system, 115, 60 Hz.

Features:

- varying degrees of air uptake controlled by 10-position touch pad
- rolling cart has two supply drawers and locking wheels
- owner's manual and footswitch included

Overall dimensions of the unit:

- width: 21.5 in.
- depth: 19
- height: 45.5

Shipping weight is about 200 pounds.

Low pressure irrigation system - \$975 each

List: \$7,200. MedCon: VG. Zimmer/Snyder Labs low pressure irrigation system. 120 V, 50/60 Hz.

Features:

- fluid pump and vacuum jar chambers
- connectors for fluid and suction transducers
- digital display windows for irrigation and suction pressure
- continuously adjustable dials for setting irrigation and suction pressures
- bubble detector
- alarm indicators for transducer malfunction, high pressure and air in line
- IV pole with 3 hooks

Overall dimensions of the unit:

- width: 16 in.
- depth: 16
- height: 64

Shipping weight is about 70 pounds. 3 units in stock.

RF catheter ablation system - \$9,000

List: \$72,827. MedCon: EX. Cardiac pathways/Boston scientific model 8004 RF generator and cooled ablation pump system. Also called a Chilli system. Performs radio frequency RF catheter ablation, a non surgical treatment for cardiac arrhythmia's and symptomatic tachycardias.

Units may be found in a cardiac electrophysiology (EP) lab.

Features:

- for use with cardiac pathways cooled electrode catheters
- 50 W power

- delivers sterile fluid to catheter ablation electrode for cooling
- does not include disposable packaged sterile catheter Kv
- may be used with either a cooled or a linear ablation catheter
- wired for 110/220 VAC, 60/50 Hz
- includes operators manual

operator and control screen		
catheter and RF connections		
catheter injector		
catheter interface boxes		
back of unit		

This device is indicated for cardiac electrophysiological mapping, delivering diagnostic pacing stimuli, and radio frequency ablation of mappable ventricular tachycardias attributable to ischemic heart disease or cardiomyopathy in patients who have failed drug therapy.

As the manufacturer knows more about it than we do:

http://www.bostonscientific.com/templatedata/imports/collateral/Electrophysiology/spec_Chilli_02.us.pdf

Shipping weight is approximately 200 pounds.

Surgical aspirator - \$825

List: \$3,220. MedCon. G. Grams Medical SAL aspirator. 120 V, 60 Hz. On wheels, with foot pedal.

Overall dimensions of the unit:

- width: 12 in.
- depth: 18.5
- height: 29

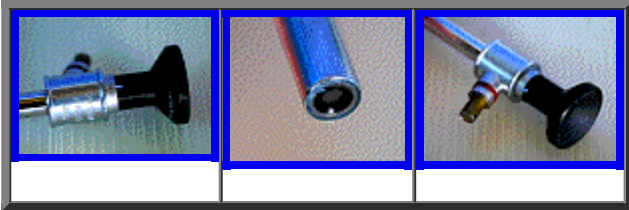

Shipping weight is about 55 pounds.

Laproscope - \$875

List: \$4125. MedCon: EX.

Wolf laproscope, with 180° field of view, model 8934 .40.

Shipping weight is about 10 pounds.

Warmer/stirrer for surgical sealant - \$375 each

List: \$1,640. MedCon: VG. Baxter Fibrinotherm device. 110 V, 60 Hz. Provides recommended heating and stirring conditions for reconstitution of fibrin-based surgical sealant (eg, TISSEEL, Hemaseel).

Overall dimensions of the unit:

- width: 8.5 in.
- depth: 9
- height: 3

Shipping weight is about 10 pounds.

2 units in stock, the second of which is branded Haemacure Hemamix.

Smoke evacuation cart - \$975

List: \$4,325. MedCon: VG. smoke evacuation cart, used to filter smoke from air produced by laser surgical procedures. Geraci/ Miller smoke evacuation and filtration system, made by Lase Inc., system SE-11111-a.

Features:

- system is built into a standard crash cart
- has three drawers as shown
- with minor accessories and spare filters
- two gas bottle holders
- pullout compartment for cartridge replacement
- on off switch
- adjustable fan speed control

Shipping weight is about 155 pounds.

Smoke evacuation / filter system - \$475

List: \$2,825. MedCon: G. Canister type smoke evacuation and laser filters system. Filters smoke into a canister produced by laser surgical procedures. Surgimedics model 906001.

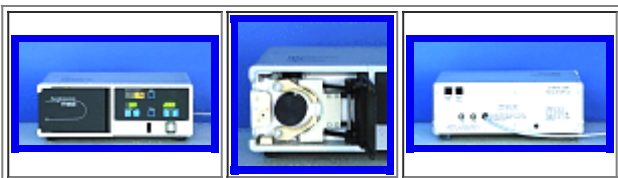

Features:

- adjustable fan speed, 1-10
- built in canister test
- connection for exhaust tubing, so unit may be vented outside if desired
- self contained fan/blower

Shipping weight is about 55 pounds.

Angio pump - \$1,475

List: \$6,325. MedCon: VG. Olympus corp. model AP-1 angio pump. 115 V, 50/60 Hz. Infusion rates can be set in increments of 10 ml/min in low (10-200) or high (200-400) digital windows. Top window displays total volume infused. Fault indicator displays if door is not securely closed to activate pressure plates against tubing.

Unit includes footswitch, not shown in photos, which has separate pedals for low and high flow.

Overall dimensions of the unit:

- width: 16 in.
- depth: 10
- height: 6.5

Shipping weight is about 50 pounds.

Laparoscopic irrigation pump - \$925

List: \$4,700. MedCon: VG. Davol StreamLine irrigation pump (also called a Nezat-Dorsey Hydro-Dissection pump).

Features:

- Dual chambers for 1 or 3 liter irrigation bags
- on/off switches to select supply source
- adjustable pressure
- gauges for inlet and irrigation (to 1000 mm Hg) pressures
- clamps to iv pole or pump stand.

	chamber for irrigation bags
	view showing pole connector
	manufacturer's plate
	instruction card

Overall dimensions of the unit:

- width: 16 in.
- depth: 12
- height: 18.5

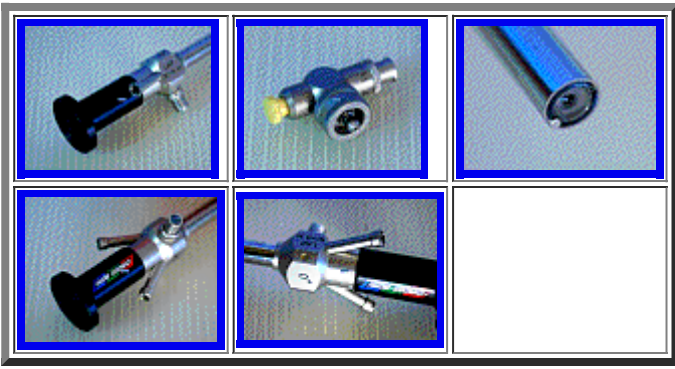

Shipping weight is about 60 pounds.

Laparoscope - \$875

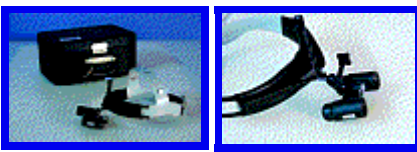

List: \$3,900. MedCon EX. 0° operating laparoscope, with dual ports, made by Circon ACMI. model Lap 10-0 h.

In overall excellent condition, includes dual port pressure suction adapters, and integral fiber optic light guide.

Shipping weight is about 10 pounds.

Surgeons tel-binocular headset - \$750

List: \$1,550. MedCon: EX. Zeiss surgeons binocular telescopes. Unit acts as a high-powered magnifying glass, with a focal length of approximately 20-24 inches. In this way, a surgeon can do delicate work while standing at a normal distance.

In shipping case, as shown.

Shipping weight is about 15 pounds.

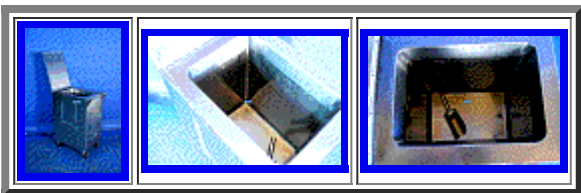

Surgical ice chip cart - \$275

List: \$800. MedCon: Ex. stainless steel cart, for holding ice chips.

Used to cool down origins and patience during surgery, organ donation, limb re-attachment and other procedures.

Holds about 50 pounds of ice chips. On wheels, with drain. About 3 feet high overall.

Shipping weight is about 125 pounds.

Ultrasonic lithotripter - \$975

List: \$6,175. MedCon: VG. Wolf model 2167 .05 ultrasonic lithotripter.

Solid state of ultrasonic lithotripter generator, without probe but with footswitch.

Shipping weight is about 20 pounds.

Bovie ultrasonic aspirator / irrigator / suction unit - \$1,275

List: \$15,330. MedCon: VG. Bovie ultrasonic aspirator with Bovie suction module. Made by SB medical company, Japan.

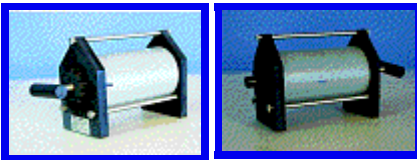

Features:

- adjustable ultrasonic amplitude control
- self-contained irrigation, adjustable drip rate
- collapsible IV pole holder
- wired for 110 Vac, 50/60 hertz
- on castors
- with foot switch

Shipping weight is about 150 lbs.

1.5 l syringe - \$250

list: unknown. MedCon: VG. A large, 1.5 l syringe for injection of large volumes of fluid by hand. Unit is approximately 12 inches long as shown in photo. Made by Hans Rudolph company.

Unit disassembles with thumb screws for cleaning.

Shipping weight is about 10 pounds.

Surgical drill and irrigator - \$1,975

List: \$12,350. MedCon: G. Xomed micro craft irrigator, with mini micro craft surgical drill.

System features:

- high speed air powered surgical drill
- compressor is self contained in unit
- irrigation unit provides irrigation to surgical site
- comes with dual foot controls as shown
- wired for 110-220 VAC, 50-60 hertz

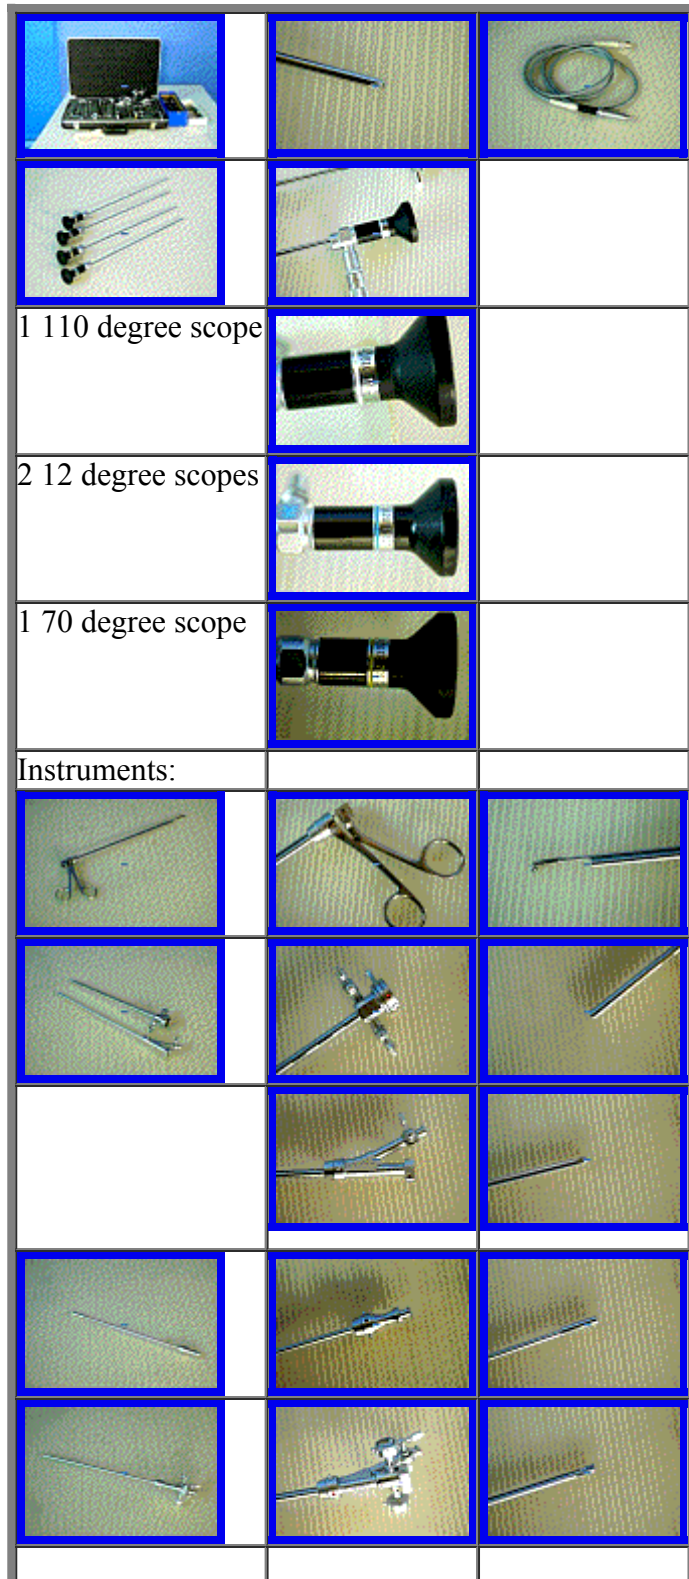

Shipping weight is about 45 pounds.

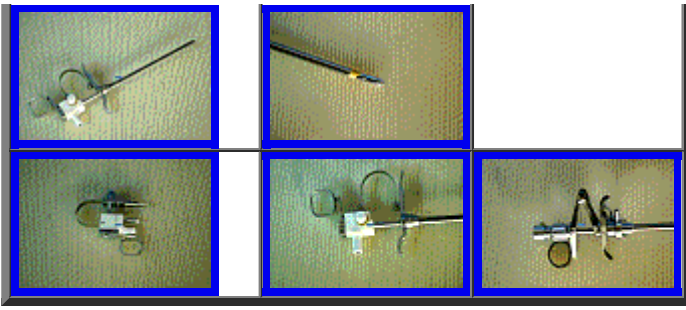

Cystoscopy surgical set - \$4,975

List: \$17,320. MedCon: ex. Olympus cystoscopy surgical set. Consists of four surgical cystoscopes (optical instruments), a fiber optic light guide, and 18 instruments as shown.

Scopes are sized so that they fits in interior of instruments.

Shipping weight in case is about 30 pounds.

Evacuation containment system - \$375

List: \$2,790. MedCon: ex. A suction and filtration system for highly infectious fluids and substances. on castors, self contained, model ECS 1000, made by medical development systems.

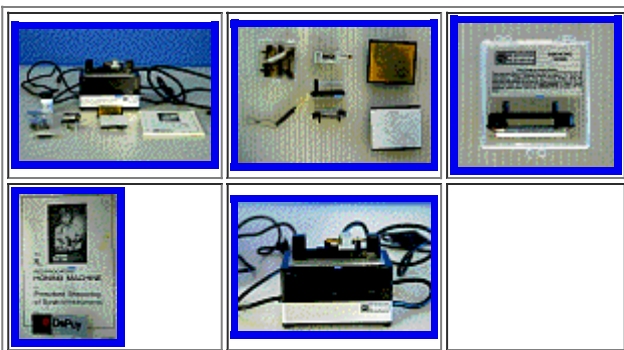

Shipping weight is about 75 lbs.

Surgical instrument sharpening hone - \$750

List: \$1,450. MedCon: ex. Rx honing machine, reciprocating honing machine, for prescribed sharpening of surgical instruments, made by Depue surgical.

Features:

- small, tabletop unit
- includes various shaped abrasive tips as shown, including one diamond sharpening stone
- full instruction manual

Shipping weight is about 25 lbs.

Ultrasonic kidney stone lithotripter - \$2,500

List: \$14,780. MedCon: VG. Karl Storz table top ultrasound lithotripter, model 27086C.

Features:

- tabletop unit
- instructions for use printed on top of unit as shown
- three transducers included, as shown

Shipping weight is about 35 lbs.

Smoke evacuator - \$975

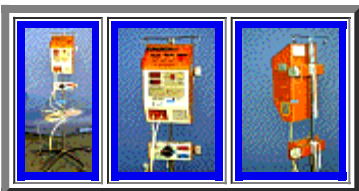

List: \$4,200. MedCon: ex. Stackhouse laser smoke evacuation unit, model ES 2000. Evacuates and filters smoke generated during laser and election surgical procedures. May be used in operating rooms, dermatology centers, surgical centers, OBGYN and physicians offices.

Shipping weight is about 75 lbs.

Automatic tourniquet system - \$1,750 each

List: \$6,350. MedCon: G. Aspen labs model ATS 1000 automatic tourniquet. Unit comes without cuff as shown in photo, comes with junction box, pole, hose, and basket.

Features:

- battery or wall current operation
- digital time display, elapsed
- digital pressure display, mmHg
- dual cuff support

Shipping weight is about 75 lbs. each. Two units in stock.

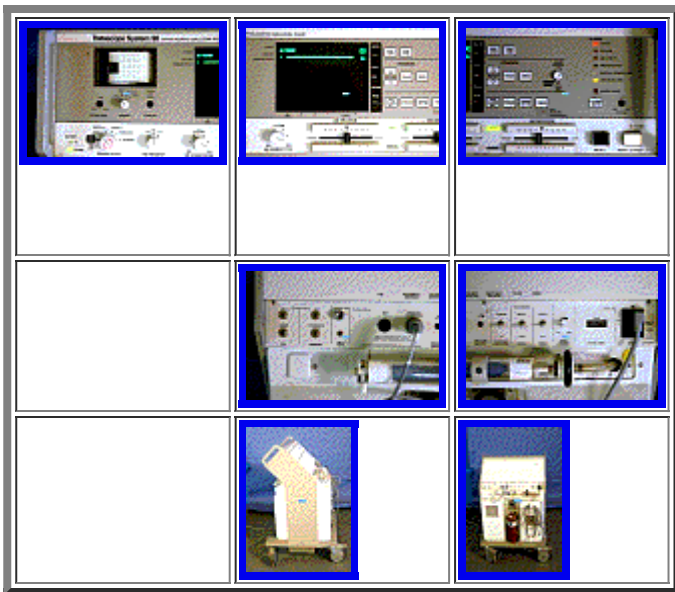

Intra-aortic catheter balloon pump - \$4,000

List: \$65,800. MedCon: G. Intra-aortic catheter balloon pump, made by Datascope, model system 90. This unit uses helium, and carefully controls a catheter during invasive heart procedures.

Features:

- self contained helium supply
- operates off of wall current, with built-in rechargeable battery backup
- built-in ECG strip chart recorder
- built in ECG display
- built in pressure displays
- intra-aortic balloon fill button
- assist/stand by button
- selectable trigger mode
- adjustable intra-aortic balloon frequency
- adjustable intra-aortic balloon augmentation
- adjustable intra-aortic balloon inflation
- 4 pressure component display, with adjustable position reference line
- adjustable alarms
- alarm indicator lights for trigger, gas loss, intra-aortic balloon catheter, pneumatic drive, diastolic augmentation, low helium tank, and system failure
- self contained unit on wheels and cart, as shown

We have a second unit, marked as defective, that will need repair and calibration before use, US \$1,475.

Shipping weight is about 350 lbs.

Intra-aortic catheter balloon pump - \$4,000

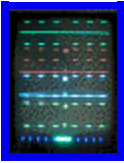

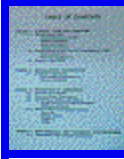

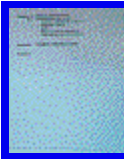

List: \$36,041. MedCon: VG. Kontron instruments model K 2000 intra-aortic catheter balloon pump. Unit new in 1987.

Features:

uses self-contained helium cylinder for balloon inflation
inputs for ECG monitor, arterial pressure and auxiliary pressure the line outputs for ECG, arterial pressure, balloon pressure, and assist INT

- selectable ratio
- trigger pattern
- ECG lead monitoring
- AP source monitoring
- adjustable inflation volume
- adjustable deflation
- six channel color display monitor, as shown

control display and monitoring screen		
view of back of unit and input connectors		
view of helium cylinder		
user manual, with the table of contents shown		
		

Unit comes with user manuals, as shown.

Shipping weight is about 300 lbs.

Surgical suction pump - \$275

List: \$1100. MedCon: VG. Egnell suction pump, made by Ameda surgical. gauges show elapsed time, and vacuum in mm Hg and bar. Vacuum suction is adjustable. Mounted on pole with five castors.

shipping weight is about 75 lbs.

Bone grinder - \$750 each

List: \$2,200. MedCon: VG. Bone grinder, for preparing bone tissue into paste for use as orthopedic material, or for stimulating bone implant growth. Disassembles into three pieces: lid, grinding chamber, and power base. Lid and grinding chamber may be autoclaved. Unit has a water jacket that surrounds grinding chamber, so that cool water may be circulated to keep the chamber cool during grinding. With electrical safety interlock

eight units in stock. Shipping weight is about 40 lbs. each.

Electric bone grinder - \$475

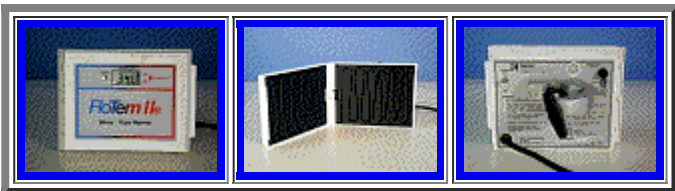

List: \$1,300. MedCon: G. Made by Janke & Kunkel, model a 10. Unit has a water jacket, with connection tubes, and is made of stainless steel.

Shipping weight is about 30 lbs.

Blood warmer - \$375

List: \$2,300. MedCon: VG. Flotem IIE blood/ fluid warmer, uses standard IV tubing that goes through unit to warm fluid to 37 degrees C. Made by Datachem.

10 units in stock. Shipping weight is about 20 pounds.

Cooling water bath - \$1,275 each

List: \$1,100. MedCon: G. Lipshaw frigi-tray, model 270. For cooling specimens and tissues.

Shipping weight is about 100 pounds each.

Dimensions, interior:

- length: 12"
- width: 9.5"
- height: 5"

Dimensions, exterior:

- length: 16"
- width: 14"
- height: 27"

3 units in stock.

Hip bone drill set - \$975

List: \$9,500. MedCon: G. Drills are in good condition, however some sizes are missing. Zimmer HG Multilock Hip prosthesis intramedullary bone drill pack.

Consist of 2 sets of drills:

- 15.5 mm
- 13.5 mm
- 12.5 mm
- 11.5 mm
- 10.5 mm
- 8.5 mm

The second set has:

- 11.0 mm
- 11.5 mm
- 12.5 mm
- 13.5 mm

Shipping weight is about 40 pounds.

Universal pole clamp - 3 for \$145

List: \$55 each. MedCon: N. 3 way IV pole/ surgical attachment clamp. Adapts for either IV pole or flat surface mountings. "Quicktrans" clamp, cat # 8C100A, made for IVAC by Pryor products.

Black anodized aluminum, machined from 1 solid block.

About 130 units in stock.

Catheter stand - \$375

List: \$1,400. MedCon: G. Catheter stand, with a number of adjustable supports as shown. usually used to hand catheters and other long instruments in a cath lab or operating room.

Exterior dimensions:

- length: 24"
- width: 24"
- height: 58"

Shipping weight is about 75 pounds.

Nucleotome - \$1,750

List: \$9,200. MedCon: EX. Surgical Dynamics Nucleotome system, for automated percutaneous lumbar disectomy.

Features:

- all digital display
- self contained, except uses compressed external compressed air
- built in vacuum bottle holder
- on/off switch
- load/run switch
- 2 mm / 3 mm handpiece setting
- elapsed time counter
- adjustable cutting rate
- display of vacuum pressure, mm Hg

On stand, with accessories and cutting tip as shown.

Wired for 110 VAC 50/60 Hz.

Shipping weight is about 75 pounds.

Dual gas calibrator - \$475

List: \$1,700. MedCon: G. Kontron gas calibrator model 345.

Features:

- analog display

- adjusting buttons
- cylinders intakes in rear of unit

Shipping weight is about 25 pounds.

Cardiac output computer - \$850

List: \$4,400. MedCon: VG. American Edwards laboratories model SAT-1 cardiac output computer.

Features:

- digital display of blood oxygenation
- digital display of CO, in liter / minute
- data connections in rear panel
- computer display
- digital display for alarm / alert

Shipping weight is about 25 pounds.

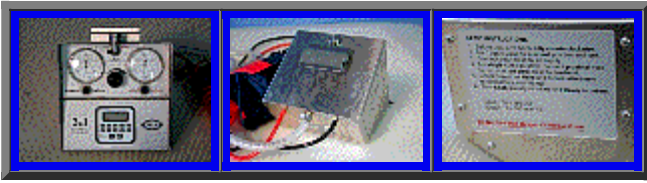

Pneumatic tourniquet - \$750

List: \$2,900. MedCon: VG. Pneumatic tourniquet, with timer. 3 in 1 tourniquet by Stille. Usually power by nitrogen or compressed air.

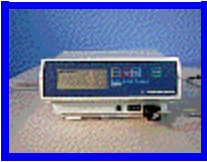

Features:

- proximal / distill pressure selection
- 2 analog meters display pressures in mm Hg
- inflate switch
- deflate proximal button
- deflate distill button
- digital timer / stopwatch

Shipping weight is about 15 pounds.

Cardiac output computer - \$375 each

List: \$3,375. MedCon: VG. Cardiac output computer by Baxter / Edwards, model Com-1. Unit used during cardiac catheterization and other procedures to calculate patient heart flow performance.

Unit does not include disposable patient sensors and electrodes.

4 units in stock. Shipping weight is about 15 pounds.

Surgical saw / wire driver - \$2,750

List: \$14,750. MedCon: EX. Stryker surgical saw system.

Comes with the following:

- Stryker wire driver 'orthopower' Stryker part number 277-80
- recipesaw model 32 insert
- rotoOsteotome model 10 insert
- oscillating saw model 30 insert
- rack with 8 reciprocating blades, as shown in photo
- rack with 8 liner blades, as shown in photo

- tray with 7 accessories
- sterilization and carrying case
- air hose

Shipping weight is about 25 pounds.

Lymphatic sequential compression device - \$450 each

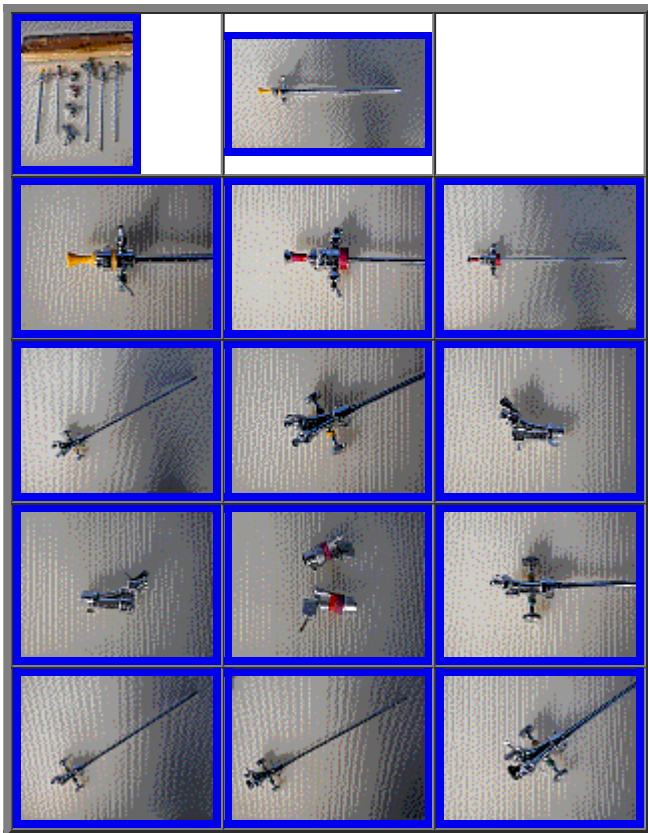

List: \$2,400. MedCon: EX. SCD lymphatic compression device, model 5320, made by Kendall medical. For keeping blood flow moving through lymphatic system, after surgical treatment of lymphatic diseases, for example, a mastectomy procedure. Also called a sequential compression device. Uses external cuffs (not included). Does include compression hose. Controls include digital control of both pressure and heating and cooling of cuff, with cycle monitor. Small, compact table

top units.

2 units in stock.

Trocars / laproscopic instruments - \$500

List: \$3,890. MedCon: VG. Set of 4 instruments with accessories, as shown in pictures. By R Wolf. With adapters, small pieces and sterilization storage case.

Shipping weight is about 5 pounds.

Fluid transfer unit - \$375

List: \$2700. MedCon: G. Richard James model FTS-100 fluid transfer system. Digital display and control of both pressure and vacuum. Has connections in front for 1 or 2 fluid containers, and a connection in back for gas input and a footswitch (switch is not included).

Wired for 85-265 VAC, 47-63 Hz. Shipping weight is about 30 pounds.

Hypothermic air therapy system - \$600

List: \$1,940. MedCon: VG. Life air 1000 hypothermic therapy system made by Progressive dynamics medical group. Unit provides warm air to a blanket to maintain patients temperature. Does not include disposable blankets.

Adjustable temperature, with LED indicator.

Shipping weight is about 60 pounds.

Blood tubing warmer - \$145 each

List: \$650. MedCon: G. Baxter blood tubing warmer. Mounts on IV pole, tubing wraps around heating element to maintain temperature at 98.6 degrees. Heats IV solutions through IV line.

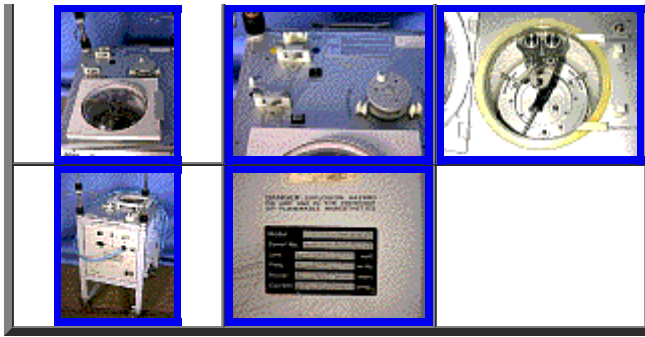

12 units in stock.

Auto transfusion system - \$1,275 each

List: \$12,340. MedCon: G. An older but usable blood reprocessing, or autotransfusion system, by Electromedics, model BT 795/V. This unit collects, reprocesses and washed blood from a surgical incision and reinfuses it back into patient.

2 units in stock. Shipping weight is about 250 pounds each.

Iontophoretic drug delivery system - \$475

List: \$1,900. MedCon: VG. Phoresor II iontophoretic drug delivery system. Model PM 700, by Iomed. A small, battery operated device that fits on a patient's belt to administer corticosteroids, local anesthetics and other water soluble compounds as an alternative to hypodermic injection.

In carrying case, shipping weight is about 5 pounds.

Arthroscopic irrigation unit - \$475

List: \$3,720. MedCon: VG. Stryker Linvatec pressurized arthroscopic irrigation unit.

Features:

- digital display of arthroscopic distension, (pressure) in mm Hg
 - adjustable distension pressure, 0-150 mm Hg
 - alarm indicators for transducer malfunction, overpressure and blocked line
 - run/prime/off switch
 - power on/off
 - uses disposable chambers

Shipping weight is about 55 pounds.

Surgical drill/ bone saw on stand - \$875

List: \$2,300. MedCon: VG. Zimmer model 611 surgical power drill / bone saw. Features:

- variable speed control footswitch
- unit may be sterilized in an autoclave
- may be used in an explosive atmosphere, such as in the presence of flammable anesthetics

Shipping weight is about 45 pounds. Wired for 110 VAC, 50 / 60 Hz.

Surgical staple pliers - \$85 each

List: \$277 each. MedCon: EX. Surgical stapler pliers. Made out of surgical grade stainless steel. With color coded handles for small, medium and large sizes

Small				
Medium				
Large				

Smoke evacuator - \$475

List: \$2,300. Stackhouse made for cooper Lasersonics. Removes and filters smoke and particulates from laser, cautery and other ablative procedures. Shipping weight is about 50 pounds.

Dimensions are about 24 x 24 x 24."

Blood warmer - \$150

List: \$450. MedCon: VG. Dupaco model Hemokinetictherm blood warmer. Small, solidly built blood warmer. With power on indicator light, heater on indicator light, and temperature gauge.

Shipping weight is about 25 pounds.

Transcranial Doppler - \$250

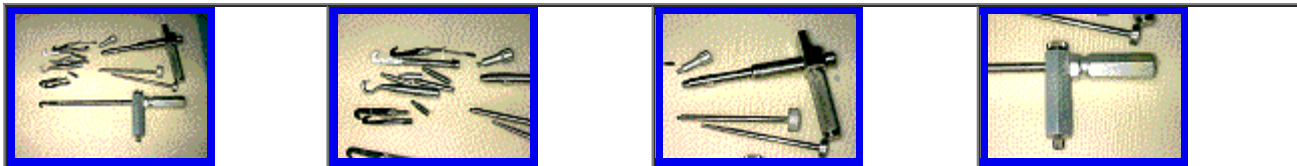

List: \$1,250. MedCon: G. Intracranial Doppler ultrasound, with an audio output. Used to produce a qualitative assessment of cavities (sinuses, etc.) inside a patient head. Unit is about 20 years old, but functional. Includes probe.

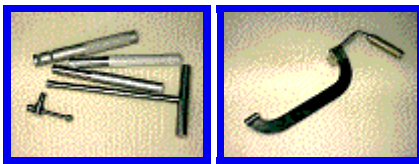

Midliner, model ML-1. Shipping weight is about 20 pounds.

Orthopedic surgical instrument set - \$475

List: \$3,800. MedCon: G. Orthopedic surgical instrument set, by Stryker, with tips and accessories as pictured.

Orthopedic surgical instrument set - \$275

List: \$3,800. MedCon: G. Orthopedic surgical instrument set, by various manufacturers, as pictured

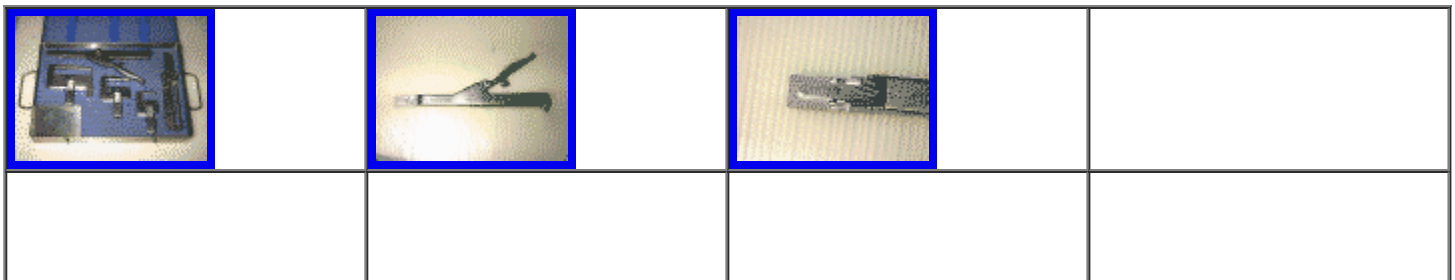

Arthroscopy driver - \$475

List: \$5,600. MedCon: VG. Aesculap arthroscopy driver. 0-20,000 rpm. On rolling stainless steel stand. Unit is wired for 120 VAC 50/60 Hz. Model GA-141. Made in west Germany.

Surgical instrument set - \$750

List: \$4,300. MedCon: VG. "Surgeon's choice 5 instrument set, by American V. Mueller company.

We think that this is a clamp and stapler set. In its own case for sterilization.

Surgical power tool driver - \$900 each

List: \$8,600. MedCon: VG. Stortz model 750 Ergo series power tool drive control not include hand tools or motor. Features:

- footswitch
- adjustable motor speed
- speed range indicator (7,000, 30,000 or 60,000 RPM)

3 units in stock.

Wound debridement system - \$375 each

List: \$3,500. MedCon: G. Zimmer Pulsavac wound debridement system. Uses disposable fluid pump chamber and tips. With operator's instructions.

On 5 castor stand, adjustable height 3 place IV pole. On/off switch, pressure control.

2 units in stock.

Handpiece - \$600

List: \$2,300. MedCon: EX. Concept Surgical handpiece. Air driven, built in electrical controls. Either model or serial # 4010.

Switches:

- Forward / reverse
- on/off
- increase speed
- decrease speed

Laryngoscope blades - \$40 each

List: \$145 each. MedCon: VG. Made by Rusch, Gibson, Welch Allyn, Foregger and Penlon. Includes down the throat light bulb.

Sizes 3, 4, 3/s and 4/s.

44 units in stock.

Blood warmer - \$225 each

List: \$1,300. MedCon: VG. Fenwall blood warmer, model BW-5, with collapsible dual IV pole clamps. For warming blood after removal from storage and before infusion into patient. Digital display of plate temperature in degrees Celsius. On/off switch., audible alarm, circuit breaker, wrap around cord storage on back of unit, carrying handle.

14 units in stock.
